1.3.1 Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability in transacting the Curriculum

In the contemporary educational landscape, the integration of crosscutting issues into the curriculum is a strategic imperative for institutions aiming to produce well-rounded and socially responsible graduates. This holistic approach involves weaving together diverse aspects such as professional ethics, gender sensitivity, human values, environmental consciousness, and sustainability throughout the academic experience. By doing so, educational institutions not only enhance the academic rigor of their programs but also equip students with the skills, perspectives, and values needed to navigate an increasingly complex and interconnected world.

Professional Ethics:

The integration of professional ethics into the curriculum is a cornerstone of preparing students for successful and responsible professional lives. The course on Professional Ethics and Human Values has been offered as part of the curriculum designed by affiliating University. Institutions recognize that technical proficiency alone is insufficient, ethical considerations must be central to decision-making in various fields. Incorporating professional ethics into the curriculum not only imparts a theoretical understanding of moral principles but also facilitates the development of critical thinking skills essential for navigating ethical dilemmas. Interdisciplinary collaborations and real-world simulations enable students to grapple with the complexities of ethical decision-making.

Gender Sensitivity:

Gender sensitivity is a critical dimension of inclusivity and social equity. Educational institutions recognize the importance of dismantling gender stereotypes and fostering environments that embrace diversity. Integrating gender sensitivity into the curriculum involves incorporating perspectives on gender roles, identity, and equality across disciplines. By integrating gender sensitivity into the curriculum, institutions contribute to the creation of a more equitable society by preparing students to identify and address gender-based challenges in their future professional and personal lives. The college has been conducting the Seminars on Gender Values, Women Safety to faculty, students so as to establish an inclusive society.

Human Values:

While academic excellence is paramount, the holistic development of individuals requires a focus on human values. Integrating human values into the curriculum involves emphasizing principles such as empathy, integrity, respect, and compassion. These values are woven into both academic and extracurricular activities, creating a learning environment that nurtures not only intellectual growth but also personal and ethical development. Reflective exercises, case studies, and service-learning opportunities allow students to apply human values in real-world situations. Exposure to diverse cultural and ethical perspectives fosters a global mindset.

Environment and Sustainability:

The course on Environment and Sustainability has been offered as part of the curriculum offered by affiliating University. Incorporating themes of sustainability into coursework goes beyond theoretical discussions. The college has been implementing the Practical initiatives, such as eco-friendly campus initiatives, and partnerships with environmental organizations, allow students to apply their knowledge in real time. Collaborations with industry partners, government agencies, and non-profit organizations can enhance the practical relevance of the curriculum, which provides students with valuable insights and experiences that go beyond traditional academic boundaries.

Thus Institution integrates issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum

6. C programs to create process chaining, spawning
7. C programs to error handling using `errno()`, `perror()` function
8. C programs to use pipe system call for inter process communication

Module II

1. C programs to study process scheduling implementing FCFS, Shortest Job First, and Round Robin algorithms
2. C programs to study page replacement implementing FIFO, Optimal, and LRU page replacement algorithms
3. C programs to study deadlock avoidance and detection
4. C Programs to simulate free space management (first fit, best fit, worst fit).
5. C programs to study disk scheduling algorithms (i.e., SCAN, SSTF, LOOK, etc.,)

2. Unix programming by Stevens, Pearson Education.
3. Shell programming by Yashwanth Kanetkar.
4. Operating System Concepts by Silberschatz, and Peter Galvin.

CS2109 : INTELLECTUAL PROPERTY RIGHTS

Course Objective:

- * To introduce the students to Intellectual Property Rights (IPR) which is a key component in modern knowledge management processes
- * To create consciousness on IPR in students at an early stage of their education so that they develop an appreciation for ethical and rightful use of existing knowledge
- * To make them understand how to take ownership of knowledge they may develop as a result of their creative innovations, take ownership and either drive themselves in becoming entrepreneurs or become responsible knowledge users in society
- * To expose students some of the recent debates on the societal implications of IPR and its role in national/international trade and socio-economic development.

Course outcome:

Learners will be able to

- * identify the types of intellectual property protection available for their research outcome

- * conduct patent search and analyse patentability of the invention
- * understand the basic structure of Patent document
- * understand the registration and prosecution of different IPs
- * understand the basics of IP commercialization and techno/commercial/legal issues in IPR commercialization

SYLLABUS

Introduction: Concept of property, Intellectual Property (IP) and Intellectual Property Rights (IPR), Importance of IP, Value creation through IP, Advantages of IP protection, Competitive advantage, Promotion of social good, Prevention of duplicates, counterfeit products and IP.

Evolution of IP system: Historical view of IP system in India and abroad, Legal basis and rationale behind development of IP system, WTO and TRIPS agreement, Role of WIPO.

Types of IPR: Major forms of IP in India and globally, Acts enacted in India related to IP.

Patent: Concept, Life of patent, Rights of Patentee, Criteria of patentability- novelty, non-obviousness, and utility, Non-patentable inventions.

Patent filing and prosecution: Prior art search, Process of obtaining a patent in India, Provisional and complete specification, Convention application, Patent Cooperation Treaty (PCT), Patent Infringement and Enforcement.

Trademark: Types of trademarks, Trademark and Brand, Trademark Registration, Trademark Infringement.

Copyright: Copyrights and related rights, Copyright registration, Copyright infringement, Section 52 of Indian Copyright Act.

Industrial Design: What is Industrial design, Design registration, Design infringement.

Trade Secret: What are Trade Secrets, How trade secrets are maintained in trade and business.

Other forms of IP: Semiconductor Integrated Circuits Layout Design, Geographical Indications, Protection of Plant Varieties & Farmers' right, Traditional knowledge.

IP commercialization: Licensing & Royalty; Technology Transfer; IP assignment, Compulsory License.

Emerging areas: Pat informatics, IP and bank loan, IP insurance, IP audit, IP valuation, IP management, Use of artificial intelligence in IP enforcement, Open innovation.

CS2110 : ENVIRONMENTAL SCIENCE

Course Objectives

The objectives of the Environmental Science course are to

- * Familiarize the fundamental aspects of environment and the environmental management'

- * Provide information of some of the important international conventions which will be useful during the future endeavours after graduation.

- * Make realize the importance of natural resources management for the sustenance of the life and the society.

- * Apprise the impact of pollution getting generated through the anthropogenic activities on the environment

- * Provide the concept of Sustainable Development, energy and environmental management

- * Impart knowledge on the new generation waste like e-waste and plastic waste.

Course Outcomes

After completion of the course the students will have

- * Knowledge on the fundamental aspects of environment and the environmental management

- * The knowledge on the salient features of the important international conventions

- * Understanding of the importance of natural resources management for the sustenance of the life and the society.

- * Familiarity on various forms of pollution and its impact on the environment.

- * Understand the elements of Sustainable Development, energy and environmental management

- * Knowledge on the new generation waste like e-waste and plastic waste.

SYLLABUS

Introduction: Structure and functions of Ecosystems-Ecosystems and its Dynamics-Value of Biodiversity-impact of loss of biodiversity, Conservation of bio-diversity. Environmental indicators - Global environmental issues and their impact on the ecosystems. Salient features of international conventions on Environment: Montreal Protocol, Kyoto protocol, Ramsar Convention on Wetlands, Stockholm Convention on Persistent Organic Pollutants, United Nations Framework Convention on Climate Change (UNFCCC),

Natural Resources Management: Importance of natural resources management-Land as resource, Land degradation, Soil erosion and desertification, Effects of usage of fertilizer, herbicides and pesticide- watershed management.

Forest resources: Use and over-exploitation, Mining and dams – their effects on forest ecosystems and the living beings.

Water resources: Exploitation of surface and groundwater, Floods, droughts, Dams: benefits and costs.

Mineral Resources: Impact of mining on the environment and possible environmental management options in mining and processing of the minerals. Sustainable resource management (land, water, and energy), and resilient design under the changing environment.

Environmental Pollution: Local and Global Issues. Causes, effects and control measures. Engineering aspects of environmental pollution control systems.

Air pollution: impacts of ambient and indoor air pollution on human health. Water pollution: impacts water pollution on human health and loss of fresh water resources. Soil pollution and its impact on environment. Marine pollution and its impact on blue economy. Noise pollution.

Solid waste management: Important elements in solid waste management- Waste to energy concepts. Air (prevention and control of pollution) Act, Water (prevention and control of pollution) Act and their amendments. Salient features of Environmental protection Act, 1986.

Sustainable Development: Fundamentals of Sustainable Development– Sustainability Strategies and Barriers – Industrialization and sustainable development. Circular economy concepts in waste (solid and fluid) management.

Energy and Environment: Environmental Benefits and challenges, Availability and need of conventional energy resources, major environmental problems related to the conventional energy resources, future possibilities of energy need and availability. Solar Energy: process of photovoltaic energy conversion, solar energy conversion technologies and devices, their principles, working and applications, disposal of solar panel after their usage. Biomass energy: Concept of biomass energy utilization, types of biomass energy, conversion processes, Wind Energy, energy conversion technologies, their principles, equipment and suitability in context of India.

Management of plastic waste and E-waste: Sources, generation and characteristics of various e- and plastic wastes generated from various industrial and commercial activities; Waste management practices including onsite handling, storage, collection and transfer. E-waste and plastic waste processing alternatives. E-Waste management rules and Plastic waste management rules, 2016 and their subsequent amendments.

Visakhapatnam,
03-10-2023.

From

Prof. V Radha Devi,
Head of the Department,
Department of Basic Sciences & Humanities,
Dr. Lankapalli Bullayya College of Engineering,
Visakhapatnam.

To

The Principal,
Dr. Lankapalli Bullayya College of Engineering,
Visakhapatnam.

Respected Sir,

Sub: Request for permission to organize a session on Fostering Inclusive Classrooms-Embracing Diversity-Reg

The Leadership Vertical of CII IWN Andhra Pradesh would like to conduct a session on the topic Fostering Inclusive Classrooms-Embracing Diversity to the teaching staff of Dr Lankapalli Bullayya College of Engineering in Block 8 Seminar Hall on 14-06-2024 from 3pm to 4pm. The resource persons would be Dr T Vasudha and Dr P Usha.

The following topics would be covered in the session.

- Understanding Diversity-Gen Z and Gen Alpha/Binary and Non Binary
- Recognizing the Need for Inclusive Classrooms-What today's workplaces are looking for?
- Identifying Barriers to Embrace Diversity- Biases and Stereotypes
- Amplifying on the Role of the Teachers who shape tomorrow's Leaders-Vocabulary for Inclusion in every conversation

I request you to kindly grant me permission to organize the event. The profiles of the resource persons are enclosed for your kind perusal.

Thanking you,

Yours sincerely
V. Radha Devi.

Session on Gender Diversity (14-06-2024)

Theme of the Event:

CII IWN, Andhra Pradesh in association with Dr Lankapalli Bullayya College of Engineering conducted a session on Fostering Inclusive Classrooms-Embracing Diversity for the Faculty of Dr Lankapalli Bullayya College of Engineering, Visakhapatnam, on 14 June 2024. The purpose of interactive training session was to acquaint the faculty with the concept of Diversity, need to be able to see it, acknowledge it, and celebrate it by offering equitable opportunities for the diverse population of students in their classrooms thereby making Inclusion a reality.

Prof D Deepak Chowdary, Principal of the college delivered the welcome address and set the tone for the session.

The Resource Person, Dr Usha Pantula, Chair, Leadership Pillar, CII IWN Andhra Pradesh and a Corporate Trainer, began her session by explaining the concepts of Diversity, Equity and Inclusion, throwing light on the need for understanding these concepts in the current world and imbibing them in interactions with students in order to make classrooms inclusive. The impact on the students nurtured in an equitable and inclusive classroom was highlighted in purview of the changing landscape of workplaces today. She enlightened the faculty on the various barriers to embrace diversity and discussed simple but conscious ways of overcoming them. The session ended with a consensus among all those present that the faculty who understands appreciates diversity, offers equity and indulges in inclusive conversations with students leaves a lasting impression on the student- who is a Leader in the making.

Over 60 faculty members actively participated in the interactive session that happened in the Block 8 Seminar Hall. Prof V Radha Devi, Executive Council Member of CII IWN Andhra Pradesh and Head, Department of Basic Sciences and Humanities, Dr LB College of Engineering, thanked Dr Usha Pantula for delivering an informative and interactive session. Ms Vara Manasa, Asst Professor, Department of Civil Engineering, coordinated the session.

About College

Dr. Lankapalli Bullayya College of Engineering formerly known as Dr. Lankapalli Bullayya College of Engineering for Women was started in 2010 as a part of the group of educational institutions run by the Society for Collegiate Education, Visakhapatnam by the philanthropists and educationalists who visualized the need for serving the society by means of affordable, accessible and qualitative, value-based education.

There were four branches of Engineering in the college including CSE, ECE, EEE, and Civil with an annual intake of 120 each for CSE and ECE while the intake for EEE and Civil was 60 seats. The Women's Engineering College then evolved into a full-fledged Co-education Engineering college in the academic year 2020-21. The college is Affiliated with Andhra University, Visakhapatnam, and approved by AICTE, New Delhi.

Our students participated actively and won prizes in various co-curricular and extra curricular activities. The college has a dedicated R&D cell, Entrepreneurship Cell, and Internal Quality Assurance Cell that continue to guide and mentor the Teaching community towards academic excellence.

Program Schedule

Name of the Program: One Day Workshop on Professional Ethics

Date: 27-09-2023

Time 10:00 AM – 04:00 PM

Venue: Block-7 Seminar Hall

S.No	Time	Topics to be covered
1	10:00 AM - 11:00 AM	Understanding Professional Ethics
2	11:00 AM - 11:15 AM	Break
2	11:15 AM - 12:00 PM	Ethical Decision-Making
3	12:00 PM - 01:00 PM	Codes of Conduct and Professional Responsibility
4	01:00 PM - 01:45 PM	Lunch Break
4	01:45 PM - 02:45 PM	Ethics in Leadership and Corporate Governance
5	02:45 PM - 03:15 PM	Interactive Activity: Ethical Scenarios
6	03:15 PM - 03:30 PM	Break
7	03:30 PM - 04:00 PM	Q&A Session, Feedback, and Closing

DATE: 30-09-2023

Report on One Day Workshop on Professional Ethics

Date of Event: 27-09-2023

Details of the Resource Person: Mr. Syed Mujib Rahaman
Associate Professor, CSE Department
Dr.Lankapalli Bullayya College of Engineering.

Details of the Program Coordinators: 1. Mrs. P Sridevi,
Assistant Professor, Civil Department.

2. Mrs. V Sarada,
Assistant Professor, CSE Department.

Number of Students Attended: 45

The one-day workshop on Professional Ethics, conducted from 10:00 AM to 04:00 PM, provided an in-depth understanding of the core concepts of ethics and their application in professional settings. The workshop commenced with an introductory session on "Understanding Professional Ethics," where participants were acquainted with the fundamental principles of ethics, the importance of professionalism, and various ethical theories. This session laid the groundwork for the participants, helping them recognize the significance of maintaining high ethical standards in their respective professions.

The workshop then progressed to more specialized topics, including "Ethical Decision-Making" and "Codes of Conduct and Professional Responsibility." During these sessions, participants learned about various ethical decision-making models and frameworks, which are essential for navigating ethical dilemmas in the workplace. Additionally, the discussion on codes of conduct emphasized the importance of professional responsibility and accountability, providing participants with practical guidelines on adhering to ethical standards within their organizations.

In the latter part of the workshop, the focus shifted to "Ethics in Leadership and Corporate Governance," where the role of ethics in leadership was explored. Participants discussed the challenges of maintaining ethical standards in corporate governance and the strategies to foster an ethical workplace culture. An interactive activity on "Ethical Scenarios" allowed participants to apply the concepts learned by analyzing real-life ethical situations. The workshop concluded with a Q&A session, where participants engaged in a lively discussion, followed by feedback collection and closing remarks. The workshop was well-received, and participants left with a deeper understanding of how to incorporate ethical principles into their professional lives.

About College

Dr. Lankapalli Bullayya College of Engineering formerly known as Dr. Lankapalli Bullayya College of Engineering for Women was started in 2010 as a part of the group of educational institutions run by the Society for Collegiate Education, Visakhapatnam by the philanthropists and educationalists who visualized the need for serving the society by means of affordable, accessible and qualitative, value-based education.

There were four branches of Engineering in the college including CSE, ECE, EEE, and Civil with an annual intake of 120 each for CSE and ECE while the intake for EEE and Civil was 60 seats. The Women's Engineering College then evolved into a full-fledged Co-education Engineering college in the academic year 2020-21. The college is Affiliated with Andhra University, Visakhapatnam, and approved by AICTE, New Delhi.

Our students participated actively and won prizes in various co-curricular and extra curricular activities. The college has a dedicated R&D cell, Entrepreneurship Cell, and Internal Quality Assurance Cell that continue to guide and mentor the Teaching community towards academic excellence.

Report on One Day Workshop on Professional Ethics

Date of Event: 27-09-2023

Details of the Resource Person: Mr. Syed Mujib Rahaman
Associate Professor, CSE Department
Dr.Lankapalli Bullayya College of Engineering.

Details of the Program Coordinators: 1. Mrs. P Sridevi,
Assistant Professor, Civil Department.

2. Mrs. V Sarada,
Assistant Professor, CSE Department.

Number of Students Attended: 120

The one-day workshop on Professional Ethics, conducted from 10:00 AM to 04:00 PM, provided an in-depth understanding of the core concepts of ethics and their application in professional settings. The workshop commenced with an introductory session on "Understanding Professional Ethics," where participants were acquainted with the fundamental principles of ethics, the importance of professionalism, and various ethical theories. This session laid the groundwork for the participants, helping them recognize the significance of maintaining high ethical standards in their respective professions.

The workshop then progressed to more specialized topics, including "Ethical Decision-Making" and "Codes of Conduct and Professional Responsibility." During these sessions, participants learned about various ethical decision-making models and frameworks, which are essential for navigating ethical dilemmas in the workplace.

Additionally, the discussion on codes of conduct emphasized the importance of professional responsibility and accountability, providing participants with practical guidelines on adhering to ethical standards within their organizations.

In the latter part of the workshop, the focus shifted to "Ethics in Leadership and Corporate Governance," where the role of ethics in leadership was explored. Participants discussed the challenges of maintaining ethical standards in corporate governance and the strategies to foster an ethical workplace culture. An interactive activity on "Ethical Scenarios" allowed participants to apply the concepts learned by analyzing real-life ethical situations. The workshop concluded with a Q&A session, where participants engaged in a lively discussion, followed by feedback collection and closing remarks. The workshop was well-received, and participants left with a deeper understanding of how to incorporate ethical principles into their professional lives.

About College

Dr. Lankapalli Bullayya College of Engineering formerly known as Dr. Lankapalli Bullayya College of Engineering for Women was started in 2010 as a part of the group of educational institutions run by the Society for Collegiate Education, Visakhapatnam by the philanthropists and educationalists who visualized the need for serving the society by means of affordable, accessible and qualitative, value-based education.

There were four branches of Engineering in the college including CSE, ECE, EEE, and Civil with an annual intake of 120 each for CSE and ECE while the intake for EEE and Civil was 60 seats. The Women's Engineering College then evolved into a full-fledged Co-education Engineering college in the academic year 2020-21. The college is Affiliated with Andhra University, Visakhapatnam, and approved by AICTE, New Delhi.

Our students participated actively and won prizes in various co-curricular and extra curricular activities. The college has a dedicated R&D cell, Entrepreneurship Cell, and Internal Quality Assurance Cell that continue to guide and mentor the Teaching community towards academic excellence.

Report:

The one-day workshop on Professional Ethics, conducted from 10:00 AM to 04:00 PM, provided an in-depth understanding of the core concepts of ethics and their application in professional settings. The workshop commenced with an introductory session on "Understanding Professional Ethics," where participants were acquainted with the fundamental principles of ethics, the importance of professionalism, and various ethical theories.

This session laid the groundwork for the participants, helping them recognize the significance of maintaining high ethical standards in their respective professions.

The workshop then progressed to more specialized topics, including "Ethical Decision-Making" and "Codes of Conduct and Professional Responsibility." During these sessions, participants learned about various ethical decision-making models and frameworks, which are essential for navigating ethical dilemmas in the workplace.

Additionally, the discussion on codes of conduct emphasized the importance of professional responsibility and accountability, providing participants with practical guidelines on adhering to ethical standards within their organizations. In the latter part of the workshop, the focus shifted to "Ethics in Leadership and Corporate Governance," where the role of ethics in leadership was explored.

Participants discussed the challenges of maintaining ethical standards in corporate governance and the strategies to foster an ethical workplace culture.

An interactive activity on "Ethical Scenarios" allowed participants to apply the concepts learned by analyzing real-life ethical situations. The workshop concluded with a Q&A session, where participants engaged in a lively discussion, followed by feedback collection and closing remarks. The workshop was well-received, and participants left with a deeper understanding of how to incorporate ethical principles into their professional lives.
