ABOUT THE COLLEGE

Dr. Lankapalli Bullayya College of Engineering was started in 2010 as a part of the group of educational institutions run by the Society for Collegiate Education, in Visakhapatnam. The Institute mainly aim to create proficient engineers, who will add newer dimensions. The institute has well maintained play grounds, trees and handy plantations leading to healthy and pleasant environment. There were four branches of Engineering in the college including CSE, ECE, EEE, and Civil with an annual intake of 120 each for CSE and ECE while the intake for EEE and Civil was 60 seats.

ABOUT THE DEPARTMENT

The department of computer science and engineering was started in the year 2010 with the aim of equipping the students sufficiently with the required theoretical foundation and practical skills needed to make them active participants in the highly rewarding field of Computer Science and Information Technology. State-of-the-art infrastructure combined with a team of highly qualified and committed teachers who strive unceasingly to enable students achieve their goals characterize the academic environment. In accordance with the vision of the institution which aims to use education as a tool to create value added citizens, the department provides adequate opportunities for students to acquire knowledge from various sources such as Massively Online Open Courseware, NDL lectures from IITs in addition to the regular classroom teaching

Objective of the program

- Skill Development: Enhance critical thinking, problem-solving, and technical skills through interactive demonstrations.
- Ethical Awareness: Raise awareness of ethical considerations in technological advancements and research.
- Career Guidance: Offer insights into potential career paths and opportunities in the rapidly evolving technology landscape.

Topics to be Covered:

- Career Path Clarity: Acquire insights into potential career paths and areas of specialization within emerging technology domains.
- Confidence and Readiness: Build confidence and preparedness to engage in research and projects that contribute to technological progress.
- Motivation for Research: Feel motivated to engage in research activities, fueled by the exciting possibilities demonstrated during the event.

PROGRAM REPORT

Programme Name	Demonstrating the Latest Technological Research Trends
Resource Person	D. Sudhakar Rao Assistant Manager Dredging Corporation of India Ltd.
Date of Activity	10-06-2022
Organised By	Department of Computer Science Engineering, Dr LankapalliBullayya College of Engineering
Venue	Block-7 CF8

About the Institute:

Dr. LankapalliBullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning higher skills in new technologies and building their extraordinary careers in industry and research organizations. Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. LankapalliBullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land. The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Program:

The theme "Demonstrating the Latest Technological Research Trends" encapsulates an event that brings to life the fascinating world of research and technology. It's not just about theoretical understanding; it's about seeing, experiencing, and participating in the cutting-edge innovations that define our times. This event unfolds as a live demonstration of research in action, showcasing the latest technological trends across various engineering domains. Attendees will witness firsthand the transformative power of research, as it evolves from theory to tangible applications. By immersing participants in this dynamic experience, the event seeks to ignite a passion for research, foster collaboration, and empower engineering students to actively contribute to the advancement of technology.

Program Objectives:

- **Live Demonstrations:** Offer live demonstrations of research-based technology to enhance understanding and engagement.
- **Experiential Learning:** Provide participants with a hands-on experience of the latest technological trends.
- **Collaborative Environment:** Encourage collaboration and knowledge sharing among attendees, researchers, and industry professionals.
- **Inspire Research Engagement:** Inspire engineering students to actively engage in research projects and contribute to technological advancements.
- **Networking Opportunities:** Facilitate connections between attendees and professionals to encourage future collaborations.
- **Skill Development:** Enhance critical thinking, problem-solving, and technical skills through interactive demonstrations.
- **Ethical Awareness:** Raise awareness of ethical considerations in technological advancements and research.
- **Career Guidance:** Offer insights into potential career paths and opportunities in the rapidly evolving technology landscape.

Program Content:

- **Artificial Intelligence and Robotics:** Live demonstrations showcasing AI applications and robots, highlighting advancements and real-world applications.
- **Internet of Things (IoT) and Smart Devices:** Exhibitions on IoT devices and their role in creating smart environments and enhancing daily lives.
- **Sustainable Energy Solutions:** Demonstrations of sustainable energy technologies and their impact on renewable energy sources and conservation.

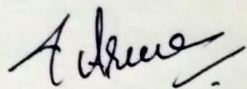

- Biomedical Engineering Innovations: Exhibits presenting breakthroughs in healthcare, medical devices, and biomedical engineering.
- Virtual Reality (VR) and Augmented Reality (AR): Interactive showcases of VR and AR applications, exploring their impact on various sectors.
- Automated Systems and Industry 4.0: Demonstrations highlighting automated manufacturing systems and their role in the fourth industrial revolution.
- Cybersecurity Solutions: Displays of cybersecurity technologies and practices to secure data and systems.
- Future Communication Technologies: Exploring emerging communication technologies like 6G and beyond, demonstrating their capabilities and potential applications.

Program Outcomes:

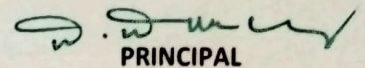

Upon successful completion of the workshop, participants will be able to:

- Enhanced Understanding: Develop a deeper understanding of the latest tech trends through live demonstrations and interactions.
- Inspiration to Innovate: Be inspired to innovate and engage in research-driven projects that contribute to technological advancements.
- Hands-on Experience: Gain hands-on experience with cutting-edge technologies, enhancing technical and problem-solving skills.
- Professional Connections: Build connections with researchers and industry professionals, opening doors to future collaboration and career opportunities.
- Awareness of Ethical Implications: Understand the ethical considerations related to technological advancements and research.
- Career Path Clarity: Acquire insights into potential career paths and areas of specialization within emerging technology domains.
- Confidence and Readiness: Build confidence and preparedness to engage in research and projects that contribute to technological progress.
- Motivation for Research: Feel motivated to engage in research activities, fueled by the exciting possibilities demonstrated during the event.

Objective of the program

The main objective of Entrepreneurship is the process of designing, launching and been defined as the capacity and willingness to develop, organize and manage a business venture along with any of its risks in order to make a profit. 'Entrepreneurship is now a matter of debate and discussion. On the other hand it is the study of taking calculative risk.

Topics to be Covered:

- Entrepreneurship and regional development
- International Entrepreneurship Growth and competitiveness
- Entrepreneurship and regional development
- Policy Entrepreneurship

PROGRAM REPORT

Program Name	One day workshop on ' An Overview of Entrepreneurship'
Resource Person	Dr. K.V.Ramana Rao HOD, Dept of ECE Sanketika Vidya Parishad College of Engineering, Madhurawada.
Date Of Activity	10-09-2022
Organized By	Department of Electrical and Electronics Engineering, Dr Lankapalli Bullayya College of Engineering
Venue	Class Room CS -2

Objective of the program:

The objective of the program:

- The aim of entrepreneurial seminar is to prepare future engineers to build their own entrepreneurial path.
- In addition in providing know-how needed for establishment of one's own enterprise, the course aims to encourage entrepreneurial mindset among the participants.
- It aims to see entrepreneurship or establishment of their own enterprise as an opportunity, to further develop their intellectual self-confidence and to view engineering know-how as an entrepreneurial challenge.

Topics to be covered:

- Entrepreneurship and Institutions
- Entrepreneurship Growth and competitiveness
- Entrepreneurship and regional development

Characteristics of Entrepreneurship

- High Risk
- High Reward
- High Creativity
- High Innovation
- High Flexibility
- High Adaptability
- High Initiative
- High Vision
- High Energy
- High Motivation
- High Persistence
- High Resilience
- High Determination
- High Ambition
- High Confidence
- High Self-belief
- High Self-discipline
- High Self-control
- High Self-reliance
- High Self-motivation
- High Self-direction
- High Self-actualization
- High Self-fulfillment
- High Self-achievement
- High Self-actualization

ABOUT THE COLLEGE

Dr. Lankapalli Bullayya College of Engineering formerly known as Dr. Lankapalli Bullayya College of Engineering for Women was started in 2010 as a part of the group of educational institutions run by the Society for Collegiate Education, Visakhapatnam by the philanthropists and educationalists who visualized the need for serving the society by means of affordable, accessible and qualitative, value-based education. There were four branches of Engineering in the college including CSE, ECE, EEE, and Civil with an annual intake of 120 each for CSE and ECE while the intake for EEE and Civil was 60 seats. The Women's Engineering College then evolved into a full-fledged Co-education Engineering college in the academic year 2020-21. The college is Affiliated with Andhra University, Visakhapatnam, and approved by AICTE, New Delhi.

ABOUT THE DEPARTMENT

The Department of Electronics and Communication Engineering was established in the year 2010 with an annual intake of 120 students for the B. Tech Program. The Department has a mix of both experienced and young faculty. All the faculty members actively involve themselves in improving their education qualifications and research work. Faculty and students are encouraged to attend and participate in various seminars, workshops, and training programs conducted by various reputed organizations to enhance their knowledge. The management also supports the faculty members with financial assistance to attend workshops, conferences, and seminars.

OBJECTIVE OF THE PROGRAM

The one-day workshop on orientation for new researchers toward successful research careers is designed with several key objectives in mind. It aims to provide a comprehensive and empowering introduction to the world of research for emerging scholars and scientists. The primary goal is to equip new researchers with the essential skills and knowledge required to navigate the early stages of their research careers effectively.

TOPICS TO BE COVERED

- Introduction to Research Fundamentals
- Ethical Conduct in Research
- Project Planning and Management
- Effective Literature Review
- Grant Writing Skills
- Networking and Mentorship Opportunities
- Inspiring Innovation in Research
- Navigating Career Development
- Academic Publishing and Dissemination
- Research Positioning and Opportunities
- Time and Resource Management
- Data Collection and Analysis Techniques
- Interdisciplinary Research Approaches
- Balancing Research and Personal Life
- Professional and Research Ethics

DATE: 11-10-2022

PROGRAM REPORT

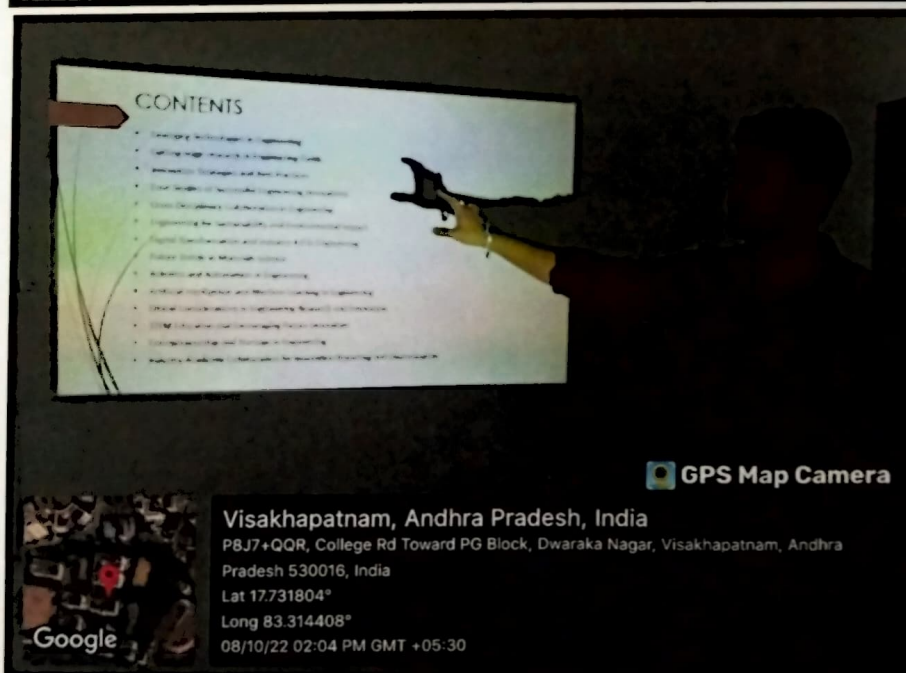

Programme Name	A one-day workshop on Orientation for New Researchers Towards Successful Research Careers
Resource Person	Mr. K SANTOSH KUMAR ASSISTANT PROFESSOR, ECE DEPARTMENT, VIGNAN INSTITUTE OF ENGINEERING FOR WOMEN, Visakhapatnam
Date Of Activity	08-10-2022
Organized By	Department of Electronics and Communication Engineering, Dr Lankapalli Bullayya College of Engineering
Venue	classroom CT-14, Block-7.

Objective of the program:

The one-day workshop on orientation for new researchers toward successful research careers is designed with several key objectives in mind. It aims to provide a comprehensive and empowering introduction to the world of research for emerging scholars and scientists. The primary goal is to equip new researchers with the essential skills and knowledge required to navigate the early stages of their research careers effectively. The workshop seeks to introduce research fundamentals, encompassing research methodologies, data analysis, and the research process itself. It places a strong emphasis on promoting ethical conduct and responsible research practices, underscoring the significance of integrity and transparency in academic and scientific pursuits. Furthermore, the program aims to guide participants in project planning, literature review, and grant writing, empowering them to formulate research questions, manage projects efficiently, and secure funding for their work.. It also provides guidance on career development, academic opportunities, research dissemination, and positions within the research landscape. Ultimately, the overarching objective is to empower new researchers with the knowledge, skills, and confidence to embark on successful research careers, make meaningful contributions to their disciplines, and uphold the highest ethical standards in their work, thus nurturing a new generation of research leaders and scholars.

Topics Covered:

- Introduction to Research Fundamentals
- Ethical Conduct in Research
- Project Planning and Management
- Effective Literature Review
- Grant Writing Skills
- Networking and Mentorship Opportunities
- Inspiring Innovation in Research
- Navigating Career Development
- Academic Publishing and Dissemination
- Research Positioning and Opportunities
- Time and Resource Management
- Data Collection and Analysis Techniques
- Interdisciplinary Research Approaches
- Balancing Research and Personal Life
- Professional and Research Ethics

OBJECTIVE OF THE PROGRAM

The objectives of using research tools in the context of academic or scientific research can vary depending on the specific tool and the stage of the research process. It efficiently manages and organizes research references. Improve the quality and clarity of written content. Detect and prevent plagiarism to maintain academic integrity. Enhance collaboration and streamline project management. Provide open access to Indian theses and dissertations Facilitate networking and collaboration among researchers thus maximizing the benefits of these tools while mitigating challenges in their research workflows.

TOPICS To Be COVERED

- ❖ Mendeley
- ❖ Quillbot
- ❖ Grammarly
- ❖ Shodhganga
- ❖ Plagiarism Check and pitfalls
- ❖ Research gate.

Dr. Lankapalli Bullayya College of Engineering

Dr. Lankapalli Bullayya College of Engineering

New Resapurvani Palem, Visakhapatnam

Sponsored by Society of Collegiate Education

Approved by AICTE, Affiliated to Andhra University

The outcome of the Programme:

The outcomes of a program focused on research tools such as Mendeley, Grammarly, plagiarism check tools, Quilblot, Shodhganga, and ResearchGate can be diverse and beneficial for participants.

Here are the potential outcomes and associated benefits:

Participants were proficient at organizing and maintaining their references using Mendeley. They learned how to improve their writing abilities by using Grammarly. Plagiarism Check Tools taught participants the value of plagiarism check tools in maintaining academic integrity. It benefits by lowering the danger of unintended plagiarism, maintaining ethical research practices, and ensuring that research results add to the body of knowledge without duplication. Participants also learned how to use Quilblot for collaborative writing and project management. From Shodhganga they learned how to use Shodhganga to access a repository of theses and dissertations. It increases access to a varied spectrum of research results, hence facilitating complete literature evaluations. Participants learned about the networking and cooperation options available via ResearchGate.

Objective of the program

The one-day seminar on Research Management, Planning, and Collaboration has a set of clear and comprehensive objectives. Its primary aim is to equip researchers, academics, and research administrators with the knowledge and skills necessary to effectively manage, plan, and collaborate in the world of research. The program intends to enhance participants' proficiency in research project management, helping them optimize resources, timelines, and budgets. It also strives to provide insights into strategic research planning, including the formulation of research questions, hypotheses, and effective research proposals

Topics to be Covered

- Effective Research Project Management
- Strategic Research Planning and Development
- Formulating Research Questions and Hypotheses
- Writing Successful Research Proposals
- Resource Allocation and Budgeting
- Timelines and Milestones in Research Projects
- Risk Management in Research
- Collaborative Research Models and Best Practices
- Interdisciplinary Research Opportunities
- Fostering Effective Research Teams
- Managing and Analyzing Research Data
- Ethical Considerations in Research Collaboration
- Innovations in Research Management Tools
- Communication and Knowledge Sharing in Research Projects
- Evaluating Research Impact and Effectiveness

PROGRAM REPORT

Programme Name	One-day Seminar on Research Management, Planning, and Collaboration
Resource Person	DR.K.V. RAMANA RAO, ASSOCIATE PROFESSOR, ECE DEPARTMENT, SANKETIKA VIDYA PARISHAD engineering COLLEGE, Visakhapatnam
Date Of Activity	10-12-2022
Organized By	Department of Electronics and Communication Engineering, Dr Lankapalli Bullayya College of Engineering
Venue	classroom CT-10, Block-7.

The objective of the program:

The one-day seminar on Research Management, Planning, and Collaboration has a set of clear and comprehensive objectives. Its primary aim is to equip researchers, academics, and research administrators with the knowledge and skills necessary to effectively manage, plan, and collaborate in the world of research. The program intends to enhance participants' proficiency in research project management, helping them optimize resources, timelines, and budgets. It also strives to provide insights into strategic research planning, including the formulation of research questions, hypotheses, and effective research proposals. Furthermore, the seminar is designed to foster a culture of collaboration, encouraging participants to build valuable networks, forge interdisciplinary partnerships, and share expertise, ultimately leading to more impactful and innovative research outcomes. The overarching goal is to empower attendees with the tools and strategies to excel in the management and planning of research initiatives, promoting efficient collaboration and elevating the quality and impact of their research endeavors.

Topics Covered:

- Effective Research Project Management
- Strategic Research Planning and Development
- Formulating Research Questions and Hypotheses
- Writing Successful Research Proposals
- Resource Allocation and Budgeting
- Timelines and Milestones in Research Projects
- Risk Management in Research
- Collaborative Research Models and Best Practices
- Interdisciplinary Research Opportunities
- Fostering Effective Research Teams
- Managing and Analyzing Research Data
- Ethical Considerations in Research Collaboration
- Innovations in Research Management Tools
- Communication and Knowledge Sharing in Research Projects
- Evaluating Research Impact and Effectiveness

DR.K.V. RAMANA RAO gave a presentation on Research Management, Planning, and Collaboration on 10-12-2022

The outcome of the Programme:

The one-day seminar on Research Management, Planning, and Collaboration is anticipated to yield a range of valuable outcomes for its participants. Firstly, attendees will depart with enhanced proficiency in research project management, enabling them to efficiently allocate resources, adhere to timelines, and manage budgets, all of which are crucial for the successful execution of research initiatives. The seminar's focus on strategic research planning will equip participants with the skills to formulate well-defined research questions, hypotheses, and compelling research proposals, ensuring that their projects are purposeful and impactful.

Overall, the seminar's outcomes aim to empower researchers, academics, and research administrators with the skills, knowledge, and networks required to excel in research management, planning, and collaboration. This, in turn, is expected to elevate the quality and impact of their research endeavors and contribute to the broader advancement of knowledge in their respective fields.

About The College

Dr. Lankapalli Bullayya College of Engineering formerly known as Dr. Lankapalli Bullayya College of Engineering for Women was started in 2010 as a part of the group of educational institutions run by the Society for Collegiate Education, Visakhapatnam by the philanthropists and educationalists who visualized the need for serving the society by means of affordable, accessible and qualitative, value-based education. There were four branches of Engineering in the college including CSE, ECE, EEE, and Civil with an annual intake of 120 each for CSE and ECE while the intake for EEE and Civil was 60 seats. The Women's Engineering College then evolved into a full-fledged Co-education Engineering college in the academic year 2020-21. The college is Affiliated with Andhra University, Visakhapatnam, and approved by AICTE, New Delhi.

About The Department

The Department of Electronics and Communication Engineering was established in the year 2010 with an annual intake of 120 students for the B. Tech Program. The Department has a mix of both experienced and young faculty. All the faculty members actively involve themselves in improving their education qualifications and research work. Faculty and students are encouraged to attend and participate in various seminars, workshops, and training programs conducted by various reputed organizations to enhance their knowledge. The management also supports the faculty members with financial assistance to attend workshops, conferences, and seminars.

Objective of the program

The objective of the one-day seminar on Intellectual Property Rights (IPR) is to provide participants with a comprehensive understanding of the crucial role that IPR plays in protecting intellectual assets, fostering innovation, and facilitating business growth. The seminar aims to educate attendees about the various forms of IPR, including patents, copyrights, trademarks, and trade secrets, and equip them with the knowledge and tools necessary to navigate the legal frameworks and procedures for safeguarding their creative and innovative works. By the end of the seminar, participants should have a clear understanding of IPR's significance, legal implications, and practical applications, enabling them to make informed decisions about protecting their intellectual assets and fostering a culture of innovation within their respective domains.

Topics to be Covered

- Introduction to Intellectual Property
- Types of Intellectual Property: Patents, Copyrights, Trademarks, and Trade Secrets
- Patent Applications and Processes
- Copyright Registration and Fair Use
- Trademark Protection and Branding
- Trade Secrets and Confidential Information
- IPR in the Digital Age: Challenges and Solutions
- Licensing and Commercialization of Intellectual Property

DATE: 13-02-2023

PROGRAM REPORT

Programme Name	One-Day Seminar on Intellectual Property Rights
Resource Person	Mrs. N.SAI LAKSHMI ASSISTANT PROFESSOR, ECE DEPARTMENT, BABA INSTITUTE OF TECHNOLOGY AND SCIENCES Visakhapatnam
Date Of Activity	11-02-2023
Organized By	Department of Electronics and Communication Engineering, Dr Lankapalli Bullayya College of Engineering

The objective of the program:

The objective of the one-day seminar on Intellectual Property Rights (IPR) is to provide participants with a comprehensive understanding of the crucial role that IPR plays in protecting intellectual assets, fostering innovation, and facilitating business growth. The seminar aims to educate attendees about the various forms of IPR, including patents, copyrights, trademarks, and trade secrets, and equip them with the knowledge and tools necessary to navigate the legal frameworks and procedures for safeguarding their creative and innovative works. By the end of the seminar, participants should have a clear understanding of IPR's significance, legal implications, and practical applications, enabling them to make informed decisions about protecting their intellectual assets and fostering a culture of innovation within their respective domains. Ultimately, the seminar's objective is to enhance IPR literacy, encouraging participants to recognize and harness the power of intellectual property rights in an increasingly knowledge-driven economy.

Topics Covered:

- ✓ Introduction to Intellectual Property
- ✓ Types of Intellectual Property: Patents, Copyrights, Trademarks, and Trade Secrets
- ✓ Patent Applications and Processes
- ✓ Copyright Registration and Fair Use
- ✓ Trademark Protection and Branding
- ✓ Trade Secrets and Confidential Information
- ✓ IPR in the Digital Age: Challenges and Solutions
- ✓ Licensing and Commercialization of Intellectual Property
- ✓ Ethical Considerations in Intellectual Property
- ✓ Case Studies of Successful IPR Strategies
- ✓ Intellectual Property Rights and Innovation

Mrs. N.SAI LAKSHMI gave a presentation on Intellectual Property Rights on 11-02-2023

The outcome of the Programme:

The one-day seminar on Intellectual Property Rights (IPR) is expected to yield a range of valuable outcomes for its participants. Firstly, attendees will leave with a comprehensive understanding of the diverse forms of intellectual property, including patents, copyrights, trademarks, and trade secrets, and the legal frameworks that govern them. This knowledge empowers individuals and organizations to make informed decisions about protecting their intellectual assets, whether they are inventors, creators, or business leaders.

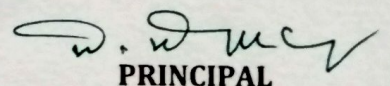

The seminar's emphasis on intellectual property protection strategies and enforcement will equip participants with the tools to safeguard their innovations, creative works, and brands. They will also gain insights into the complexities of IPR in the digital age, allowing them to navigate the unique challenges and opportunities presented by the digital landscape. Furthermore, the program will shed light on the commercialization and licensing of intellectual property, helping individuals and organizations leverage their IP assets for business growth and innovation.

Additionally, the seminar will encourage ethical considerations in intellectual property practices, fostering a culture of responsible and transparent conduct. By showcasing real-world case studies of successful IPR strategies, the seminar will provide practical insights and inspiration for attendees to apply in their respective fields. Ultimately, the seminar's outcomes aim to empower participants to recognize, protect, and strategically leverage their intellectual property rights, supporting their innovative endeavors and contributing to the broader landscape of knowledge, creativity, and business success.

ABOUT THE COLLEGE

Dr. Lankapalli Bullayya College of Engineering was started in 2010 as a part of the group of educational institutions run by the Society for Collegiate Education, in Visakhapatnam. The Institute mainly aim to create proficient engineers, who will add newer dimensions. The institute has well maintained play grounds, trees and handy plantations leading to healthy and pleasant environment. There were four branches of Engineering in the college including CSE, ECE, EEE, and Civil with an annual intake of 120 each for CSE and ECE while the intake for EEE and Civil was 60 seats.

ABOUT THE DEPARTMENT

The Department of Electrical and Electronics Engineering was established in the year 2010 with an annual intake of 60 students for the B. Tech Program.. The experienced faculty guide the Department aiming at educating and training students with sound knowledge and awareness in the fields of electrical and electronics engineering. All the faculty members actively involve themselves in improving their education qualifications and research work The management provide training to faculty and students on recent technologies. Various workshops and training programs are frequently conducted in the Department.

PROGRAM REPORT

Program Name	One day seminar on ' Writing a research paper'
Resource Person	Mr.B. Sangeeth Kumar, Asst. Prof. Dept of ECE Sanketika Vidya Parishad College of Engineering, Madhurawada.
Date Of Activity	11-02-2023
Organized By	Department of Electrical and Electronics Engineering, Dr Lankapalli Bullayya College of Engineering
Venue	Class room CS-2

Objective of the program:

- The seminar aims at creating awareness regarding the paper writing skills among the participants.
- The program goals at writing a research paper, understanding the proper formatting and structure is essential and also to share a set of guidelines that are widely used in the social sciences, including psychology, sociology, and education.
- To know about role of plagiarism in paper writing.

Topics to be covered:

- Pre Writing
- Planning and Outlining
- Writing a first draft
- Editing and proof reading
- Referencing and Citation

The course outcomes:

1. The attendees developed with basic idea of paper writing and also come to know the importance of paper writing.
2. Participants have come to know the importance of literature review and also given with basic inputs in searching for review papers relevant to their topic.
3. Participants were provided with the basic concepts and importance of plagiarism and indexing

ABOUT THE COLLEGE

Dr. Lankapalli Bullayya College of Engineering formerly known as Dr. Lankapalli Bullayya College of Engineering was started in 2010 as a part of the group of educational institutions run by the Society for Collegiate Education, Visakhapatnam by the philanthropists and educationalists who visualized the need for serving the society by means of affordable, accessible and qualitative, value-based education. There were four branches of Engineering in the college including CSE, ECE, EEE, and Civil with an annual intake of 120 each for CSE and ECE while the intake for EEE and Civil was 60 seats. The Women's Engineering College then evolved into a full-fledged co-education Engineering college in the academic year 2020-21. The college is Affiliated with Andhra University, Visakhapatnam, and approved by AICTE, New Delhi.

Dr. Lankapalli Bullayya College of Engineering takes pride in being the distance learning centre of IIRS, Indian Space Research Organization. The college has MoUs with Bharat Sanchar Nigam Limited, Visakhapatnam, Mahananda Welfare Society, Visakhapatnam, MSL LED, Visakhapatnam.

ABOUT THE DEPARTMENT

The Department of Civil Engineering was established in the year 2010, with an annual intake of 60 students for the B. Tech program. It has a mix of both experienced and young faculty. The majority of the faculty members actively involve themselves in improving their education qualifications and research work. Faculty and students are encouraged to attend and participate in various seminars, workshops, and training programs conducted by various reputed organizations to enhance their knowledge. The management also supports the faculty members with financial assistance to attend workshops, seminars, and conferences.

The Civil Department is well-equipped with spacious laboratories and experienced technicians. The Department of Civil Engineering also offers various consultancy works.

ORGANIZING COMMITTEE

**CIVIL-Class Room
Block-8**

OBJECTIVE OF THE PROGRAM

The objectives of on Intellectual Property and patent Files aim to encompass the protection, documentation, utilization, and dissemination of knowledge and innovation, contributing to technological advancement, economic growth, and legal protection for inventors and creators. Patent files serve as legal documents that grant exclusive rights to the inventor for a specified period, encouraging innovation by protecting unauthorized use or replication. Educate on market dynamics and effective customer engagement. Foster networking and collaboration skills.

TOPICS To Be COVERED

- Protecting your intellectual properties
- Legal Rights and Enforcement
- International Collaboration and Harmonization
- Legal Prior Art and Patentability Search

The outcome of the Programme:

The outcomes of Intellectual Property Rights (IPR) and patent files were multifaceted, impacting various sectors, innovation, economic growth, and legal frameworks. The main findings of this program benefited participants in developing, assessing, and validating viable company ideas through market research and feasibility studies. They learned how to develop organized and practical business plans that include the goals, strategies, financial forecasts, and operational elements required for starting and running a firm.

They explored ways to grow and flourish as entrepreneurs, including leadership, communication, negotiation, problem-solving, decision-making, and financial management. Financial Management and Resource Optimization enabled them to exhibit good financial management skills such as budgeting, cash flow management, resource allocation, and getting funding.

ABOUT THE COLLEGE

Dr. Lankapalli Bullayya College of Engineering was started in 2010 as a part of the group of educational institutions run by the Society for Collegiate Education, in Visakhapatnam. The Institute mainly aim to create proficient engineers, who will add newer dimensions. The institute has well maintained play grounds, trees and handy plantations leading to healthy and pleasant environment. There were four branches of Engineering in the college including CSE, ECE, EEE, and Civil with an annual intake of 120 each for CSE and ECE while the intake for EEE and Civil was 60 seats.

ABOUT THE DEPARTMENT

The department of computer science and engineering was started in the year 2010 with the aim of equipping the students sufficiently with the required theoretical foundation and practical skills needed to make them active participants in the highly rewarding field of Computer Science and Information Technology. State-of-the-art infrastructure combined with a team of highly qualified and committed teachers who strive unceasingly to enable students achieve their goals characterize the academic environment. In accordance with the vision of the institution which aims to use education as a tool to create value added citizens, the department provides adequate opportunities for students to acquire knowledge from various sources such as Massively Online Open Courseware, NDL lectures from IITs in addition to the regular classroom teaching

Objective of the program

- Ethical Awareness: Raise awareness about ethical considerations in the research, development, and implementation of digital technologies.
- Career Guidance: Provide guidance and insights into potential career paths and opportunities within the digital landscape.
- Inspiration to Innovate: Inspire engineering students to innovate and contribute to the ongoing advancements in technology.

Topics to be Covered:

- Ethical Responsibility: Develop a strong sense of ethical responsibility in research, development, and deployment of digital technologies.
- Inspiration to Innovate: Be inspired to innovate and contribute to the ongoing technological advancements that shape the digital landscape.
- Confidence and Preparedness: Build confidence and preparedness to engage in research and projects that contribute to technological progress and societal well-being in the digital era.

PROGRAM REPORT

Programme Name	Technology Research, Navigating the Digital Landscape
Resource Person	Dr. K. V Ramana Rao Head of Dept. ECE Sankethika Vidya Parishad College of Engineering
Date of Activity	11-03-2023
Organised By	Department of Computer Science Engineering, Dr Lankapalli Bullayya College of Engineering(W)
Venue	Block-7 CF8

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning higher skills in new technologies and building their extraordinary careers in industry and research organizations. Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land. The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The

College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Program:

The theme "Technology Research, Navigating the Digital Landscape" sets the tone for a dynamic and enlightening exploration of the contemporary digital realm. In this fast-paced, interconnected world, technology is the compass guiding our journey. This seminar aims to navigate this vast and ever-evolving digital landscape by delving into cutting-edge technology research. Attendees will embark on an informative expedition, unraveling research trends, methodologies, and applications across various engineering domains. Through insightful discussions and knowledge-sharing, the seminar aspires to equip participants with the tools and understanding needed to steer confidently through this digital era. The event seeks to empower engineering students to navigate the complexities of the digital landscape, fostering innovation, adaptability, and a passion for technological growth.

Program Objectives:

- Knowledge Dissemination: Disseminate the latest research trends and advancements in technology to the attendees.
- Informative Exploration: Explore the digital landscape, providing insights into its multifaceted aspects and potential.
- Interdisciplinary Engagement: Foster engagement and collaboration between diverse engineering domains for a holistic understanding of the digital realm.
- Skill Enhancement: Enhance critical thinking, problem-solving, and analytical skills essential for navigating the digital landscape effectively.
- Networking and Collaboration: Facilitate networking opportunities for participants to connect with peers, researchers, and industry professionals.
- Ethical Awareness: Raise awareness about ethical considerations in the research, development, and implementation of digital technologies.
- Career Guidance: Provide guidance and insights into potential career paths and opportunities within the digital landscape.
- Inspiration to Innovate: Inspire engineering students to innovate and contribute to the ongoing advancements in technology.

Program Content:

- Artificial Intelligence (AI) and Machine Learning: Exploring the latest advancements and applications of AI and ML in various sectors.
- Internet of Things (IoT) and Connectivity: Understanding the interconnected world of IoT and its transformative impact on industries and daily life.
- Cybersecurity and Data Privacy: Delving into cybersecurity technologies and strategies to protect digital assets and ensure data privacy.

- Cloud Computing and Edge Computing: Uncovering the potential and applications of cloud computing and edge computing in the digital landscape.
- Digital Transformation and Industry 4.0: Analyzing the role of digital transformation and Industry 4.0 in reshaping industries and business models.
- Blockchain Technology: Exploring the fundamentals and applications of blockchain technology in various domains.
- Human-Computer Interaction (HCI): Understanding how humans interact with digital interfaces and the evolving trends in HCI.
- Future Trends and Emerging Technologies: Discussing the potential impact of emerging technologies like quantum computing, 5G, and more.

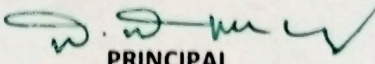

Program Outcomes:

Upon successful completion of the workshop, participants will be able to:

- Comprehensive Knowledge: Attain a comprehensive understanding of the latest research trends and advancements in digital technologies.
- Research Prospects: Identify potential research areas and opportunities for exploration within the digital landscape.
- Networking Opportunities: Establish meaningful connections with peers, researchers, and industry professionals for future collaborations and growth.
- Critical Thinking Skills: Enhance critical thinking, problem-solving, and analytical skills necessary for navigating the digital landscape effectively.
- Career Path Clarity: Gain insights into various career paths and areas of specialization within the digital technology sector.
- Ethical Responsibility: Develop a strong sense of ethical responsibility in research, development, and deployment of digital technologies.
- Inspiration to Innovate: Be inspired to innovate and contribute to the ongoing technological advancements that shape the digital landscape.
- Confidence and Preparedness: Build confidence and preparedness to engage in research and projects that contribute to technological progress and societal well-being in the digital era.
