About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning the higher skills in new technologies and build their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering, was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design, and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

In pursuance of Millennium Development goals of conserving, restoring and sustainably using the ecosystems with special emphasis on applying them to improve the urban ecosystems, the NSS unit of Dr. Lankapalli Bullayya College of Engineering has taken steps towards enhancing the Green cover within the college campus. This provides the NSS cadets to understand the various steps required both individually as well as collectively to ensure that the plantations are done with the supervision of gardeners so that the Green cover flourishes and acts as a motivation to continue it further at various locations including homes and community places among others. As plantation activity needs to be preceded by Cleaning Activity, the NSS cadets plan to initially conduct a systematic cleaning of the chosen area so that the generated garbage is disposed off sustainably. The NSS unit hopes to create awareness among the fellow students, Teaching and Non-Teaching staff as well as parents and other visitors to the campus to encourage them to put the philosophy of Clean and Green into practice diligently.

Programme Officer, NSS UNIT,
Dr.LankapalliBullayya College of Engineering.

About the Program:Clean and Green Programme

Date and Venue: 22-02-2021
Engineering College Campus.

ABOUT THE PROGRAM:

Maintaining its commitment towards creating awareness among the Students, Teaching and Non-Teaching Staff, parents and other visitors to the campus regarding the need for a strong commitment individually and collectively towards a Clean and Green Ecosystem, the NSS Unit of Dr.LankapalliBullayya College of Engineering conducted a Clean and Green Plantation programme on 21-02-2021. Engaging the community in leading an environmentally conscious lifestyle is one of the chief goals of this event. This activity was carefully planned and Co-ordinated by the NSS Programme Officer by initially identifying the area where the plantation needs to be done, then systematically cleaning the area so that any garbage generated was disposed-off appropriately. Then taking the advice of the gardeners of the campus, the soil was prepared and plantation was done. NSS cadets, Students, Teaching and Non-Teaching members participated actively in the event. The participants of the event felt that if this activity was done on a larger scale rapid strides could be made in the areas of afforestation, pollution free and clean environments that foster health and prosperity.

The Secretary & Correspondent, Dr. G. Madhu Kumar, Principal, Prof.D.Deepak Chowdary and Head of Department of Civil Engineering Prof.G.T.Naidu applauded the efforts of NSS Unit as well as Teachers and Non-Teaching members who participated in the Clean and Green plantation.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Acting as a platform for environmental conservation by influencing the population at the macro and micro levels through the instruments of public policy and implementation of governments, industry and everything in between, the World Environment Day acts as a platform for all the stakeholders inhabiting this Earth to take up proactive roles and responsibilities for the conservation and protection of the environment on a large scale. Though it began under the aegis of the UN General Assembly, this movement has grown by leaps and bounds and today all the nations of the world are active participants in this mission of Environmental conservation. This forum mainly focuses on Environmental issues such as pollution of the air, water and soil as well as measures towards creating a plastic free world, eradicating illegal trade in wildlife, creating awareness and encouraging sustainable consumption, committing the economic development towards reducing greenhouse gas emissions and thereby taking steps to mitigate global sea-level increase, ensuring global food security. Patterns of consumption have an impact on the way raw materials are extracted from the environment. The World Environment Day fosters to create a movement towards sustainable consumption so that natural resources which are consumed are replenished by itself without any external interference and without impacting the resource creation-use-degradation-automatic replenishment cycle. The theme of World Environment Day 2021 is "Ecosystem Restoration", as a part of which the UN Decade of Ecosystem Restoration is to be launched. Ecosystem Restoration focuses on Growing trees, Reforesting land, Creating Green Cities, Changing Consumption patterns, Cleaning up rivers and sea coasts so that a sustainable, vibrant Ecosystem is passed on to future generations.

About the Program:World Environment Day Celebrations

Date and Venue: 03-06-2021 to 05-06-2021, Online Events

ABOUT THE PROGRAM:

Standing firm in its commitment to be a forerunner of any cause that benefits the society, Dr.Lankapalli Bullayya College once again reiterated its stand towards Ecosystem conservation and restoration by conducting "World Environment Day 2021" celebrations from 03-06-2021 to 05-06-2021. Keeping in mind the pandemic restrictions, the event was conducted online. All the students and Faculty Members of the GREEN club as well as NSS Cadets and many other interested students from the College participated in the Event. An online meeting of the Green Club Members was conducted with the Principal and Vice-Principal of the College. The Principal Dr.D.Deepak Chowdary stressed the need for Ecosystem Restoration, Revitalization and said that the current pandemic is one of the examples of an Ecological imbalance caused by man. The Green Club Members discussed the need for conducting Ecosystem Restoration activities both within the home as well as the work place as a healthy environment can create sustainable households and organizations which result in sustainable economies. The NSS Co-ordinator Mrs.S.Siva Jyothi thanked the Principal, Vice-Principal and Members of the GREEN club for their active participation in the Event.
