Dr. Lankapalli Bullayya College of Engineering

New Resapuvani Palem, Visakhapatnam

Sponsored by Society of Collegiate Education

Approved by AICTE, Affiliated to Andhra University

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning the higher skills in new technologies and build their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design, and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Extending the benefits of available technological, societal and advancements in the field of medicine and health care to the most vulnerable populations of the world is the key objective with which UNICEF functions. The NSS unit of Dr.Lankapalli Bullayya College of Engineering has been selected for the UNICEF Project on Engagement of NSS in AP for Risk Communication and Community Engagement. Under this programme the NSS unit would like to conduct "Awareness campaign regarding Mother's milk... immunity boosters to Infants to residents of the Resapuvanipalem slum" on 28-06-2022. Risk Communication and Community Engagement RCCE is one of the key pillars of UNICEF's COVID-19 response. This is being done following the rights-based, evidence-based, people-centered approach with accountability approach of RCCE for extending all possible help through community participation while also ensuring that no-harm is done to the selected vulnerable populations. The most vulnerable section of the population include newly born babies and infants who are breastfeeding and are therefore liable to suffer from malnutrition incase the mothers are not aware of the benefits of breast milk to the infantile health. In this regard, the NSS Unit of Dr.Lankapalli Bullayya College of Engineering felt the need to conduct an awareness programme highlighting the importance of Breast feeding and Breast milk as an important and natural source of Immunity. Breast Milk acts as natural immunity boosters to the infants while avoiding the possible side effects of artificial immunity boosters available in the market.

For this purpose the NSS cadets prepared detailed charts in simple language using diagrams and pictures which are very easy to understand. Then they plan to explain the content of these charts in local Telugu language for easy dissemination of knowledge. The NSS cadets under the guidance of the NSS Co-ordinator also aim to ensure that any doubts regarding Breast milk and Breast feeding are clarified immediately without any delay.

Title: "Awareness campaign regarding Mother's milk... immunity boosters to Infants to residents of the Resapuvanipalem slum"

Co-ordinator: Mrs. S. Siva Jyothi,
Programme Officer, NSS UNIT,
Dr.Lankapalli Bullayya College of Engineering

Date and Venue: 28-06-2022, Respuvanipalem Slum, Visakhapatnam.

ABOUT THE PROGRAM:

The NSS Unit of the College has adopted the Respuvanipalem slum to extend social services to the residents of that area. The NSS Cadets under the guidance of NSS Co-ordinator participated in a Rally starting from the College campus to Resapuvanipalem slum. Once they reached the slum, an "Awareness campaign was conducted regarding Mother's milk... immunity boosters to Infants to residents of the Resapuvanipalem slum". This was done while strictly following the COVID-19 Protocols. For this purpose, charts, pamphlets and posters which had already been prepared for this purpose by the NSS cadets were displayed to the residents of the slum and explained to them in the local Telugu language. These beneficiaries observed that they had obtained a good understanding of the importance of Breast feeding to the infants and the use of Breast milk as natural immunity boosters to the infants. The NSS Cadets too were pleased with the response and felt encouraged to work more towards societal awareness and wellbeing.

Dr. Lankapalli Bullayya College of Engineering

New Resapuvani Palem, Visakhapatnam

Sponsored by Society of Collegiate Education

Approved by AICTE, Affiliated to Andhra University

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning the higher skills in new technologies and build their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design, and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Extending the benefits of available technological, societal and advancements in the field of medicine and health care to the most vulnerable populations of the world is the key objective with which UNICEF functions. The NSS unit of Dr.Lankapalli Bullayya College of Engineering has been selected for the UNICEF Project on Engagement of NSS in AP for Risk Communication and Community Engagement. Under this programme the NSS unit would like to conduct "Awareness campaign about the Nutrients in the Mother's milk and precautionary measures to avoid Diarrhea among children to residents of Resapuvanipalem slum" on 30-08-2022. Risk Communication and Community Engagement RCCE is one of the key pillars of UNICEF's COVID-19 response. This is being done following the rights-based, evidence-based, people-centered approach with accountability approach of RCCE for extending all possible help through community participation while also ensuring that no-harm is done to the selected vulnerable populations. The most vulnerable section of the population include newly born babies and infants who are breastfeeding and are therefore liable to suffer from malnutrition incase the mothers are not aware of the benefits of breast milk to the infantile health. Since the breastfeeding infants are dependent on mothers milk for their nutrition, its replacement with commercially available alternatives exposes them to artificially made products increasing their susceptibility to digestive issues such as Diarrhea. In this regard, the NSS Unit of Dr.Lankapalli Bullayya College of Engineering felt the need to conduct an awareness programme highlighting the importance of Breast feeding and Breast milk to avoid infants suffering from Diarrhea.

For this purpose the NSS cadets prepared detailed charts in simple language using diagrams and pictures which are very easy to understand. Then they plan to explain the content of these charts in local Telugu language for easy dissemination of knowledge. The NSS cadets under the guidance of the NSS Co-ordinator also aim to ensure that any doubts regarding Breast milk and Breast feeding are clarified immediately without any delay.

Title: "Awareness campaign about the Nutrients in the Mother's milk and precautionary measures to avoid Diarrhea among children to residents of Resapuvanipalem slum"

Co-ordinator: Mrs. S. Siva Jyothi,
Programme Officer, NSS UNIT,
Dr.Lankapalli Bullayya College of Engineering

Date and Venue: 30-08-2022, Respuvanipalem Slum, Visakhapatnam.

ABOUT THE PROGRAM:

The NSS Unit of the College has adopted the Respuvanipalem slum to extend social services to the residents of that area. The NSS Cadets under the guidance of NSS Co-ordinator participated in a Rally starting from the College campus to Resapuvanipalem slum. Once they reached the slum, an "Awareness campaign about the Nutrients in the Mother's milk and precautionary measures to avoid Diarrhea among children to residents of Resapuvanipalem slum" on 30-08-2022. This was done while strictly following the COVID-19 Protocols. For this purpose, charts, pamphlets and posters which had already been prepared for this purpose by the NSS cadets were displayed to the residents of the slum and explained to them in the local Telugu language. These beneficiaries observed that they had obtained a good understanding of the importance of Breast feeding to the infants and the use of Breast milk to prevent infantile diarrhea. The NSS Cadets too were pleased with the response and felt encouraged to work more towards societal awareness and wellbeing.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning the higher skills in new technologies and build their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design, and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Extending the benefits of available technological, societal and advancements in the field of medicine and health care to the most vulnerable populations of the world is the key objective with which UNICEF functions. The NSS unit of Dr.Lankapalli Bullayya College of Engineering has been selected for the UNICEF Project on Engagement of NSS in AP for Risk Communication and Community Engagement. Under this programme the NSS unit would like to conduct "Awareness campaign regarding importance of Nutritive food and balanced diet to the children residing in the Resapuvanipalem slum" on 03-09-2022 . Risk Communication and Community Engagement RCCE is one of the key pillars of UNICEF's COVID-19 response. This is being done following the rights-based, evidence-based, people-centered approach with accountability approach of RCCE for extending all possible help through community participation while also ensuring that no-harm is done to the selected vulnerable populations. The most vulnerable section of the population alsoincludes children who usually suffer from malnutrition as a result of lack of awareness of their parents and guardians regarding the importance of Nutritive food and balanced diet for their healthy overall development. In case appropriate care is not taken to provide nutritive diet to the children they become highly susceptible to various nutritive deficiencies as well as poorly equipped immunologically to face any impending pandemic situations that seem to appear on a regular basis. The NSS unit of Dr.Lankapalli Bullayya College of Engineering felt the need to provide awareness to the parents and guardians of children residing in the Resapuvanipalem slum regarding importance of nutritive and balanced diet to the children.

For this purpose the NSS cadets prepared detailed charts in simple language using diagrams and pictures which are very easy to understand. Then they plan to explain the content of these charts in local Telugu language for easy dissemination of knowledge. The NSS cadets under the guidance of the NSS Co-ordinator also aim to ensure that any doubts regarding Breast milk and Breast feeding are clarified immediately without any delay.

Title: "Awareness campaign regarding importance of Nutritive food and balanced diet to the children residing in the Resapuvanipalem slum"

Co-ordinator: Mrs. S. Siva Jyothi,
Programme Officer, NSS UNIT,
Dr.Lankapalli Bullayya College of Engineering

Date and Venue: 03-09-2022, Respuvanipalem Slum, Visakhapatnam.

ABOUT THE PROGRAM:

The NSS Unit of the College has adopted the Respuvanipalem slum to extend social services to the residents of that area. The NSS Cadets under the guidance of NSS Co-ordinator participated in a Rally starting from the College campus to Resapuvanipalem slum. Once they reached the slum, an "Awareness campaign regarding importance of Nutritive food and balanced diet to the children residing in the Resapuvanipalem slum" on 03-09-2022. This was done while strictly following the COVID-19 Protocols. For this purpose, charts, pamphlets and posters which had already been prepared for this purpose by the NSS cadets were displayed to the residents of the slum and explained to them in the local Telugu language. These beneficiarieswhich mainly comprised parents and guardians of children residing in the Resapuvanipalem slum observed that they had obtained a good understandingregarding theimportance of providing Nutritive and balanced diet to the children. The NSS Cadets too were pleased with the response and felt encouraged to work more towards societal awareness and wellbeing.

About the Institute:

Dr.LankapalliBullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr.LankapalliBullayya College of Engineering, was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

The theme of the Event:

In order to bring awareness to the general public regarding the benefits of a healthy diet, specifically vegetarian diet and the holistic benefits it provides including physical, mental and psychological benefits, Dr.LankapalliBullayya College of Engineering is organizing a Vegetarian 2K Run on 1st November 2022 from Kalimatha Temple to YMCA on Beach Road. The main goal of this event is to encourage the students to continue on the path of Vegetarianism which could provide them the health benefits in the years to come as well as to provide them a platform where they can express the health benefits of this diet to their peers as well as the general public. The time from 6AM to 8AM is the time when most of the beach walkers, joggers and health enthusiasts visit the beach road, and the strip of land between Kalimatha Temple and YMCA happens to be the place visited by maximum number of these people as a part of their walks, jogs or runs. This was the reason for choosing that time and place so that our students who are already practicing vegetarian diet have the opportunity to spread to the maximum number of people within the shortest amount of time.

Vegetarian 2K Run
1-11-2022

CO-ORDINATOR: Mrs. S.SivaJyothi

Date and Time: 1-11-2022, 6AM to 8AM

Venue: Kalimatha Temple to YMCA on Beach Road.

ABOUT THE PROGRAM:

The NSS unit of Dr.LankapalliBullayya College of Engineering organized a Veg 2K Run on 1st November 2022 from Kalimatha Temple to YMCA on Beach Road.NSS Cadets and interested students of the College participated enthusiastically in the event. The run was flagged off by the NSS Program Officer, Mrs.S.Siva Jyothi. The NSS cadets through this run were able to send a message to the citizens of Visakhapatnam regarding the benefits of following a Vegetarian Diet. After the run was completed the NSS Cadets utilized the opportunity to explain these benefits to the onlookers, beach goers, beach walkers and health enthusiasts. Those who listened to the message delivered by the NSS cadets agreed the need for adopting a Vegetarian diet as a part of a healthy lifestyle which was highly essential to build and maintain a healthy, strong and vibrant India.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning the higher skills in new technologies and build their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design, and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Extending the benefits of available technological, societal and advancements in the field of medicine and health care to the most vulnerable populations of the world is the key objective with which UNICEF functions. The NSS unit of Dr.Lankapalli Bullayya College of Engineering has been selected for the UNICEF Project on Engagement of NSS in AP for Risk Communication and Community Engagement. Under this programme the NSS unit would like to conduct "Awareness campaign regarding Malnutrition to the residents of Resapuvanipalem slum" on 07-11-2022. Risk Communication and Community Engagement RCCE is one of the key pillars of UNICEF's COVID-19 response. This is being done following the rights-based, evidence-based, people-centered approach with accountability approach of RCCE for extending all possible help through community participation while also ensuring that no-harm is done to the selected vulnerable populations. The most vulnerable section of the population includes children who usually suffer from malnutrition as a result of lack of awareness of their parents and guardians regarding the importance of Nutritive food and balanced diet for their healthy overall development. In case appropriate care is not taken to provide nutritive diet to the children they become highly susceptible to various nutritive deficiencies as well as poorly equipped immunologically to face any impending pandemic situations that seem to appear on a regular basis. The NSS unit of Dr.Lankapalli Bullayya College of Engineering felt the need to provide awareness to the parents and guardians of children residing in the Resapuvanipalem slum regarding importance of nutritive and balanced diet to the children.

For this purpose the NSS cadets prepared detailed charts in simple language using diagrams and pictures which are very easy to understand. Then they plan to explain the content of these charts in local Telugu language for easy dissemination of knowledge. The NSS cadets under the guidance of the NSS Co-ordinator also aim to ensure that any doubts regarding Breast milk and Breast feeding are clarified immediately without any delay.

Title: "Awareness campaign regarding Malnutrition to the residents of Resapuvanipalem slum"

Co-ordinator: Mrs. S. Siva Jyothi,
Programme Officer, NSS UNIT,
Dr.Lankapalli Bullayya College of Engineering

Date and Venue: 07-11-2022, Respuvanipalem Slum, Visakhapatnam.

ABOUT THE PROGRAM:

The NSS Unit of the College has adopted the Respuvanipalem slum to extend social services to the residents of that area. The NSS Cadets under the guidance of NSS Co-ordinator participated in a Rally starting from the College campus to Resapuvanipalem slum. Once they reached the slum, an"Awareness campaign regarding Malnutrition to the residents of Resapuvanipalem slum" was conducted. This was done while strictly following the COVID-19 Protocols. For this purpose, charts, pamphlets and posters which had already been prepared for this purpose by the NSS cadets were displayed to the residents of the slum and explained to them in the local Telugu language. These beneficiarieswhich mainly comprised parents and guardians of children residing in the Resapuvanipalem slum observed that they had obtained a good understandingregarding malnutrition. They expressed the view that they had understood theimportance of providing Nutritive and balanced diet to the children as it would help them to grow into healthy and strong adults. The NSS Cadets too were pleased with the response and felt encouraged to work more towards societal awareness and wellbeing.

ABOUT THE PROGRAM:

The NSS Unit of the College has adopted the Respuvanipalem slum to extend social services to the residents of that area. The NSS Cadets under the guidance of NSS Co-ordinator participated in a Rally starting from the College campus to Resapuvanipalem slum. Once they reached the slum, an"Awareness campaign regarding Health and Hygiene to the residents of Resapuvanipalem slum" was conducted. This was done while strictly following the COVID-19 Protocols. For this purpose, charts, pamphlets and posters which had already been prepared for this purpose by the NSS cadets were displayed to the residents of the slum and explained to them in the local Telugu language. These beneficiarieswho are residents of the Resapuvanipalem slum observed that they had obtained a good understandingregarding good practices to be followed for improving and maintaining Health and Hygiene. They expressed the view that they had understood theimportance of maintaining health on an individual basis as well as maintaining Hygienic conditions both within their place of residence as well as in the common areas shared with other residents.

The NSS Cadets too were pleased with the response and felt encouraged to work more towards societal awareness and wellbeing.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning the higher skills in new technologies and build their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design, and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Extending the benefits of available technological, societal and advancements in the field of medicine and health care to the most vulnerable populations of the world is the key objective with which UNICEF functions. The NSS unit of Dr.Lankapalli Bullayya College of Engineering has been selected for the UNICEF Project on Engagement of NSS in AP for Risk Communication and Community Engagement. Under this programme the NSS unit would like to conduct "Awareness campaign regarding Immunity to the residents of Resapuvanipalem slum" on 09-11-2022.Risk Communication and Community Engagement RCCE is one of the key pillars of UNICEF's COVID-19 response. This is being done following the rights-based, evidence-based, people-centered approach with accountability approach of RCCE for extending all possible help through community participation while also ensuring that no-harm is done to the selected vulnerable populations. The success of any society depends to a large extent on the availability of citizens who are healthy. This is in turn dependent on the ability of these individuals to be able to resist and overcome any infections whether they be seasonal or otherwise. This capability usually termed as Immunity is in turn dependent on the individual following healthy practices including consuming nutrient rich diet, regular exercise as well as maintaining Hygienic environment both within their place of residence as well as in the areas shared with other residents. The higher immunity of the individual the lesser is the possibility of that individual becoming affected by infectious diseases as well as other ailments. The NSS Unit of Dr.Lankapalli Bullayya College of Engineering has decided to conduct an awareness programme on the topic of Immunity to the residents of Resapuvanipalem slum.

For this purpose the NSS cadets prepared detailed charts in simple language using diagrams and pictures which are very easy to understand. Then they plan to explain the content of these charts in local Telugu language for easy dissemination of knowledge. The NSS cadets under the guidance of the NSS Co-ordinator also aim to ensure that any doubts regarding Health and Hygiene are clarified immediately without any delay.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Blood donation is a voluntary process where individuals donate their blood to be used for medical purposes. Donated blood is often used in medical treatments, surgeries, and emergencies. It's an essential resource for healthcare systems to ensure a steady supply of blood for patients in need. Typically, donors need to meet certain eligibility criteria, including age, weight, and overall health. The donation process involves a medical screening to ensure the donor's safety and the safety of the recipient. After donation, the blood is tested, processed, and stored before being distributed to hospitals and clinics.

Donating blood is a selfless act that can save lives. It's important for donors to check with local blood donation centres or organizations to learn about the specific donation procedures and requirements in their area. In order to introduce the students to the necessity, benefits and precautions to be taken before, during and after blood donation the NSS unit of Dr.Lankapalli Bullayya College of Engineering is planning to organize a Blood Donation camp on 19-08-2022 from 09:00AM to 02:00PM. The NSS program officer and NSS cadets would like to utilize this opportunity to raise awareness among the students, Teaching and Non-Teaching staff members regarding the necessity of inculcating Blood Donation on a regular basis.

VENUE: Block 8 Seminar Hall,
Dr.LankapalliBullayya College of Engineering
Visakhapatnam.

ABOUT THE PROGRAMME:

The NSS unit of Dr.LankapalliBullayya College Of Engineering in association with Rotary Blood Bank, Round Table Indiaand Queen Victoria Memorial Hospital conducted a ROTARY BLOOD CAMP EVENT on 18-11-2022 from 10.00A.M to 12.00A.M as a part of N.S.S special camp activity. The main purpose of this programme is to bring awareness among the students regarding the need to donate blood on a regular basis. In addition the students and NSS Cadets are made aware of the processes necessary for hygienic blood donation before, during and after blood donation. In this event students, NSS Cadets and Faculty Members of the college participated enthusiastically and donated around 80units of blood. Representatives of the Rotary Blood Bank and Round Table India expressed their gratitude to the College administration for conducting the event. Prof D.Deepak Chowdary, Principal of Dr.Lankapalli Bullayya College of Engineering, NSS programme officer, Ms.S.Siva Jyothi thanked theNSS Unit Cadets for their active participation in conducting the event.

Dr. Lankapalli Bullayya College of Engineering

New Resapuvani Palem, Visakhapatnam

Sponsored by Society of Collegiate Education

Approved by AICTE, Affiliated to Andhra University

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning the higher skills in new technologies and build their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design, and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Extending the benefits of available technological, societal and advancements in the field of medicine and health care to the most vulnerable populations of the world is the key objective with which UNICEF functions. The NSS unit of Dr.Lankapalli Bullayya College of Engineering has been selected for the UNICEF Project on Engagement of NSS in AP for Risk Communication and Community Engagement. Under this programme the NSS unit would like to conduct "Awareness campaign regarding Food, Nutrition and Immunity Boosters to the residents of Resapuvanipalem slum" on 24-11-2022.Risk Communication and Community Engagement RCCE is one of the key pillars of UNICEF's COVID-19 response. This is being done following the rights-based, evidence-based, people-centered approach with accountability approach of RCCE for extending all possible help through community participation while also ensuring that no-harm is done to the selected vulnerable populations. The success of any society depends to a large extent on the availability of citizens who are healthy. This is in turn dependent on the ability of these individuals to be able to resist and overcome any infections whether they be seasonal or otherwise. This capability usually termed as Immunity is in turn dependent on the individual following healthy practices including consuming nutrient rich diet, regular exercise as well as maintaining Hygienic environment both within their place of residence as well as in the areas shared with other residents. The higher immunity of the individual the lesser is the possibility of that individual becoming affected by infectious diseases as well as other ailments. The NSS Unit of Dr.Lankapalli Bullayya College of Engineering has decided to conduct an awareness programme on the topics of Food, Nutrition and Immunity Boosters to the residents of Resapuvanipalem slum.

For this purpose the NSS cadets prepared detailed charts in simple language using diagrams and pictures which are very easy to understand. Then they plan to explain the content of these charts in local Telugu language for easy dissemination of knowledge. The NSS cadets under the guidance of the NSS Co-ordinator also aim to ensure that any doubts regarding Food, Nutrition and Immunity Boostersare clarified immediately without any delay.

Title: "Awareness campaign regarding Food, Nutrition and Immunity Boosters to the residents of Resapuvanipalem slum"

Co-ordinator: Mrs. S. Siva Jyothi,
Programme Officer, NSS UNIT,
Dr.Lankapalli Bullayya College of Engineering

Date and Venue: 24-11-2022, Respuvanipalem Slum, Visakhapatnam.

ABOUT THE PROGRAM:

The NSS Unit of the College has adopted the Respuvanipalem slum to extend social services to the residents of that area. The NSS Cadets under the guidance of NSS Co-ordinator participated in a Rally starting from the College campus to Resapuvanipalem slum. Once they reached the slum, an"Awareness campaign regarding Food, Nutrition andImmunity Boosters to the residents of Resapuvanipalem slum" was conducted. This was done while strictly following the COVID-19 Protocols. For this purpose, charts, pamphlets and posters which had already been prepared for this purpose by the NSS cadets were displayed to the residents of the slum and explained to them in the local Telugu language. These beneficiarieswho are residents of the Resapuvanipalem slum observed that they had obtained a good understandingregarding good practices to be followed for improving and maintaining immunity. They expressed the view that they had understood theimportance of immunity inmaintaining health and that they would follow the recommendations including following nutritive diet, regular exercise and maintaining Hygienic conditions both within and around their places of residence.They said that they also understood how immunity boosters such as vitamin supplements can be used to improve health. The NSS Cadets too were pleased with the response and felt encouraged to work more towards societal awareness and wellbeing.

Extending the benefits of available technological, societal and advancements in the field of medicine and health care to the most vulnerable populations of the world is the key objective with which UNICEF functions. The NSS unit of Dr.Lankapalli Bullayya College of Engineering has been selected for the UNICEF Project on Engagement of NSS in AP for Risk Communication and Community Engagement. Under this programme the NSS unit would like to conduct "Awareness campaign regarding Child Marriages to the residents of Resapuvanipalem slum" on 25-11-2022.Risk Communication and Community Engagement RCCE is one of the key pillars of UNICEF's COVID-19 response. This is being done following the rights-based, evidence-based, people-centered approach with accountability approach of RCCE for extending all possible help through community participation while also ensuring that no-harm is done to the selected vulnerable populations.Child Marriage is a custom which is practiced in a few communities among the weaker and marginalized sections of the society. This practice has the disadvantage of preventing the girl child from enjoying the full benefits of education, nutritive diet and health as it robs them of exploring and taking advantage of opportunities of self-growth and development. Eradicating this social evil is necessary for ensuring that the benefits of the social welfare schemes reach the girl child. Creating awareness among the general public is the only way by which this social evil can be eradicated.

For this purpose the NSS cadets prepared detailed charts in simple language using diagrams and pictures which are very easy to understand. Then they plan to explain the content of these charts in local Telugu language for easy dissemination of knowledge. The NSS cadets under the guidance of the NSS Co-ordinator also try to speak to the local leaders too in order to create a supportive framework for eradicating this social evil.

These beneficiaries observed that they had obtained a good understanding of the importance of eradicating this social evil. The NSS Cadets also displayed wall posters in the Resapuvanipalem slum regarding the evils of Child Marriage. The residents felt that it was necessary to prevent Child Marriages and provide the girl child with the opportunity for growing physically, mentally and psychologically before they can handle the responsibilities of marriage and child birth. The residents felt that preventing child marriages would allow the girl child to develop themselves through the tool of education in order to exploit the opportunities provided by various Governmental welfare schemes. The NSS Cadets too were pleased with the response and felt encouraged to work more towards societal awareness and wellbeing.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

The theme of the Event:

Oral Health has a significant impact on the physical, mental and psychological health of the individual as it impacts the intake of food, the social interactions as well as the level of confidence that a child, adolescent or adult feels whenever opportunities to face the public occur. In this context, the NSS Unit of Dr.Lankapalli Bullayya College of Engineering has resolved to conduct an awareness programme to the students and NSS Cadets regarding the importance of Oral Health. Since the students of the Engineering college are mostly transitioning from the adolescent stage to young adult stage, it is most likely that individuals at that age have a lot of events happening both within themselves as well as in their immediate surroundings such as preparation for a life and career. When these sensitive individuals undergo problems such as dental problems they are more likely to either forego treatment together or to postpone it or to depend on the advice of a nearby chemist. It is this unnatural shyness, fear and prejudice against visiting a dentist that may result in irrecoverable damage to their health. The main aim of this program to address this issue by utilizing the services of an experienced dentist who can explain to them the various precautions, treatments and recovery mechanisms in a simple, effective and interactive manner so that they are able to face life with healthy teeth and a smile on their face.

National Service Scheme Unit

Title the Program: Oral Health Awareness

Co-ordinator: Mrs.S. Siva Jyothi,
Programme Officer, NSS UNIT,
Dr.Lankapalli Bullayya College of Engineering(for Women).

Date and Venue: 16-07-2021 at 3PM.Zoom Meeting

Resource Person: Dr.Venkata Mounika M, MDS.
Founder, Invodent Orthodontics, Visakhapatnam.

About the Program:

As a part of the regular NSS activities, the NSS unit of Dr.Lankapalli Bullayya College of Engineering conducted an Oral Health Awareness Programme to raise awareness among the student community regarding the importance of taking care of Dental health with special emphasis on issues such as Dental cavities. Dental cavities are decayed areas in teeth caused by bacteria, sugary foods, and poor oral hygiene.

The resource person said that in the Indian context approximately 85-90% of adults and 60-80% of children have dental cavities. Specifically about 52% of children, adolescents and young adults in the age group of 3-18 years suffer from Dental caries whereas about 62% of adults above the age of 18 years suffered from dental caries. The more disturbing phenomenon is that in India more than half of the Indians who suffer from dental problems do not approach a qualified dentist, rather they depend on advice from chemists and other unqualified people. She also said that the prevalence of Dental caries was more in North India, about 72% when compared to south India.

The resource person said that the progress of Dental caries depends on the existence and survival of bacteria in the Dental plaques. Preventing the growth of bacteria in these Dental plaques is essential to prevent the occurrence of Dental Caries. Thus, activities done regularly that are essential for plaque removal such as Brushing, Flossing and rinsing are the simplest and easily accessible measures for preventing Dental caries.Apart from this using Fluoridated Toothpastes, topical application of Fluorides, Fluoridated municipal water and pit and fissure treatment are also essential. Furthermore, following a diet that is less in sugar, increasing Vitamin D intake are also simple but effective measures to avoid dental caries and maintain oral health.

In case Dental caries have been identified she suggested that immediate diagnosis and treatment has to be taken from a qualified Dentist to prevent further tooth decay. The NSS Co-ordinator thanked the Resource person for having shared her precious insights and suggestions to the participants and encouraged them to utilize them for their own improvement.

Dr.Lankapalli Bullayya College of Engineering

Date and Venue: 25-01-2023

Event : Rally from Siripuram Junction to VUDA Childrens Theatre.

ABOUT THE PROGRAM:

The NSS cadets of Dr.Lankapalli Bullayya College of Engineering organized a rally from Siripuram Junction to VUDA Childrens Arena to provide awareness to the general public regarding the importance of exercising their right to Adult Franchise in a free, fair and democratic manner. The main aim of this programme is to ensure that young adults who are potential first time voters become aware of the various benefits of exercising their right to vote as well the benefits it has over their own wellbeing and future as well as in voicing their opinion in the democratic process of election. Since this rally comprises young students, it will be much easier for students and individuals their age to listen to them, understand it and then follow it diligently for a strong democratic India.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

The theme of the Event:

The earth day program is about the life of the earth being born and how to increase the life span of the earth by planting trees globally wise in different countries to increase the earth span as well as the life span of human begins.The Earth Day 2021 theme is Restore Our Earth and features five primary programs: The Canopy Project, Food and Environment, Climate Literacy, the Global Earth Challenge, and The Great Global CleanUp. EARTHDAY.ORG's mission is to diversify, educate, and activate the environmental movement worldwide. Growing out of the first Earth Day (1970), EARTHDAY.ORG is the world's largest recruiter to the environmental movement, working with more than 50,000 partners in 192 countries to build environmental democracy. More than 1 billion people now participate in Earth Day activities each year, making it the largest civic observance in the world. Learn more at www.earthday.org. EARTHDAY.ORG also organized the second-annual Earth Day Live stream event (April 22, 2021) featuring global activists, international leaders, and influencers.The NSS Unit of Dr. Lankapalli Bullayya College of Engineering organized the Earth Day Celebrations on 22-04-2023.

Programme Officer, NSS UNIT,

Dr.Lankapalli Bullayya College of Engineering(for Women).

About the Program: Earth Day Celebrations

Date and Venue: 22-04-2023

Engineering College Campus.

ABOUT THE PROGRAM:

Continuing with its commitment towards using Education as a tool for creating citizens who are aware of the need to make wise and informed decisions that support the environment, Dr.Lankapalli Bullayya College of Engineering conducted Earth Day Celebrations on 22-04-2023. The main aim of this program is to inform and bring awareness to the students, Teachers, Non-Teaching staff and all stakeholders regarding the need for making wise choices on a day-to-day basis that impact the environment in beneficial, sustainable manner.

In confirmation with the Theme of World Earth Day, which is Restore the Earth, the NSS unit of Dr.Lankapalli Bullayya College of Engineering created awareness on the need for restoring the ecosystem locally by conducting a plantation event within the campus facilities. The NSS Co-ordinator while speaking to the participants reiterated the need for all the NSS Cadets to bring awareness about restoring local ecosystems which when aggregated would result in restoring the ecosystem of the Earth as a whole. The entire gathering felt the shared commitment that a healthy Earth was not an option but that it was a necessity and safeguarding it was the legacy to be passed on to the future generations.

Visakhapatnam,
15th April 2023.

From
Dr.G.T.Naidu,
Head of the Department
Department of Civil Engineering,
Dr.LankapalliBullayya College of Engineering,
Visakhapatnam.

To
The Principal,
Dr. LankapalliBullayya College of Engineering,
Visakhapatnam.

Respected Sir,

Sub: Request to grant permission for a household survey at Resapuvanipalem as a part of extension activity-III/IV B.Tech Civil -reg

Students of 3rd B. Tech should do an extension activity as a part of their academic curriculum. We are planning to go for a "Household Survey at Resapuvanipalem" on 18th April 2023 which can be a valuable learning experience that provides practical skills to the students and to provide awareness to residents on water quality and building health. We request your kind self to grant permission to initiate the work.

Thanking you Sir,

Yours Sincerely,

G.T.P. Naidu
(Dr.G,T,Naidu)

Permitted,

Brief Description of the Extension Activity:

"Household Survey at Resapuvanipalem"

The students surveyed the following aspects in every household at Resapuvanipalem

1. Type of house
2. Rainwater harvesting availability
3. Water usage (Daily Consumption)
4. Tank size available
5. Source of water availability
6. TDS of water
7. Usage of water purifier
8. Any Distress Identification
9. Any Cracks
10. Drainage Facility
11. Greenery

Scanned with CamScanner

BROCHURE OF THE EXTENSION ACTIVITY

Impact of the Event:

Conducting household surveys as students is a valuable learning experience that provides practical research skills, promotes community engagement, and contributes to the understanding of various aspects of households and communities.
Students were able to understand the practical issues associated with a household that occurs after construction.
They observed the water quality and building health of every household they visited. They measured the Total Dissolved Solids (TDS) of water samples including groundwater.
They also inspected the Structural failures of the building, which helps in analyzing the mistakes during the construction phase.
Overall the students benefitted from learning practical issues faced by the residents.
