About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

About the EEE Department:

The Department of Electrical & Electronics Engineering was established in 2010-2011. The department offers a four-year degree program Admission process is through state- wide entrance examination i.e. EAMCET. The department is resourceful in terms of infrastructure and state-of-the-art facilities to pursue academic education and research in niche areas of technology. Liberal funding from the college management has enabled the Department to acquire specialized research facilities. The highly qualified and experienced faculty in adequate strength with zero attrition rates is one of the most significant features of the department. Electrical & Electronics Engineering is an enlightening branch which requires overall peripheral knowledge about all other branches and in-depth knowledge of Electrical & Electronics Engineering.

Energy Conservation Week (11-12-2022)

Theme of the Event:

National Energy Conservation Day aims to generate awareness among the masses in India about the importance of saving energy. People are also kept in the loop on new courses of action and plans that are being formulated. Information is given on minimizing energy waste and how the public can do their part in conserving resources. Essentially, the main objective of the day is to reduce the use of energy and to encourage people to use it efficiently.

Formed under the Union Ministry of Power, the Bureau of Energy Efficiency – BEE, has been leading the celebrations of National Energy Conservation Day annually on December 14 since 1991. A constitutional body that falls under the Government of India, the Bureau of Energy Efficiency assists in the development and implementation of strategies and policies to reduce excessive consumption of energy. The committee also executed 'The Energy Conservation Act' in 2001.

On the eve of National Energy Conservation Day (i.e., 14th December, 2022), the Institution of Green Engineers has planned a series of events and each college (who are the members of IGEN) was one day to celebrate this occasion. In this regard, our College has been give 11th December, 2022 to celebrate the day. On this day, our students went on a campaign to explain how to conserve electrical energy in various public places.

Sub: Permission request for the conduction of events on the occasion of energy conservation day-Reg

Sir,

I am writing to request your permission for an event the Department of Electrical and Electronics Engineering would like to conduct. On Energy Conservation Day, we would like this in a week with a series programs as follows:

S.No.	Date	Name of the Program
1	16-12-2019	Quiz
2	17-12-2019	Poster Presentation
3	18-12-2019	Guest Lecture
4	19-12-2019	Rally
5	20-12-2019	Campaigning the Educational Institutions

Our department will take care of all the arrangements. So in this regard, I request for the suspension of classwork and allow us to make this event a grand success.

Thanking you Sir,

Yours Sincerely,
(H.O.D. E.E.E.)

Schedule of the Program:

The initiation of energy conservation week has done on 16/12/2019. The main motto behind this week is to inculcate awareness regarding energy conservation within the students & the society.

Day-1(16/12/2019- Monday):

On this day, we have conducted a quiz competition in the presence of principal Prof.D.Deepak Chowdary and vice principal Mr.S.M.Rehman and head of the department Mr.Anand Gondesi and EEE faculty about electrical oriented bits and basics of energy conservation.

Day-2 (17/12/2019- Tuesday):

On this day, poster presentation was done by the students on non-conventional energy sources and also on the latest energy conservation techniques in the presence of EEE department & it was judged by Dr.D.Madhavi, H.O.D., CSE Department.

Day-3 (18/12/2019- Wednesday):

On this day, a guest lecture was delivered by Mr. Gandepalli Srinivasa Rao, his profile was read by Mr.Sridhar & addressed by Patnaik garu in the presence of principal Prof.D.Deepak Chowdary and EEE faculty members.

Day-4 (19/12/2019- Thursday):

On this day, we conducted a rally to conserve the energy. It was flagged off by Dr.satyanarayana, director, of Dr.lankapalli bullayya colleges. The main motto of this rally to bring awareness in the public to conserve energy in their daily life. It was accompanied by Mrs.Siva Jyothi madam, Mrs. Swathi, Mrs.Ganga bhavani, head of the department, teaching & non teaching staff of EEE department.

Day-5 (20/12/2019- Friday):

On this day, we went to Sri Krishna Vidya Mandir, VT high school, Ambedkar school & Junior college for campaigning to aware the students to conserve the energy for future , we suggested 9 tips to them.

Photo 1: Dr. D.Deepak Chowdary, Principal and Mr. S.M.Rahaman,Vice Principal, Dr. Lankapalli Bullayya College of Engg., addressing the gathering at Quiz competition.

Photo 2: III/IV EEE students presenting their poster in presence of Dr.D.Madhavi, H.O.D.,CSE Departmeny, Dr. Lankapalli Bullayya College of Engg.

Photo 3: Dr..D.Madhavi, H.O.D.,CSE Department, along with Dr.G.Anand H.O.D.,EEE Department, and faculty members of EEE, Dr. Lankapalli Bullayya College of Engg. at Poster Presentation.

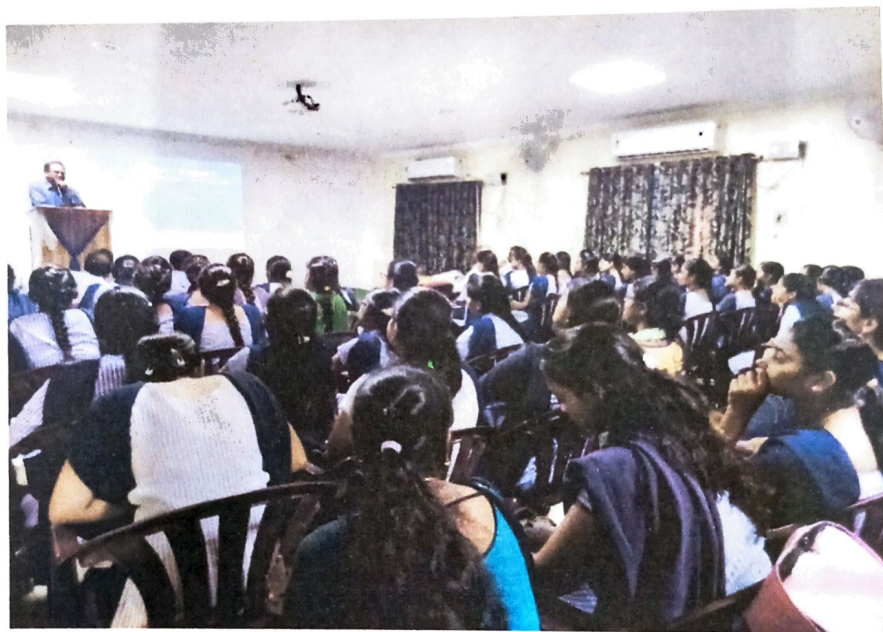

Photo 4: Mr. Gandepalli Srinivasa Rao, Co-Founder & Director, East Coast Sustainable Private Ltd. delivering a guest lecture.

Photo 5: Dr.satyanarayana, Director, Dr.lankapalli bullayya colleges felicitating Mr. Gandepalli Srinivasa Rao, Co-Founder & Director, East Coast Sustainable Private Ltd.

Photo 6: Dr.satyanarayana, Director, Dr.lankapalli bullayya colleges, starting the rally in presence of all the Heads of the Departments by flagging off.

Photo 7: Students participating in the rally displaying the placards of energy conservation.

Theme of the Event:

Earth Day 2023 Celebration

Earth Day is celebrated on April 22 every year. The day is also known as International Mother Earth Day. The day is observed to spread awareness about issues, including the rampant increase in pollution, global warming, and deforestation, which harm the environment and result in the destruction of the planet. Countries from all over the world come together to raise awareness about the dire need to protect our environment.

The theme of World Earth Day 2023 is "Invest in Our Planet", calling for businesses to shift towards sustainable practices. Yes, it will be a continuation of the successful 2022 campaign. This movement is expected to change the business climate, the political climate, and how to take the action on the climate.

The Students of Civil Engineering Department Participated in poster making competition. The HODs of other departments along with IQAC Coordinator inspected the Posters and declared the winners.

Ban On Plastic Items:

Plastic bags contribute significantly to plastic pollution. A type of pollution that is wreaking havoc on our ecosystem. To decrease pollution, plastic bags must be prohibited. These are particularly common in grocery stores since they are useful for transporting things such as vegetables, fruits, rice, wheat flour, and other shopping items. These are inexpensive and easy to carry or use, and they come in a variety of sizes. Plastic bags are not easy to recycle as the recycling rate by the recycling facilities is only 5% so it is tedious work.

The ECO FOCAL Club of Civil Department Conducted a cleanup program in the campus. They collected plastic waste in the campus.

Schedule of the Program:

Venue: Block 8 in Dr. Lankapalli Bullayya College of Engineering

Date: 21st April 2023

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

EARTH DAY celebrations are made by manuring the plants in our college with the domestic waste on 22-04-2022.

Theme 2021 : Restore The Earth

ABOUT THE PROGRAM :

The earth day program is about the life of the earth and how to increase the life span of earth by planting trees on a global scale in different countries to increase the earth span as well as the lifespan of humans .

About the EEE Department:

The Department of Electrical & Electronics Engineering was established in 2010-2011. The department offers a four year degree program Admission process is through state- wide entrance examination i.e EAMCET. The department is resourceful in terms of infrastructure and state-of-the-art facilities to pursue academic education and research in niche areas of technology. Liberal funding from the college management has enabled the Department to acquire specialized research facilities. The highly qualified and experienced faculty in adequate strength with zero attrition rates is one of the most significant features of the department. Electrical & Electronics Engineering is an enlightening branch which requires overall peripheral knowledge about all other branches and in-depth knowledge of Electrical & Electronics Engineering.

No Plastic Drive (Pledge) **(23-09-2020)**

Theme of the Event:

The "no plastic" drive refers to a global movement aimed at reducing the use of single-use plastics and minimizing the environmental impact of plastic pollution. It encompasses various efforts, policies, and initiatives geared toward raising awareness about the detrimental effects of plastic on the environment and encouraging individuals, businesses, and governments to adopt more sustainable alternatives.

Several strategies are employed in these drives:

- Awareness campaigns: These initiatives educate people about the harmful effects of plastic pollution on ecosystems, wildlife, and human health. They emphasize the importance of reducing, reusing, and recycling plastic items.
- Policy changes: Many governments worldwide have implemented bans or restrictions on single-use plastics such as bags, straws, and styrofoam containers. Some places charge fees for plastic bags or promote the use of biodegradable alternatives.
- Innovation and alternatives: Encouraging the development and use of biodegradable plastics, as well as promoting reusable alternatives like cloth bags, stainless steel straws, and glass containers, helps reduce reliance on traditional plastics.
- Community participation: Engaging communities, schools, businesses, and organizations in cleanup drives, recycling programs, and eco-friendly practices fosters a collective effort towards reducing plastic waste.
- Corporate responsibility: Many businesses are adopting environmentally friendly practices by reducing plastic packaging, redesigning products to be more sustainable, and investing in recyclable materials.

The "no plastic" drive is part of a larger effort to address the environmental challenges posed by plastic pollution and promote a more sustainable way of living. While progress has been made, there's still much work to be done to significantly reduce the impact of plastic on our planet.

Dr. Lankapalli Bullayya College of Engineering

New Resapuvani Palem, Visakhapatnam

Sponsored by Society of Collegiate Education

Approved by AICTE, Affiliated to Andhra University

Schedule of the Program:

Time: 10:00 AM to 11:00 AM

Venue: College Premises

Dr. G. Madhu Kumar, Secretary and Correspondent, Dr. Lankapalli Bullayya College of Engineering expressed his appreciation to the Department of EEE for initiating the no plastic drive (pledge on no usage of plastic). All the staff and students assembled in their respective classrooms to undertake a "Pledge against usage of plastic".

Pledge against usage of Plastic

The earth has the plastic problem to solve,

To help her, today I resolve

To do my bit, small or large,

To keep plastic litter on land and oceans far

I pledge to practice the 8 R's- Rethink, Refuse, Reduce, Recycle, Repair, Re-gift, Recover, and Reuse. And stop usage of plastic

As a good citizen of my country and a responsible resident of the planet Earth, I pledge to Refuse, Reduce, Recycle, Reuse, Repair, Re-gift, Recover and "Rethink plastic", to the best of my efforts by doing the following:

- I shall say "NO" to use plastic items (Straw, carry bags, cutlery etc.)
- I shall always carry a cloth bag, reusable cutlery, straw and cup.
- NOT purchase fruits and vegetables wrapped in plastic films
- Sensitize peers, friends and family about minimizing single use plastic
- Sort my waste for recycling and disposal
- Ask restaurants NOT to send plastic cutlery when ordering food online
- Purchase usually what can be either recycled, reused, refilled or repaired
- NOT accept gifts/ bouquets wrapped in plastics
- Avoid sachets as much as possible

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

About the EEE Department:

The Department of Electrical & Electronics Engineering was established in 2010-2011. The department offers a four year degree program Admission process is through state-wide entrance examination i.e EAMCET. The department is resourceful in terms of infrastructure and state-of-the-art facilities to pursue academic education and research in niche areas of technology. Liberal funding from the college management has enabled the Department to acquire specialized research facilities. The highly qualified and experienced faculty in adequate strength with zero attrition rates is one of the most significant features of the department. Electrical & Electronics Engineering is an enlightening branch which requires overall peripheral knowledge about all other branches and in-depth knowledge of Electrical & Electronics Engineering.

No Plastic Drive

(18-09-2019)

Theme of the Event:

The "no plastic" drive refers to a global movement aimed at reducing the use of single-use plastics and minimizing the environmental impact of plastic pollution. It encompasses various efforts, policies, and initiatives geared toward raising awareness about the detrimental effects of plastic on the environment and encouraging individuals, businesses, and governments to adopt more sustainable alternatives.

Several strategies are employed in these drives:

- **Awareness campaigns:** These initiatives educate people about the harmful effects of plastic pollution on ecosystems, wildlife, and human health. They emphasize the importance of reducing, reusing, and recycling plastic items.
- **Policy changes:** Many governments worldwide have implemented bans or restrictions on single-use plastics such as bags, straws, and styrofoam containers. Some places charge fees for plastic bags or promote the use of biodegradable alternatives.
- **Innovation and alternatives:** Encouraging the development and use of biodegradable plastics, as well as promoting reusable alternatives like cloth bags, stainless steel straws, and glass containers, helps reduce reliance on traditional plastics.
- **Community participation:** Engaging communities, schools, businesses, and organizations in cleanup drives, recycling programs, and eco-friendly practices fosters a collective effort towards reducing plastic waste.
- **Corporate responsibility:** Many businesses are adopting environmentally friendly practices by reducing plastic packaging, redesigning products to be more sustainable, and investing in recyclable materials.

The "no plastic" drive is part of a larger effort to address the environmental challenges posed by plastic pollution and promote a more sustainable way of living. While progress has been made, there's still much work to be done to significantly reduce the impact of plastic on our planet.

Gandhi Jayanthi Celebrations-Swachh Bharath Diwas (01-10-2022)

Theme of the Event:

Swachh Bharat Diwas, also known as Swachh Bharat Abhiyan Diwas or Clean India Day, is an annual event in India that celebrates the Swachh Bharat Abhiyan (Clean India Mission). The Swachh Bharat Abhiyan is a nationwide cleanliness campaign initiated by the Indian government to promote cleanliness and sanitation across the country. It was launched on October 2, 2014, to coincide with Mahatma Gandhi's birthday, who is considered the father of the Indian nation and had a strong belief in cleanliness and sanitation.

On Swachh Bharat Diwas, as with every year, various activities and events were organized across the country to promote and raise awareness about cleanliness and sanitation. These activities typically include Clean-up drives, Awareness campaigns, Workshops and seminars, Tree planting, Awards and recognition.

Swachh Bharat Diwas serves as a reminder of the ongoing commitment to maintaining cleanliness and sanitation in India and encourages citizens to actively participate in keeping their surroundings clean. This initiative is in line with the Indian government's vision to make India clean and open-defecation free.

Venue: College Premises

Dr. G. Madhu Kumar, Secretary and Correspondent, Dr. Lankapalli Bullayya College of Engineering expressed his appreciation to the Department of EEE for initiating the plantation event as a part of Gandhi Jayanthi Celebrations. Dr.D.Deepak Chowdary, Principal of the College started off the event by planting a sapling in the college premises chosen for the purpose. Dr.G.Anand along with the Staff Members of EEE department as well as the students participated enthusiastically in the event.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

About the EEE Department:

The Department of Electrical & Electronics Engineering was established in 2010-2011. The department offers a four year degree program Admission process is through state- wide entrance examination i.e EAMCET. The department is resourceful in terms of infrastructure and state-of-the-art facilities to pursue academic education and research in niche areas of technology. Liberal funding from the college management has enabled the Department to acquire specialized research facilities. The highly qualified and experienced faculty in adequate strength with zero attrition rates is one of the most significant features of the department. Electrical & Electronics Engineering is an enlightening branch which requires overall peripheral knowledge about all other branches and in-depth knowledge of Electrical & Electronics Engineering.

A Drive on Plantation (20-03-2021)

Theme of the Event:

A plantation drive typically refers to a coordinated effort to plant trees, often organized by governments, non-profit organizations, or community groups. These initiatives aim to increase green cover, combat deforestation, mitigate climate change, and promote environmental sustainability.

Plantation drives have numerous benefits, including:

- **Environmental Benefits:** Trees absorb carbon dioxide, release oxygen, prevent soil erosion, and provide habitat for various species.
- **Health and Aesthetic Benefits:** They improve air quality, beautify landscapes, and create natural spaces for relaxation and recreation.
- **Economic Benefits:** Trees contribute to the economy through products like timber, fruits, and other forest-based resources.

Subject: Permission request for the conduction of E-Quiz-Reg

Sir,

I am writing to request your permission for an event the Department of Electrical and Electronics Engineering would like to conduct. On the occasion of World Environment Day, we would like to conduct a National level E-Quiz through online on 5th June. So in this regard, I request for your acceptance and provide us necessary facilities that are required. We are eagerly waiting for the positive response and allow us to make this event a grand success. Please do the needful Sir.

Thanking you Sir,

Yours Sincerely,

(H.O.D.-E.E.E.)

REPORT ON E-QUIZ UNDER GREEN-9 CLUB

On the eve of World's Environmental Day on 5th June, 2020, Green-9 committee of the Department of Electrical and Electronics Engineering has conducted a National level E-Quiz on "Electrical energy saving".

Convenor: Mr. Ch.Arun Kumar, Assistant Professor, Dept. of EEE, Dr.Lankapalli Bullayya College of Engineering for Women, Visakhapatnam.

Coordinator: Mr. M.Srinivas, Assistant Professor, Dept. of EEE, Dr.Lankapalli Bullayya College of Engineering for Women, Visakhapatnam.

Duration: From 5th June, 2020 to 10th June, 2020.

Evaluation: A digital certificate has been issued to all the participants who secured above 40% of the total marks of 100. In this Quiz, 25 objective questions were given with each question carrying 4marks.

Eligibility: Open for Students and Teachers of all the colleges.

Certificate: Certificate has been auto generated for participants who got 40% and above of the total marks.

Method: The question paper was prepared by using Google Form and a Plug-in was added to auto generate the certificate.

Participants: We got a total of 259 responses from the participants which includes Professors, Associate Professors, Assistant Professors and students from various Departments and various Colleges all around the country. The list of participants from different colleges has been attached with this report.

Sub: Request to grant permission for the celebration of Gandhi Jayanthi (Swachh Bharath Diwas)-reg

Respected Sir,

The Department of Electrical and Electronics Engineering would like to conduct plantation on the occasion of Mahatma Gandhiji's jayanthi (Swachh Bharath Diwas) on 01-10-2019 in our college premises from 10:00-11:30AM. So in this regard, I request you Sir to kindly grant permission to conduct the event on that date.

Thanking you Sir,

Yours Sincerely,

(H.O.D.-E.E.E.)

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

About the EEE Department:

The Department of Electrical & Electronics Engineering was established in 2010-2011. The department offers a four-year degree program Admission process is through state-wide entrance examination i.e. EAMCET. The department is resourceful in terms of infrastructure and state-of-the-art facilities to pursue academic education and research in niche areas of technology. Liberal funding from the college management has enabled the Department to acquire specialized research facilities. The highly qualified and experienced faculty in adequate strength with zero attrition rates is one of the most significant features of the department. Electrical & Electronics Engineering is an enlightening branch which requires overall peripheral knowledge about all other branches and in-depth knowledge of Electrical & Electronics Engineering.

Gandhi Jayanthi Celebrations-Swachh Bharath Diwas (01-10-2019)

Theme of the Event:

Swachh Bharat Diwas, also known as Swachh Bharat Abhiyan Diwas or Clean India Day, is an annual event in India that celebrates the Swachh Bharat Abhiyan (Clean India Mission). The Swachh Bharat Abhiyan is a nationwide cleanliness campaign initiated by the Indian government to promote cleanliness and sanitation across the country. It was launched on October 2, 2014, to coincide with Mahatma Gandhi's birthday, who is considered the father of the Indian nation and had a strong belief in cleanliness and sanitation.

On Swachh Bharat Diwas in 2019, as with every year, various activities and events were organized across the country to promote and raise awareness about cleanliness and sanitation. These activities typically include Clean-up drives, Awareness campaigns, Workshops and seminars, Tree planting, Awards and recognition.

Swachh Bharat Diwas serves as a reminder of the ongoing commitment to maintaining cleanliness and sanitation in India and encourages citizens to actively participate in keeping their surroundings clean. This initiative is in line with the Indian government's vision to make India clean and open-defecation free.

Schedule of the Program:

Time: 10:00 AM to 11:30 AM

Venue: College Premises

Dr. G. Madhu Kumar, Secretary and Correspondent, Dr. Lankapalli Bullayya College of Engineering expressed his appreciation to the Department of EEE for initiating the plantation event as a part of Gandhi Jayanthi Celebrations. Dr.D.Deepak Chowdary, Principal of the College started off the event by planting a sapling in the college premises chosen for the purpose. Dr.G Anand along with the Staff Members of EEE department as well as the students participated enthusiastically in the event.
