Dr. Lankapalli Bullayya College of Engineering

New Resapuvani Palem, Visakhapatnam

Sponsored by Society of Collegiate Education

Approved by AICTE, Affiliated to Andhra University

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering , was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Mahatma Gandhi observed that "Democracy, disciplined and enlightened is the finest thing in the world". It is this guiding principle based on which the Election Commission of India has been conducting free and fair elections in such a vast country spanning multiple languages, cultures, geographical regions, ethnicities, races, colors, castes and creeds. To achieve its objectives, the Election Commission of India designed SVEEP, Systematic Voter Education and Electoral Participation Programme which works on the principle of Information, Motivation and Facilitation whereby all possible avenues are used for sharing information about the Electoral Process to the citizens, and the citizens are provided all the required facilities in order to enable them to exercise their Right to Vote in a free, fair and ethical manner. However, the most difficult aspect here is that of Motivation wherein the Voters in the age groups of 14-17 years are unaware of the Electoral processes, are usually busy with preparations for career building and hence are neither motivated nor interested to participate in the electoral process and exercise their Right to Vote. ECI aims to target not only Voters who gain the Right to Vote for the first time at 18 years but also prospective Voters much younger than them. ECI aims to reduce this by conducting campaigns not only as a part of Voters Day Celebrations on 25th January annually but also periodically in schools, higher educational institutions, as well as ChunavPathashala's periodically. Since the youth at this age are into social media and applications, ECI has prepared a Voter app awareness about which is being created in this programme.

National Service Scheme Unit

Co-ordinator: Mrs.S. Siva Jyothi,

Programme Officer, NSS UNIT,

Dr.Lankapalli Bullayya College of Engineering.

About the Program: Voter Awareness Programme

Date and Venue: 21-10-2021

Block 8 Seminar Hall, Engineering College.

ABOUT THE PROGRAM:

The NSS unit of Dr.Lankapalli Bullayya College conducted the Voter Awareness Programme as a part of the Systematic Voter Education and Electoral Participation Programme (SVEEP) of Election Commission of India.

Keeping in perspective the Election Commission of India's goal of informing, facilitating and motivating the students of the age group of 14-17 years to prepare them to participate in upcoming elections, the NSS unit conceptualized this Awareness Programme in order to meet the standards and requirements of that age group. Here two strategies were followed, namely using NSS volunteers trained in these topics of SVEEP who are either their peers or Seniors to explain these aspects to their peers and Juniors. Since individuals of that age group find it easy to ask questions and learn from their peers, this strategy succeeded. The questions asked were regarding the process of Voter Registration, EPIC card, Documents required for Proof of Address, Change of Address among other things.

The second Strategy was to use technology by introducing them to the Voter Registration App developed by the Election Commission of India. The NSS volunteers did a good job by using the principle of "learn by doing", by having the participants download the App and then learn how to use it for Registration. The participants who are already adept at using smart phones downloaded the App and learnt its intricacies.

The NSS Co-ordinator Mrs.S.Siva Jyothi thanked the participants for their active participation and informed them to create awareness about the Voter Registration Process as well as the App among their friends, family members and acquaintances.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

TheMinistry of Youth Affairs and Sports, Government of India in commemoration of "AzadikaAmrit Mahotsav" is organizing Nation-wide Clean India Programme from 1st October 2021 to 31st October 2021 through various affiliated youth volunteer organizations such as NSS. The main aim of the Clean India Programme is to ensure people's participation in collection and proper disposal of garbage and plastic especially single use plastic waste. These Clean India Programmes create awareness among the general public not only regarding the health benefits of maintaining Clean and Healthy surroundings but also the harmful effects of using and improperly disposing off single use plastic waste. The main reason for choosing schools, colleges and higher education institutions is that these places provide a platform for the NSS volunteers to impress upon the young minds, who have the responsibility of maintaining and safeguarding a Clean and Green India and passing on the fruits of their efforts in the form of a Healthy, Vibrant and Self Sustaining India to the future generations. The Clean India Programme has been largely successful since its conceptualization and has resulted in Cleaning up of large areas of urban and rural areas within a short span of time.

Dr.Lankapalli Bullayya College of Engineering (for women) encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr.Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Upholding its motto of "Not Me But You", the Cadets of NSS Unit of Dr.Lankapalli Bullayya College under the supervision of the NSS Co-ordinator found the need for a proactive role in disseminating information regarding the various Covid appropriate behaviors, need for vaccination, using masks, maintaining social distance among others. The NSS unit decided that one of the measures of raising awareness among the general public is to conduct a rally from the Engineering college campus to CMR Central, Maddilapalem. During this rally the NSS Cadets demonstrated to the public that simple choices done by citizens have significant impact on the extent to which the general public becomes vulnerable to being infected by the virus.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

About The Programme :

The NSS unit of Dr.Lankapalli Bullayya College of Engineering organized a COVID-19 Awareness Rally from the College Campus to CMR Central, Maddilapalem on 18-12-2021 from 03:OOPM to 04:30PM. The NSS Cadets had prepared posters and placards representing precautionary measures to be taken against COVID-19. In addition daily practices covering Health and Hygiene as well as Diet and Maintenance of Clean environment by responsibly disposing off garbage were also presented. The NSS Cadets then explained to the public regarding the practical implementation of these measures in local Telugu language for easy understanding to the shopkeepers as well as citizens on that route while following COVID-19 appropriate behavior.

Photo3. The COVID-19 awareness rally was covered by Sakshi, a daily Telugu Newspaper on 19-12-2021

English Translation of Newspaper clipping:

Preventing Omicron

Seethampeta: The Rotoract Club in association with Dr.Lankapalli Bullayya College of Engineering has conducted a joint Covid Awareness Rally. At a time when news of wide proliferation of Omicron variant of Covid-19 is rampant, this rally aims to create a barrier to prevent the further spread of this variant among the public. Dr.D.Deepak Chowdary, Principal of Dr.Lankapalli Bullayya College of Engineering waved off the flag and started the rally. NSS Cadets participated in the rally in a large number and created awareness among the public regarding measures to prevent the further spread of this virus. Measures such as wearing Face Masks, staying away from large congregations of people, using Hand sanitizers regularly, taking second dose of Covid vaccination were suggested to the public. The importance of Good diet and regular exercise were reiterated. The rally started from Dr.Lankapalli Bullayya College of Engineering and moved on to Satyam Junction and returned to Swarnabharathi stadium junction where Face masks were distributed to the people not wearing masks. Rotoract club Co-ordinators Dr.V.Radha Devi, K.Sasidher, NSS Programme Officer S.Siva Jyothi, Rotoract Club President Kameswari Jhansi, and volunteers P.Sreehitha, Supraja and Bhagyalakshmi participated.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning the higher skills in new technologies and build their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design, and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Extending the benefits of available technological, societal and advancements in the field of medicine and health care to the most vulnerable populations of the world is the key objective with which UNICEF functions. The COVID-19 pandemic is a litmus test for all organizations both governmental, non-governmental and intergovernmental agencies to utilize the existing outreach programs to the general public by utilizing the existing service mechanisms such as NSS. The NSS unit of Dr.Lankapalli Bullayya College of Engineering has been selected for the UNICEF Project on Engagement of NSS in AP for Risk Communication and Community Engagement. Under this programme the NSS unit would like to conduct Awareness programme on "Precautionary measures to be taken to avoid COVID attack, exclusively to Senior citizens and Children in the Resapuvanipalem slum", on 07-02-2022. Risk Communication and Community Engagement RCCE is one of the key pillars of UNICEF's COVID-19 response. This is being done following the rights-based, evidence-based,people-centered approach with accountability approach of RCCE for extending all possible help through community participation while also ensuring that no-harm is done to the selected vulnerable populations.

National Service Scheme Unit

Title: Awareness programme on "Precautionary measures to be taken to avoid COVID attack, exclusively to Senior citizens and Children in the Resapuvanipalem slum"

Co-ordinator: Mrs.S. Siva Jyothi,
Programme Officer, NSS UNIT,
Dr.Lankapalli Bullayya College of Engineering(for Women).

Date and Venue: 07-02-2022, Respuvanipalem Slum, Visakhapatnam.

ABOUT THE PROGRAM:

The NSS Unit of the College has adopted the Respuvanipalem slum to extend social services to the residents of that area. The NSS Cadets under the guidance of NSS Co-ordinator participated in a Rally starting from the College campus to Resapuvanipalem slum. Once they reached the slum, an Awareness campaign was conducted regarding the precautionary measures to be taken to avoid being affected by COVID-19. This was done focusing primarily on providing awareness to Senior citizens and Children in the Resapuvanipalem slum. This was done while strictly following the COVID-19 Protocols and demonstrating the elderly people and children regarding the use of face masks, hand sanitizers and proper social distancing mechanisms. For this purpose, charts, pamphlets and posters which had already been prepared for this purpose by the NSS cadets were displayed to the elderly people and children and explained to them in the local Telugu language. These beneficiaries observed that they had obtained a good understanding of the precautionary measures as they had been explained to them in detail while clarifying any doubts. The NSS Cadets too were pleased with the response and felt encouraged to work more towards societal awareness and wellbeing.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning the higher skills in new technologies and build their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design, and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Extending the benefits of available technological, societal and advancements in the field of medicine and health care to the most vulnerable populations of the world is the key objective with which UNICEF functions. The COVID-19 pandemic is a litmus test for all organizations both governmental, non-governmental and intergovernmental agencies to utilize the existing outreach programs to the general public by utilizing the existing service mechanisms such as NSS. The NSS unit of Dr.Lankapalli Bullayya College of Engineering has been selected for the UNICEF Project on Engagement of NSS in AP for Risk Communication and Community Engagement. Under this programme the NSS unit would like to conduct Awareness programme on "Health and Nutrition in COVID-19 appropriate conditions", on 09-02-2022. Risk Communication and Community Engagement RCCE is one of the key pillars of UNICEF's COVID-19 response. Emphasizing the role that Health and Nutrition play in the prevention, management and recovery from COVID-19, the present awareness programme conducted by the NSS unit aims to provide essential inputs to the residents of the Resapuvanipalem slum in simple, easy to understand manner.

Title: Awareness programme on Health and Nutrition in COVID-19 appropriate conditions to residents of Resapuvanipalem slum.

Co-ordinator: Mrs.S. Siva Jyothi,
Programme Officer, NSS UNIT,
Dr.Lankapalli Bullayya College of Engineering(for Women).

Date and Venue: 09-02-2022, Respuvanipalem Slum, Visakhapatnam.

ABOUT THE PROGRAM:

The NSS Unit of the College has adopted the Respuvanipalem slum to extend social services to the residents of that area. The NSS Cadets under the guidance of NSS Co-ordinator participated in a Rally starting from the College campus to Resapuvanipalem slum. Once they reached the slum, an Awareness campaign was conducted regarding the important role that Health and Nutrition play in the prevention, management and recovery from COVID-19. For this purpose the NSS Cadets under the guidance of the NSS Co-ordinator visited the Resapuvanipalem slum following COVID-19 appropriate precautions using face masks, hand gloves. The NSS Cadets had already prepared a set of placards and charts containing information regarding Health and Nutrition in simple, easily understandable format containing pictures and diagrams which are easily understandable to the general public. Once the NSS team visited the slum, they explained in simple terms using locally understandable Telugu language regarding the Health and Nutrition practices to be followed to healthily overcome this COVID-19 pandemic.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

The theme of the Event:

Hailing from a traditional agricultural family with a firm commitment to the cause of justice, Ch. Manavendranath Roy had the privilege of being the third generation lawyer where his grandfather and uncle were reputed lawyers, statesmen and dynamic political leaders. With hard work, focus and determination he worked his way through the hierarchy of the judicial system starting off as an Advocate in Parvathipuram in 1988 to his present position as the first High Court Judge appointed after constitution of High court of Andhra Pradesh with effect from 1st January 2019. He has a strong connection with Visakhapatnam as he did his schooling at St. Aloysius High school and graduated in Law from MVP Law College. His awareness of smaller towns, villages and problems faced by students from rural areas comes from the fact that he did his Intermediate and Degree from Parvathipuram. Therefore the above brief bio data indicates an individual who is aware of both the struggles of students from both urban and rural backgrounds. His story of hard work and determination is one that can be emulated by all students irrespective of their background or demography. Being an excellent orator with the firm commitment to motivate the younger generation to make wise choices while choosing a career and then ingrain in them the attitude of giving back to the motherland so that it creates sustainable, balanced development of the country and the individual at the same time.

Awareness programme on career guidance

(05-03-2022)

Co-Ordinator: Mrs S Siva Jyothi, NSS Program Officer

Resource Person: Sri.Ch.Manavendranath Roy
Honourable High Court Judge,
Andhra Pradesh.

Venue: Block 7 Seminar Hall,
Dr. LankapalliBullayya College of Engineering

Date and time: 05-03-2022 from 10AM to 1PM.

About the program:

Sri.Ch.Manavendranath Roy was invited to present his thoughts on Career Guidance with a warm welcome and a thunderous applause from the students who felt a strong connection with his personality. The students truly appreciated the fact that a person from the areas they knew, places they visited regularly had worked hard with focus, dedication and determination despite his family background in the legal field to reach the position of the first appointed High Court Judge of AP after partition. The resource person being an excellent orator utilized his skills of narration, humor, wit and wisdom to send the message to the student community both attending the event and elsewhere that it is the individual's choice of career that influences the success that he/she attains in life as the culture of utilizing services of Career Advisors is totally non-existent in our country. He logically concluded that choice of a career need to be based after firmly weighing in the suitable of the individual strengths and weaknesses against the career opportunities, threats and risks. Once an individual does this assessment it becomes fairly clear which career choice is most suitable for him/her. Providing an alternative perspective of success, he claimed that it is not how much you attain but also how much you give back to the society and to the nation that has to become the true measure of success and once each citizen embarks on this path of succeeding and giving back to the country the golden days of India will truly return forever. Principal of the College, Dr.D.Deepak Chowdary, Vice-Principal, Sri.S.M.Rahaman, NSS Co-ordinator Mrs.S.Siva Jyothi, NSS cadets and college students participated in the Event.

About the Institute:

Dr. LankapalliBullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning the higher skills in new technologies and build their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. LankapalliBullayya College of Engineering , was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design, and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

In pursuance of Millennium Development goals of conserving, restoring and sustainably using the ecosystems with special emphasis on applying them to improve the urban ecosystems, the NSS unit of Dr.LankapalliBullayya College of Engineering has taken steps towards enhancing the Green cover within the college campus. This provides the NSS cadets to understand the various steps required both individually as well as collectively to ensure that the plantations are done with the supervision of gardeners so that the Green cover flourishes and acts as a motivation to continue it further at various locations including homes and community places among others. As plantation activity needs to be preceded by Cleaning Activity, the NSS cadets plan to initially conduct a systematic cleaning of the chosen area so that the generated garbage is disposed off sustainably. The NSS unit hopes to create awareness among the fellow students, Teaching and Non-Teaching staff as well as parents and other visitors to the campus to encourage them to put the philosophy of Clean and Green into practice diligently.

Event Co-ordinator: Mrs.S. Siva Jyothi,

Programme Officer, NSS UNIT,

Dr.Lankapalli Bullayya College of Engineering.

About the Program: Swachh Bharath Campaign in the Resapuvanipalem Slum

Date and Venue: 17-03-2022
Resapuvanipalem slum.

ABOUT THE PROGRAM:

Maintaining its commitment towards creating awareness among the Students, Teaching and Non-Teaching Staff, parents and other visitors to the campus regarding the need for a strong commitment individually and collectively towards a Clean and Green Ecosystem, the NSS Unit of Dr.LankapalliBullayya College of Engineering conducted a Swachh Bharath Campaign in the Resapuvanipalem Slum on 10-07-2019 . Engaging the community in leading an environmentally conscious lifestyle is one of the chief goals of this event. This activity was carefully planned and Co-ordinated by the NSS Programme Officer by initially identifying the area where the plantation needs to be done, then systematically cleaning the area so that any garbage generated was disposed-off appropriately. Then taking the advice of the gardeners of the campus, the soil was prepared and plantation was done. NSS cadets, Students, Teaching and Non-Teaching members participated actively in the event. The participants of the event felt that if this activity was done on a larger scale rapid strides could be made in the areas of afforestation, pollution free and clean environments that foster health and prosperity.

The Secretary & Correspondent, Dr. G. Madhu Kumar, Principal, Prof.D.Deepak Chowdary and Head of Department of Civil Engineering Prof.G.T.Naidu applauded the efforts of NSS Unit as well as Teachers and Non-Teaching memebers who participated in the Clean and Green plantation.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning the higher skills in new technologies and build their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design, and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Extending the benefits of available technological, societal and advancements in the field of medicine and health care to the most vulnerable populations of the world is the key objective with which UNICEF functions. The COVID-19 pandemic is a litmus test for all organizations both governmental, non-governmental and intergovernmental agencies to utilize the existing outreach programs to the general public by utilizing the existing service mechanisms such as NSS. The NSS unit of Dr.Lankapalli Bullayya College of Engineering has been selected for the UNICEF Project on Engagement of NSS in AP for Risk Communication and Community Engagement. Under this programme the NSS unit would like to conduct Awareness programme on Health and Hygiene to be maintained during Covid-19 to residents of Resapuvanipalem slumon 25-04-2022. Risk Communication and Community Engagement RCCE is one of the key pillars of UNICEF's COVID-19 response. Maintaining of neat, clean and hygienic conditions is essential for preventing the spread of viruses causing the pandemic. To create awareness to the residents of the Resapuvanipalem slum regarding the cleaning and hygienic practices necessary for preventing the further spread of the disease is the major goal of this programme.

National Service Scheme Unit

Title: Awareness programme on Health and Hygiene to be maintained during Covid-19 to residents of Resapuvanipalem slum

Co-ordinator: Mrs. S. Siva Jyothi,
Programme Officer, NSS UNIT,
Dr.Lankapalli Bullayya College of Engineering(for Women).

Date and Venue: 25-04-2022, Respuvanipalem Slum, Visakhapatnam.

ABOUT THE PROGRAM:

The NSS Unit of the College has adopted the Respuvanipalem slum to extend social services to the residents of that area. The NSS Cadets under the guidance of NSS Co-ordinator participated in a Rally starting from the College campus to Resapuvanipalem slum. Once they reached the slum, an Awareness campaign was conducted regarding the important role that maintenance of clean surroundings both within the living spaces as well as commonly shared spaces such as roads, businesses, markets play in limiting and restricting the further spread of the disease.The NSS Cadets had already prepared a set of placards and charts containing information regarding Health and Hygiene in simple, easily understandable format containing pictures and diagrams which are easily understandable to the general public. This includes practices to be followed to properly dispose-off used Face masks, domestic waste, as well as proper cleaning methodologies which can help contain the proliferation of the disease. Once the NSS team visited the slum, they explained in simple terms using locally understandable Telugu language regarding the Health and Nutrition practices to be followed to healthily overcome this COVID-19 pandemic.

Dr. Lankapalli Bullayya College of Engineering

New Resapuvani Palem, Visakhapatnam

Sponsored by Society of Collegiate Education

Approved by AICTE, Affiliated to Andhra University

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning the higher skills in new technologies and build their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design, and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Extending the benefits of available technological, societal and advancements in the field of medicine and health care to the most vulnerable populations of the world is the key objective with which UNICEF functions. The COVID-19 pandemic is a litmus test for all organizations both governmental, non-governmental and intergovernmental agencies to utilize the existing outreach programs to the general public by utilizing the existing service mechanisms such as NSS. The NSS unit of Dr.Lankapalli Bullayya College of Engineering has been selected for the UNICEF Project on Engagement of NSS in AP for Risk Communication and Community Engagement. Under this programme the NSS unit would like to conduct Awareness programme on "Precautionary measures to be taken to avoid COVID attack, exclusively to Senior citizens and Children in the Resapuvanipalem slum", on 07-02-2022. Risk Communication and Community Engagement RCCE is one of the key pillars of UNICEF's COVID-19 response. This is being done following the rights-based, evidence-based, people-centered approach with accountability approach of RCCE for extending all possible help through community participation while also ensuring that no-harm is done to the selected vulnerable populations.

Title: Awareness programme on "Precautionary measures to be taken to avoid COVID-19 to the residents of Resapuvanipalem slum"

Co-ordinator: Mrs. S. Siva Jyothi,
Programme Officer, NSS UNIT,
Dr.Lankapalli Bullayya College of Engineering(for Women).

Date and Venue: 26-04-2022, Respuvanipalem Slum, Visakhapatnam.

ABOUT THE PROGRAM:

The NSS Unit of the College has adopted the Respuvanipalem slum to extend social services to the residents of that area. The NSS Cadets under the guidance of NSS Co-ordinator participated in a Rally starting from the College campus to Resapuvanipalem slum. Once they reached the slum, an Awareness campaign was conducted regarding the precautionary measures to be taken to avoid being affected by COVID-19. This was done focusing primarily on providing awareness to Senior citizens and Children in the Resapuvanipalem slum. This was done while strictly following the COVID-19 Protocols and demonstrating the elderly people and children regarding the use of face masks, hand sanitizers and proper social distancing mechanisms. For this purpose, charts, pamphlets and posters which had already been prepared for this purpose by the NSS cadets were displayed to the elderly people and children and explained to them in the local Telugu language. These beneficiaries observed that they had obtained a good understanding of the precautionary measures as they had been explained to them in detail while clarifying any doubts. The NSS Cadets too were pleased with the response and felt encouraged to work more towards societal awareness and wellbeing.

Theme of the Event:

Extending the benefits of available technological, societal and advancements in the field of medicine and health care to the most vulnerable populations of the world is the key objective with which UNICEF functions. The NSS unit of Dr.Lankapalli Bullayya College of Engineering has been selected for the UNICEF Project on Engagement of NSS in AP for Risk Communication and Community Engagement. Under this programme the NSS unit would like to conduct Awareness programme on "Air and water pollutionto residents of Resapuvanipalem slum", on 07-02-2022. Risk Communication and Community Engagement RCCE is one of the key pillars of UNICEF's COVID-19 response. This is being done following the rights-based, evidence-based, people-centered approach with accountability approach of RCCE for extending all possible help through community participation while also ensuring that no-harm is done to the selected vulnerable populations. Air and Water pollution are the major causes of environmental contamination both in India as well as globally and these are contributing factors for either the prevention or spread of diseases and pandemics. In this scenario, the NSS unit of Dr.Lankapalli Bullayya College of Engineering has taken up the task of raising awareness among the residents of the Resapuvanipalem slum regarding the major causes and common mechanisms used to prevent the contamination of the environment through either air or water. This is being done in order to ensure that the residents of this slum are aware of the common ways by which they can prevent the pollution of air and water by simple day to day activities. The NSS cadets prepared detailed charts in simple language using diagrams and pictures which are very easy to understand. Then they plan to explain the content of these charts in local Telugu language for easy dissemination of knowledge. The NSS cadets under the guidance of the NSS Co-ordinator also aim to ensure that any doubts regarding the ways of prevention of Air and water pollution are clarified immediately without any delay.

Dr. Lankapalli Bullayya College of Engineering

New Resapuvani Palem, Visakhapatnam

Sponsored by Society of Collegiate Education

Approved by AICTE, Affiliated to Andhra University

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning the higher skills in new technologies and build their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design, and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Extending the benefits of available technological, societal and advancements in the field of medicine and health care to the most vulnerable populations of the world is the key objective with which UNICEF functions. The NSS unit of Dr.Lankapalli Bullayya College of Engineering has been selected for the UNICEF Project on Engagement of NSS in AP for Risk Communication and Community Engagement. Under this programme the NSS unit would like to conduct "Awareness campaign regarding Food and Nutrition to be maintained during the Covid-19 pandemic to residents of the Resapuvanipalem slum", on 28-04-2022. Risk Communication and Community Engagement RCCE is one of the key pillars of UNICEF's COVID-19 response. This is being done following the rights-based, evidence-based, people-centered approach with accountability approach of RCCE for extending all possible help through community participation while also ensuring that no-harm is done to the selected vulnerable populations. Right Food and Nutrition are essential ingredients on the path of prevention, treatment and recovery from the Covid-19 pandemic along with following the recommendations of the medical community. For this purpose the NSS cadets prepared detailed charts in simple language using diagrams and pictures which are very easy to understand. Then they plan to explain the content of these charts in local Telugu language for easy dissemination of knowledge. The NSS cadets under the guidance of the NSS Co-ordinator also aim to ensure that any doubts regarding the ways of prevention of Air and water pollution are clarified immediately without any delay.

Title: "Awareness campaign regarding Food and Nutrition to be maintained during the Covid-19 pandemic to residents of the Resapuvanipalem slum"

Co-ordinator: Mrs. S. Siva Jyothi,
Programme Officer, NSS UNIT,
Dr.Lankapalli Bullayya College of Engineering

Date and Venue: 28-04-2022, Respuvanipalem Slum, Visakhapatnam.

ABOUT THE PROGRAM:

The NSS Unit of the College has adopted the Respuvanipalem slum to extend social services to the residents of that area. The NSS Cadets under the guidance of NSS Co-ordinator participated in a Rally starting from the College campus to Resapuvanipalem slum. Once they reached the slum, an Awareness campaign was conducted regarding Food and Nutrition to be maintained during the Covid-19 pandemic to residents of the Resapuvanipalem slum. This was done while strictly following the COVID-19 Protocols. For this purpose, charts, pamphlets and posters which had already been prepared for this purpose by the NSS cadets were displayed to the residents of the slum and explained to them in the local Telugu language. These beneficiaries observed that they had obtained a good understanding of the importance of Right Food and Nutrition during prevention, treatment and recovery from Covid-19 pandemic. The NSS Cadets too were pleased with the response and felt encouraged to work more towards societal awareness and wellbeing.

Theme of the Event:

Extending the benefits of available technological, societal and advancements in the field of medicine and health care to the most vulnerable populations of the world is the key objective with which UNICEF functions. The NSS unit of Dr.Lankapalli Bullayya College of Engineering has been selected for the UNICEF Project on Engagement of NSS in AP for Risk Communication and Community Engagement. Under this programme the NSS unit would like to conduct "Awareness campaign regarding Child Marriages to residents of the Resapuvanipalem slum", on 29-04-2022. Risk Communication and Community Engagement RCCE is one of the key pillars of UNICEF's COVID-19 response. This is being done following the rights-based, evidence-based, people-centered approach with accountability approach of RCCE for extending all possible help through community participation while also ensuring that no-harm is done to the selected vulnerable populations. Child Marriage is a custom which is practiced in a few communities among the weaker and marginalized sections of the society. This practice has the disadvantage of preventing the girl child from enjoying the full benefits of education, nutritive diet and health as it robs them of exploring and taking advantage of opportunities of self-growth and development. Eradicating this social evil is necessary for ensuring that the benefits of the social welfare schemes reach the girl child. Creating awareness among the general public is the only way by which this social evil can be eradicated.

For this purpose the NSS cadets prepared detailed charts in simple language using diagrams and pictures which are very easy to understand. Then they plan to explain the content of these charts in local Telugu language for easy dissemination of knowledge. The NSS cadets under the guidance of the NSS Co-ordinator also try to speak to the local leaders too in order to create a supportive framework for eradicating this social evil.

These beneficiaries observed that they had obtained a good understanding of the importance of eradicating this social evil. The NSS Cadets also displayed wall posters in the Resapuvanipalem slum regarding the evils of Child Marriage. The residents felt that it was necessary to prevent Child Marriages and provide the girl child with the opportunity for growing physically, mentally and psychologically before they can handle the responsibilities of marriage and child birth. The residents felt that preventing child marriages would allow the girl child to develop themselves through the tool of education in order to exploit the opportunities provided by various Governmental welfare schemes. The NSS Cadets too were pleased with the response and felt encouraged to work more towards societal awareness and wellbeing.
