CIRCULAR

It is hereby informed that Green9 Energy Saving Club of Department of Electrical and Electronics Engineering at Dr. Lankapalli Bullayya College of Engineering for Women is conducting energy-saving activities within the residential areas of our college premises during weekends. All the III/IV B.Tech EEE students are informed to participate in the Energy Audits and deliver the tips for efficient energy utilisation among the public.

GREEN9 ENERGY SAVING CLUB

Dr Lankapalli Bullayya College of Engineering for Women
(Approved by AICTE, New Delhi, Affiliated to Andhra University, Visakhapatnam)
Visakhapatnam
Andhra Pradesh- 530013

About the College

Dr.Lankapalli Bullayya College of Engineering formerly known as Dr.Lankapalli Bullayya College of Engineering for Women was started in 2010 as a part of the group of educational institutions run by the Society for Collegiate Education, Visakhapatnam by the philanthropists and educationalists who visualized the need for serving the society by means of affordable, accessible and qualitative, value-based education.

There are four branches of Engineering in the college including CSE, ECE, EEE and Civil with an annual intake of 120 each for CSE and ECE while the intake for EEE and Civil being 60 seats. The Women's Engineering College then evolved into a full-fledged Co-education Engineering college in the academic year 2020-21. The college is Affiliated to Andhra University, Visakhapatnam and approved by AICTE, New Delhi.

About the EEE Department

The Department of Electrical & Electronics Engineering was established in 2010-2011. The department offers a four year B.Tech degree program. The department is resourceful in terms of infrastructure and state-of-the-art facilities to pursue academic education and research in niche areas of technology. Liberal funding from the college management has enabled the Department to acquire specialized research facilities. The highly qualified and experienced faculty in adequate strength with zero attrition rates is one of the most significant features of the department. Electrical & Electronics Engineering is an enlightening branch which requires overall peripheral

knowledge about all other branches and in-depth knowledge of Electrical & Electronics Engineering.

About the Program

Green 9 Energy Saving Club is a research forum named Energy Efficiency Research Group (GREEN9) that was formed in the year 2016 and initiated the energy efficiency activities from 18th June, 2016. The club is affiliated with a Registered Professional Society named as "The Institution of Green Engineers" (IGEN) which is registered under Societies Registration Act 27 of 1975. The club aims to produce skilled Energy Engineers through G9EnSAv Club – CEnA (Certified Energy Ambassador) and to inline the activities towards UN Sustainable Development Goals 7 & 13. The quest is to reduce the Carbon dioxide footprint by reducing energy demand through effective energy audit.

The Department of EEE is planning to conduct the Energy Audit of Residential Buildings in the nearby areas through Green 9 Energy Saving Club. The students of EEE Department are the Members of the Green 9 Energy Saving Club.

In this Energy Audit the Members of G9EnSAv Club will visit the Residential Buildings in the nearby areas and conduct the Residential House Preliminary Audit using a separate Audit Questionnaire. The members will also suggest Energy Efficiency tips for the residents.

Program Description:

The Green 9 Energy Saving Club is a research forum that was formed in 2016 by a group of energy experts across the globe to discuss energy consumption and natural resources. The club aims to reduce the carbon dioxide footprint by reducing energy demand through effective energy audit, design, development, and implementation of innovative products that can provide solutions for energy efficiency. The club also promotes awareness of saving energy and renewable energy to the public.

OBJECTIVES OF IGEN GREEN9

- To produce skilled Energy Engineers through G9EnSAv Club – CEnA (Certified Energy Ambassador)
- To inline the activities towards UN Sustainable Development Goals 7 & 13
- The quest to reduce the Carbon dioxide footprint by reducing energy demand through effective energy audit
- To design – develop – implement innovative products which can provide solutions for energy efficiency
- To promote save energy/renewable energy awareness to the general public.

EnSAv India 2022 – To achieve Twenty Lakhs Energy Efficiency Houses by 2022 with the support of EnSAv Club members, in aid of seventy fifth year celebration in 2022.

Event Highlights:

- **Energy Audits:** Our students will conduct energy audits at selected locations, offering personalized recommendations for energy-saving improvements.
- **Tips for Energy Efficiency:** Get expert advice on simple changes you can make to save energy and reduce utility bills.
- **Prizes and Rewards:** Participate in the activities for a chance to win exciting prizes and rewards. These informative and interactive events will make a positive impact on the environment and daily life. For more information, please contact the coordinator Mr. M.Srinivas, Assistant

Impact of Energy Audit on Beneficiaries:

The Energy Audit conducted by the students of Dr. Lankapalli Bullayya College of Engineering for Women under the Green9 club had a profound and positive impact on the beneficiaries, primarily the residents of our local community.

Impact on Beneficiaries:

Reduced Energy Costs: One of the most significant and immediate benefits experienced by the beneficiaries was a notable reduction in their monthly electricity bills. The implementation of energy-saving recommendations led to cost savings for households and businesses alike. Many beneficiaries reported substantial reductions in their energy expenses, alleviating financial burdens.

- **Energy Conservation:** The audit's recommendations empowered beneficiaries to adopt energy-efficient practices and technologies. As a result, energy consumption was reduced, leading to conservation of valuable energy resources.
- **Increased Awareness:** The energy audit and subsequent recommendations played a vital role in raising awareness about responsible energy consumption within the community. Beneficiaries became more conscious of their energy use and its broader impact on the environment. This heightened awareness led to a more informed and environmentally responsible community.
- **Enhanced Quality of Life:** By lowering energy costs and reducing energy wastage, beneficiaries experienced an improved quality of life. The financial relief allowed families to allocate resources to other essential needs.
- **Skill Development:** In addition to benefiting the community, the energy audit provided valuable experiential learning opportunities for the students involved. They gained practical skills in energy auditing, data analysis, and communication, which will serve them well in their academic and professional pursuits.

The Energy Audit conducted by the students of Dr. Lankapalli Bullayya College of Engineering for Women through the Green9 club brought tangible and lasting benefits to the beneficiaries. This initiative underscored our commitment to community engagement, sustainable living, and the development of socially responsible engineers. We are proud of the positive impact we have made on our local community and look forward to continuing such endeavors to benefit both our beneficiaries and the environment.

Respected Sir,

Sub: Request to grant permission to Organize Swachh Bharath Campaign in the Resapuvanipalem Slum on 10-07-2019 - reg

As a part of regular NSS Activities, the NSS Unit of Dr.Lankapalli Bullayya College of Engineering would like to organize a Swachh Bharath Campaign in the Resapuvanipalem Slum on 10-07-2019 . I request you Sir to kindly grant permission to conduct the event on that date.

Thanking you Sir.

Yours Sincerely,
S. Sivasjyothi
(Mrs. S.Siva Jyothi)

About the Institute:

Dr. LankapalliBullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning the higher skills in new technologies and build their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. LankapalliBullayya College of Engineering , was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design, and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

In pursuance of Millennium Development goals of conserving, restoring and sustainably using the ecosystems with special emphasis on applying them to improve the urban ecosystems, the NSS unit of Dr.LankapalliBullayya College of Engineering has taken steps towards enhancing the Green cover within the college campus. This provides the NSS cadets to understand the various steps required both individually as well as collectively to ensure that the plantations are done with the supervision of gardeners so that the Green cover flourishes and acts as a motivation to continue it further at various locations including homes and community places among others. As plantation activity needs to be preceded by Cleaning Activity, the NSS cadets plan to initially conduct a systematic cleaning of the chosen area so that the generated garbage is disposed off sustainably. The NSS unit hopes to create awareness among the fellow students, Teaching and Non-Teaching staff as well as parents and other visitors to the campus to encourage them to put the philosophy of Clean and Green into practice diligently.

National Service Scheme Unit

Event Co-ordinator: Mrs.S. Siva Jyothi,

Programme Officer, NSS UNIT,

Dr.Lankapalli Bullayya College of Engineering.

About the Program: Swachh Bharath Campaign in the Resapuvanipalem Slum on
10-07- 2019 – reg

Date and Venue: 10-07-2019.
Resapuvanipalem slum.

ABOUT THE PROGRAM:

Maintaining its commitment towards creating awareness among the Students, Teaching and Non-Teaching Staff, parents and other visitors to the campus regarding the need for a strong commitment individually and collectively towards a Clean and Green Ecosystem, the NSS Unit of Dr.LankapalliBullayya College of Engineering conducted a Swachh Bharath Campaign in the Resapuvanipalem Slum on 10-07-2019 . Engaging the community in leading an environmentally conscious lifestyle is one of the chief goals of this event. This activity was carefully planned and Co-ordinated by the NSS Programme Officer by initially identifying the area where the plantation needs to be done, then systematically cleaning the area so that any garbage generated was disposed-off appropriately. Then taking the advice of the gardeners of the campus, the soil was prepared and plantation was done. NSS cadets, Students, Teaching and Non-Teaching members participated actively in the event. The participants of the event felt that if this activity was done on a larger scale rapid strides could be made in the areas of afforestation, pollution free and clean environments that foster health and prosperity.

The Secretary & Correspondent, Dr. G. Madhu Kumar, Principal, Prof.D.Deepak Chowdary and Head of Department of Civil Engineering Prof.G.T.Naidu applauded the efforts of NSS Unit as well as Teachers and Non-Teaching members who participated in the Clean and Green plantation.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering for Women, was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Even though industrialization resulted in creating products that have benefitted mankind immensely, one of these products appears to be in the area of polymers and plastics. Though the production and utilization of plastic became a success globally, the corresponding technology required for recycling them responsibly has not been developed or focused upon to the extent required. This has resulted in non-degradable plastic products being dispersed irresponsibly, which resulted in polluting the environment including soil, ground water, oceans and air significantly. These pollutants have resulted in affecting the health of individuals living in these areas globally. The effect of this pollution can be reduced by focusing on the cause rather than handling the consequences. One major attempt globally to temporarily halt this rapid pollution is to create awareness in the minds of the general public regarding the health concerns of unregulated production, use and disposal of plastic generated both commercially as well as domestically. The NSS UNIT of Dr.Lankapalli Bullayya College of Engineering for Women observed and predicted that a large section of the inhabitants of the city of Visakhapatnam as well as in the surrounding regions would attend the Giripradakshina event in large numbers. Based on this observation the NSS UNIT has planned to run an Awareness campaign as well as supporting the devotees participating in the walk with water and buttermilk. This usually has the positive effect of reinforcing the need for environmental conservation in the minds of the public which might result in reduced plastic use and responsible disposal.

Visakhapatnam

09 -07-2019.

From

S. Siva Jyothi
N.S.S Programme Officer,
Dr.Lankapalli Bullayya College of Engineering for Women ,
Visakhapatnam.

To

The Principal,
Dr.Lankapalli Bullayya College of Engineering for Women,
Visakhapatnam.

Respected Sir,

Sub: Request to grant permission to conduct Awareness Programme regarding
the water and Air Pollution in the resapuvanipalem slum on 12-07-2019-reg.

In order to create awareness among the citizens regarding the need for reduce the quantum of plastic consumption among the general public and its impact on health, the NSS Unit of Dr.Lankapalli Bullayya College of Engineering would like to conduct this event in which a large section of the citizens of the resapuvanipalem slum participate. The NSS unit plans to provide a small token of assistance to the citizens participating in the walk in the form of water and air pollution. I would like to request you to kindly grant permission to NSS cadets to conduct the event on 12-07-2019.

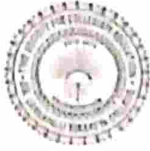

Thanking you Sir.

Your 's Sincerely,
S. Siva Jyothi

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering for Women, was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Even though industrialization resulted in creating products that have benefitted mankind immensely, one of these products appears to be in the area of polymers and plastics. Though the production and utilization of plastic became a success globally, the corresponding technology required for recycling them responsibly has not been developed or focused upon to the extent required. This has resulted in non-degradable plastic products being dispersed irresponsibly, which resulted in polluting the environment including soil, ground water, oceans and air significantly. These pollutants have resulted in affecting the health of individuals living in these areas globally. The effect of this pollution can be reduced by focusing on the cause rather than handling the consequences. One major attempt globally to temporarily halt this rapid pollution is to create awareness in the minds of the general public regarding the health concerns of unregulated production, use and disposal of plastic generated both commercially as well as domestically. The NSS UNIT of Dr.Lankapalli Bullayya College of Engineering for Women observed and predicted that a large section of the inhabitants of the city of Visakhapatnam as well as in the surrounding regions would attend the Giripradakshina event in large numbers. Based on this observation the NSS UNIT has planned to run an Awareness campaign as well as supporting the devotees participating in the walk with water and buttermilk. This usually has the positive effect of reinforcing the need for environmental conservation in the minds of the public which might result in reduced plastic use and responsible disposal.

Co-ordinator: Mrs.S. Siva Jyothi,

Programme Officer, NSS UNIT,

Dr.Lankapalli Bullayya College of Engineering for Women.

About the Program:Awareness Campaign regarding Water and Air pollution

Date :15-07-2019

Venue :Resapuvanipalem Slum

About the programme:

The NSS Cadets under the supervision of the NSS Programme Officer participated in this event conducted near the resapuvanipalem slum on 15-07-2019. The NSS cadets enthusiastically explained to the stall visitors regarding the health hazards of water and air pollution and the need to reduce plastic consumption as well as responsible disposal on a day-to-day basis. The visitors and general public were receptive to the idea of reducing water and air pollution to safeguard their own health as well as health of future generations.

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering for Women, was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

The NSS unit of Dr.Lankapalli Bullayya College Of Engineering for Women conducted a Literacy Review in the slum and also to create awareness among the slum people to why and how to increase the literacy rate among themselves on 13/07/2019 from 9.00A.M to 4.00P.M as a part of N.S.S activity.

Visakhapatnam

12 -07-2019

From

S. Siva Jyothi
N.S.S Programme Officer,
Dr.Lankapalli Bullayya College of Engineering (for Women),
Visakhapatnam.

To

The Principal,
Dr.Lankapalli Bullayya College of Engineering(for Women),
Visakhapatnam.

Respected Sir,

Sub: Request to grant permission to conduct Awareness Programme regarding the Health hazards of Plastic on 15-07-2019- reg.

In order to create awareness among the citizens regarding the need for reduce the quantum of plastic consumption among the general public and its impact on health, the NSS Unit of Dr.Lankapalli Bullayya College of Engineering would like to an event on the occasion of "Giripradakshina" in which a large section of the citizens of the city participate. The NSS unit plans to provide a small token of assistance to the citizens participating in the walk in the form of water and buttermilk to quench the thirst of the devotees. I would like to request you to kindly grant permission to NSS cadets to conduct the event on 15-07-2019.

Thanking you Sir,

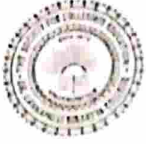

Yours sincerely,

S. Siva Jyothi

About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering for Women, was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

Even though industrialization resulted in creating products that have benefitted mankind immensely, one of these products appears to be in the area of polymers and plastics. Though the production and utilization of plastic became a success globally, the corresponding technology required for recycling them responsibly has not been developed or focused upon to the extent required. This has resulted in non-degradable plastic products being dispersed irresponsibly, which resulted in polluting the environment including soil, ground water, oceans and air significantly. These pollutants have resulted in affecting the health of individuals living in these areas globally. The effect of this pollution can be reduced by focusing on the cause rather than handling the consequences. One major attempt globally to temporarily halt this rapid pollution is to create awareness in the minds of the general public regarding the health concerns of unregulated production, use and disposal of plastic generated both commercially as well as domestically. The NSS UNIT of Dr.Lankapalli Bullayya College of Engineering for Women observed and predicted that a large section of the inhabitants of the city of Visakhapatnam as well as in the surrounding regions would attend the Giripradakshina event in large numbers. Based on this observation the NSS UNIT has planned to run an Awareness campaign as well as supporting the devotees participating in the walk with water and buttermilk. This usually has the positive effect of reinforcing the need for environmental conservation in the minds of the public which might result in reduced plastic use and responsible disposal.

About the Program:Awareness Campaign regarding Health hazards of Plastic

Date :15-07-2019

Venue :Simhachalam Hill, Muralinagar

About the programme:

The NSS Cadets under the supervision of the NSS Programme Officer as well as Faculty Members including Dr.K.AnuRadha and Mrs.N.Swathi participated in this event conducted near Simhachalam Hill at Muralinagar on 15-07-2019. The NSS cadets enthusiastically explained to the stall visitors regarding the health hazards of plastic and the need to reduce plastic consumption as well as responsible disposal on a day-to-day basis. The visitors were supplied with buttermilk and water in order to reenergize them on their long and arduous walk of 32 kms. The visitors and general public were receptive to the idea of reducing or completely stopping plastic usage in order to safeguard their own health as well as health of future generations.

About the Institute:

Dr.LankapalliBullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr.LankapalliBullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

World Hospice and Palliative Care Day is an annual unified day of action to celebrate and support hospice and palliative care around the world. The theme of the World Hospice and Palliative Care Day 2019 is "My Care, My Right". It is usually celebrated globally on the second Saturday of October which this year falls on 12th October. The main aim of this event is to provide assistance to all entities participating in this humanitarian task including the patients, their caretakers, their families, volunteers and employees of individuals working for hospices and palliative care centers. In this day and age when the quality of life of individuals has increased considerably and organizations, governments and voluntary organizations as well as society as a whole is interested in enhancing the quality of life of individuals requiring care and assistance in all possible stages of life including those in hospices. The celebration is in itself a reaffirmation of the bond of universal brotherhood and commitment to provide the best possible care, assistance and support to the most vulnerable section of people in their most vulnerable situations. The "World Hospice and Palliative Care Alliance" is an organization that works globally to oversee and provide assistance and support to communities, organizations and societies actively participating in the Hospice and Palliative Care domain.

National Service Scheme Unit

- Co-ordinator:** Mrs.S. Siva Jyothi,
Programme Officer, NSS UNIT,
Dr.Lankapalli Bullayya College of Engineering(for Women).
- About the Program:**World Hospice and Palliative Care Day 2019
- Date** :12-10-2019
- Venue** :Block 7 Seminar Hall,
Dr.Lankapalli Bullayya College of Engineering
- Chief Guest** : Dr.V.S.Raju,
Mahatma Gandhi Cancer Hospital, MVP Colony, Visakhapatnam.

About the programme:

In order to recognize the essential services provided to the vulnerable individuals in hospices undergoing palliative care by organizations working in this domain, Dr.Lankapalli Bullayya College of Engineering (for Women) celebrated World Hospice and Palliative Care Day on 12-10-2019. On this occasion Dr.V.S.Raju working at Mahatma Gandhi Cancer Hospital stressed upon the global need for providing these services as well as praised the efforts taken by organizations in and around Visakhapatnam such as SnehaSandhya Age Care Foundation, Visakhapatnam in this area. Staff of that organization presented cultural programs that entertained and provided relief, relaxation and light hearted moments to remember for the patients undergoing palliative care. Food Stalls were set up by House Wives who were volunteering to provide the proceeds of the sales to this Foundation. Staff members working at the Foundation were praised with words of encouragement and support for not only extending a helping hand to those in need but also understanding the need for providing much needed relief and relaxation through participation in this event.

About the Institute:

Dr.Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr.Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

Theme of the Event:

The main purpose of this programme is to create awareness on Women Empowerment by Power Walking. Power walking has been shown to lower risk for diabetes, high blood pressure, and some cancers. It's a great way to get fit, improve heart and joint health, as well as boost mental well-being. Women empowerment helps boost women's status through literacy, education, training and awareness creation. Increased knowledge, self-confidence and awareness of gender equity are indicators of the empowerment process. These components get developed through education. Educated women are aware of their rights and when women are aware of their rights then she/her will not face discrimination. Thus this event aims to create awareness among the general public regarding the need for Women Empowerment.

National Service Scheme Unit

Co-ordinator: Mrs.S. Siva Jyothi,
Programme Officer, NSS UNIT,
Dr.Lankapalli Bullayya College of Engineering(for Women).

About the Program:Power Walk on the Eve of International Women's Day

Date and Venue: 07-03-2020
From Kalimatha Temple to YMCA, Beach Road.

ABOUT THE PROGRAM :

In order to raise awareness about the need for Women Empowerment and the benefits and positive impact it can have on the various granular levels of family, community, society and country as a whole, a Power Walk celebrating the rapid strides the Women folk are making in the various walks of life is being organized by the NSS Unit of Dr.Lankapalli Bullayya College of Engineering in association with AP State Women's Empowerment Cell, Government of Andhra Pradesh. This event reiterates the commitment and strong faith of the NSS unit of the college as well as the Government of AP in the women, who happen to be the backbone of the society. To empower a women is to enable and equip her with the tools, techniques and behaviors necessary to grab opportunities for self-development as well as ability to organize themselves into groups and communities, thereby converting these opportunities into successful organizations, companies and products. Disempowerment which is the result of decades of social strife, stigma and ignorance can only be overcome through societal commitment towards Women Empowerment which this current event embodies. All the NSS Cadets and many female faculty members of the college participated in the Power Walk. Students as well as NSS Programme Co-ordinator explained the importance of this event to the public through interviews given to various TV channels.
