## About the Institute:

Dr. Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and personality development with which they can face the challenges of the modern world. The broad objective of the institution is to provide the right opportunities for students for learning higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding woman engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr. Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design, and development to help to build the nation. Our Campus is ideally located in the heart of the city on a 10-acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

## The theme of the Event:

Occlusion is a term used to express the relationship between the upper and lower jaw as well as teeth. This relationship is important as it can significantly impact the various functions of the mouth such as Chewing, Speaking among others. Orthodontics is a dentistry specialty that addresses the diagnosis, prevention, management, and correction of mal-positioned teeth and jaws, as well as misaligned bite patterns which are commonly called mal-occlusions. Awareness of these dental issues as well as possible preventive, corrective and restorative measures has the benefit of providing the individuals with dental health which significantly enhances the quality of life of individuals.

Since students of Engineering are usually at a stage in life where their overall health and personality play a vital role in building up and maintaining self-confidence as they face the industry, the NSS unit of Dr.Lankapalli Bullayya College of Engineering found it fit that awareness campaigns of this nature are essential and therefore have to be conducted. For this purpose, the services of Invodent Orthodontics, an organization engaged in providing Orthodontic services are being utilized. Dr. Venkata Mounika M, MDS, founder of Invodent Orthodontics has kindly accepted to be the Resource person for this webinar to be conducted via Zoom platform on 16-07-2021 at 3:00PM.

**Resource Person:**DR.Venkata Mounika M, MDS.  
Founder, Invodent Orthodontics, Visakhapatnam.

### About the Program:

As a part of the regular NSS activities, the NSS unit of Dr.Lankapalli Bullayya College of Engineering conducted an webinar to raise awareness among the student community regarding the importance of taking care of Dental health with special emphasis on Orthodontic issues such as mal-occlusions that occur due to various reasons and ways and measures to prevent, correct and restore them to a better dental configuration. The students as well as teachers of the college participated in the online event which was conducted by Dr.Venkata Mounika, MDS, from Invodent Orthodontics.

The resource person emphasized the need for regular dental checkups as well as healthy dietary practices as diet has a significant impact on dental health. She also explained about the various types of mal-occlusions that occur during various ages of individuals as well as simple checks that can be taken to ensure that these problems are identified as early as possible. Early detection leads to preventing complicated situations at a later stage.

Once these problems have been identified, then approaching a certified Orthodontist and taking the necessary measures for initiating immediate remedial measures was emphasized. The Resource person also enlightened the participants regarding the enhanced quality of life provided such measures are taken and vice-versa.

Since students who are still in the formative stage of life, it is imperative for them and their parents or guardians to take the necessary steps for necessary diagnosis, treatment and cure so that they can face life strongly and confidently with a smile.

The NSS Co-ordinator thanked the Resource person for having shared her precious insights and suggestions to the participants and encouraged them to utilize them for their own improvement.

## FUN TREK FOR FRESHERS

(28-02-2021)

### About Walkers and Trekkers Club:

A walkers and trekkers club is an organization or group that is dedicated to promoting outdoor activities such as hiking, trekking, and walking. These clubs are typically made up of people who share a love of nature and the outdoors, and who enjoy the physical and mental benefits that come with being active in nature.

The primary goal of a walkers and trekkers club is to organize group hikes and treks, which can range in difficulty from easy walks through local parks to challenging multi-day treks in remote wilderness areas. Members of the club often share their knowledge and experience with each other, offering advice on everything from gear and equipment to trail conditions and safety.

In addition to organizing group hikes and treks, walkers and trekkers clubs may also engage in other outdoor activities such as camping, rock climbing, kayaking, and mountain biking. They may also participate in environmental conservation efforts, trail maintenance projects, and other community service initiatives.

Joining a walkers and trekkers club can be a great way to meet like-minded individuals who share your passion for the outdoors, learn new skills and techniques, and explore new hiking and trekking destinations.

### Theme of the Event:

In 1986 the National Council for Science and Technology Communication (NCSTC) asked the Government of India to designate February 28 as National Science Day. The event is now celebrated all over India in Schools, Colleges, Universities and other Academic, Scientific, Technical, Medical and Research Institutions. National Science Day to pay tribute to Dr.C.V.Raman for his discovery Raman Effect for which he was awarded the Nobel Prize in 1930. National Science day is celebrated to spread a message about the importance of Science used in the daily life of the people to display all the activities, efforts and achievements in the field of science for human welfare .

It was an Eco friendly Hill Clean up trek where students cleared the thrash on the way. The purpose of the trek was to promote outdoor adventure activities and Physical Fitness among the staff and students and also to develop a connect with the Nature and to enjoy the picturesque beauty of the Hills.

On the occasion of National Science day, the Walkers and Trekkers Club in association with the Rotaract Club of Dr.Lankapalli Bullayya College of Engineering organized a 5Km trek for the First year students on 28<sup>th</sup> February 2021 at 6:00 Am at Kambalakonda.

The Principal of the College Prof.D.Deepak Chowdary, flagged off the trek. Prof K.Venkateswarlu Head of the Dept of Basic Sciences & Humanities and Dr.G.Anand Head of the Dept of EEE graced the occasion. Dr. V.Radha Devi Coordinated the trek. Over 60 students actively participated in the event. Staff of Engineering College, Ms. S.Sivajyothi, Ms. N.Swathi, Ms. U.Ganga Bhavani, Mr. M.Srinivas, Ms. M.Nidhi participated in the trek.

Photo1. Dr.D.Deepak Chowdary, Principal of Dr.Lankapalli College of Engineering flagging off the Trek.

### **About the Institute:**

Dr.Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr.Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

### **Theme of the Event:**

In a day and age when Lifestyle of an individual can significantly impact not only on the life span but also on their Quality of Life it is highly paramount that Governments and society in general have to focus and reorient their energies on restoring the imbalances caused by faulty lifestyles by way of awareness programs across various forums, platforms and media outlets. Mitigating the socio-economic impact of these health issues in a proactive manner is vital to a healthy, vibrant workforce and growing economy. It is in this context that a major cause of concern globally called Cancer needs to be addressed appropriately.

Cancer Awareness Programs are organized to create cancer awareness and remove the stigma and fear attached. They help people recognize the early signs and symptoms of cancer, thus enabling them to seek treatment at an early stage. They also educate people about the key risk factors, since more than 30% of cancer cases could be prevented by modifying these factors.

As a small effort in this direction, a webinar is being organized by the NSS unit of Dr.Lankapalli Bullayya college in association with Sanjeevani Life Beyond Cancer, a Pioneer Non-Profit organization working to provide comprehensive cancer care.

Meeting ID: 845 1947 5850

Passcode: 395296

**Chief Guest:** Dr.Sumki Begum, Oncologist & Programme Co-ordinator, SBLC.

In order to bring awareness regarding Cancer starting from prevention, diagnosis, treatment, cure, healing and care as well as lifestyle changes necessary to lead a Healthy Life Beyond Cancer, an online webinar was organized by NSS unit of Dr.Lankapalli Bullayya College of Engineering in association with Sanjeevani Life Beyond Cancer, a non-profit organization which is a pioneer in Comprehensive Cancer Care on the 4<sup>th</sup> September 2020 at 4PM.

The Chief Guest of the event, Dr. Sumki Begum, Oncologist and Program Co-ordinator, Sanjeevani Life Beyond Cancer, informed the participants of the webinar regarding the leading causes of Cancer such as Tobacco/Alcohol use, Stress, lack of adequate sleep and physical activity, unhealthy diet containing inadequate quantities of fruits and vegetables among others. She stressed upon the importance of maintaining a healthy weight as it lowers the risk of few types of cancers relating to the Breast, Prostate, Lung, Colon and Kidney. According to her, physical activity on its own had the potential to reduce the risk of cancers of the breast and colon. Addressing the female participants she said that "there has been a trend of increased number of Breast Cancer cases in urban areas in India in the recent times and that it happens to be the most common cancer in India. However Indian women either suffer in silence or leave it undiagnosed for a long time either due to ignorance or fear or stigma attached to the disease. Rather than suffering in silence, it is better that these women take proactive steps towards early diagnosis and cure", she observed. She also cited examples of various women who have acted responsibly with their own health, took such proactive measures which led to their leading healthy, happy and peaceful life even after cancer. She strongly felt the need for increasing the number of awareness campaigns among the general public so that the needy people can be provided with the right remedy at the right time, thereby building a healthier, happier India.

## Global Diabetes Walk on occasion of World Diabetes Day 2020

(14-11-2020)

### About Walkers and Trekkers Club

A walkers and trekkers club is an organization or group that is dedicated to promoting outdoor activities such as hiking, trekking, and walking. These clubs are typically made up of people who share a love of nature and the outdoors, and who enjoy the physical and mental benefits that come with being active in nature.

The primary goal of a walkers and trekkers club is to organize group hikes and treks, which can range in difficulty from easy walks through local parks to challenging multi-day treks in remote wilderness areas. Members of the club often share their knowledge and experience with each other, offering advice on everything from gear and equipment to trail conditions and safety.

In addition to organizing group hikes and treks, walkers and trekkers clubs may also engage in other outdoor activities such as camping, rock climbing, kayaking, and mountain biking. They may also participate in environmental conservation efforts, trail maintenance projects, and other community service initiatives. Joining a walkers and trekkers club can be a great way to meet like-minded individuals who share your passion for the outdoors, learn new skills and techniques, and explore new hiking and trekking destinations.

### Theme of the Event: Walk for the Blue Ribbon-Walk for Wellness

The Walkers and Trekkers Club of Dr Lankapalli Bullayya College of Engineering has organized Global Diabetes Walk 2020, a Walk for the Blue Ribbon-Walk for Wellness, a supportive campaign to spread awareness amongst people, about global diabetes disease burden. This institution provides an educational platform to support the World Diabetes Day campaign, on 14th November 2020. The primary objective of these events is to extend support to people with diabetes and their families, and strengthen their mental health and spread the awareness and information on Diabetes. With awareness and support everyone can make a difference by urging people to adopt a healthy lifestyle. Without the awareness, the consequence of diabetes illness is going to be severe in pandemics or otherwise.

The Diabetes walk was inaugurated by Dr. G. Madhu Kumar, Secretary & Correspondent of Dr. Lankapalli Bullayya College, Visakhapatnam by releasing the blue balloons along. The faculty members and students extended the support to awareness campaign through various activities like exercise in blue and global diabetes walk. Strict COVID-19 safety protocols were followed during the conduct of the activities.

The Walkers and Trekkers Club of Dr.Lankapalli Bullayya College of Engineering has organized Global Diabetes Walk 2020, a Walk for the Blue Ribbon-Walk for Wellness, a supportive campaign to spread awareness amongst people, about global diabetes disease burden. This institution provides an educational platform to support the World Diabetes Day campaign, on 14th November 2020. Prof.D.Deepak Chowdary Principal of Dr.Lankapalli Bullayya College of Engineering, Mr.S.M.Rahman, Vice-Principal of the Engineering College congratulated the participants of the programme.

**Happy mind + Healthy body=Great job**

**(22-8-2019)**

### **About the CII IWN:**

The Confederation of Indian Industry (CII) is a non-governmental, non-profit organization that aims to create and sustain an environment conducive to the growth of industry in India. As part of its efforts to promote gender equality and empower women in the workforce, CII has established the Indian Women Network (IWN), a national initiative that brings together women professionals from various industries and provides them with a platform to network, share knowledge, and collaborate.

The IWN has a presence in various states across India, including Andhra Pradesh. The CII IWN Andhra Pradesh chapter was established to promote gender diversity and inclusivity in the state's industrial and business sectors. It aims to create a supportive environment for women professionals to realize their potential, develop leadership skills, and drive change.

The CII IWN Andhra Pradesh chapter organizes various initiatives and events to empower women professionals in the state. These include conferences, workshops, training programs, and mentoring sessions. The chapter also works closely with the government, industry bodies, and other stakeholders to advocate for policies and practices that promote gender equality and women's empowerment in the workplace.

### **Theme of the Event:**

Maintaining a healthy work-life balance is crucial for overall well-being and productivity. A healthy life-work balance means finding a balance between work and other aspects of life, such as family, friends, hobbies, and personal interests. Here are some reasons why a healthy life-work balance is important:

- **Mental Health:** A healthy work-life balance can help reduce stress and prevent burnout, which can have a positive impact on your mental health. This can result in increased

### **Awareness programme on Healthy Food Habits on occasion of World Diabetes Day (14-11-2019)**

#### **About the Institute:**

Dr.Lankapalli Bullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr.Lankapalli Bullayya College of Engineering , was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

#### **Theme of the Event:**

World Diabetes Day is observed every year on November 14th to raise awareness about diabetes, its prevention and management. The day was established in 1991 by the International Diabetes Federation (IDF) and the World Health Organization (WHO) in response to the growing concerns about the increasing health threats posed by diabetes worldwide. The theme of World Diabetes Day changes every year, with the aim of promoting diabetes awareness and

education, as well as highlighting the importance of access to diabetes care, treatment, and support for people living with diabetes. The day is also an opportunity to advocate for better policies, laws, and regulations to address the global diabetes epidemic. World Diabetes Day events and activities are organized around the world by various organizations, healthcare professionals, and individuals to raise awareness and encourage action to prevent and manage diabetes. These events may include health fairs, seminars, conferences, workshops, educational campaigns, and fundraising activities to support diabetes research and advocacy.

### National Service Scheme Unit

**Title of the Program:** Awareness programme on Healthy Food Habits on occasion of

World Diabetes Day

**Co-ordinator:**

Mrs.S. Siva Jyothi,

Programme Officer, NSS UNIT,

Dr.Lankapalli Bullayya College of Engineering for Women

**Date :**

14-11-2019 at 3pm.

**Chief Guest:**

Dr.Sharmila Begum,

Professor in Biotechnology,

Dr.Lankapalli Bullayya P.G College.

On World Diabetes Day, Dr. Lankapalli Bullayya College of Engineering for Women organized an Awareness Talk on food habits to be adapted by adolescents. Dr.Sharmila Begum, Professor in Biotechnology, Dr.Lankapalli Bullayya P.G College spoke about the importance of consuming naturally grown and qualitative, nutritious food for a good and diabetic free health. Dr. Deepak Chowdary, Principal, College of Engineering, Mr. S M Rahaman, Vice-principal & Dean IQAC (Engineering College), and Dr.K.Venkateswarulu Head of the Department of Basic Sciences and Humanities attended the program and appreciated the commendable efforts of the NSS Program Officer in bringing in health awareness in students. Students expressed their willingness to adopt healthy dietary habits to lead a healthy and successful life.

### Global Diabetes Awareness Trek

(24-11-2019)

#### About Walkers and Trekkers Club:

A walkers and trekkers club is an organization or group that is dedicated to promoting outdoor activities such as hiking, trekking, and walking. These clubs are typically made up of people who share a love of nature and the outdoors, and who enjoy the physical and mental benefits that come with being active in nature.

The primary goal of a walkers and trekkers club is to organize group hikes and treks, which can range in difficulty from easy walks through local parks to challenging multi-day treks in remote wilderness areas. Members of the club often share their knowledge and experience with each other, offering advice on everything from gear and equipment to trail conditions and safety.

In addition to organizing group hikes and treks, walkers and trekkers clubs may also engage in other outdoor activities such as camping, rock climbing, kayaking, and mountain biking. They may also participate in environmental conservation efforts, trail maintenance projects, and other community service initiatives. Joining a walkers and trekkers club can be a great way to meet like-minded individuals who share your passion for the outdoors, learn new skills and techniques, and explore new hiking and trekking destinations.

#### Theme of the Event:

World Diabetes Day is observed every year on November 14th to raise awareness about diabetes, its prevention and management. The day was established in 1991 by the International Diabetes Federation (IDF) and the World Health Organization (WHO) in response to the growing concerns about the increasing health threats posed by diabetes worldwide.

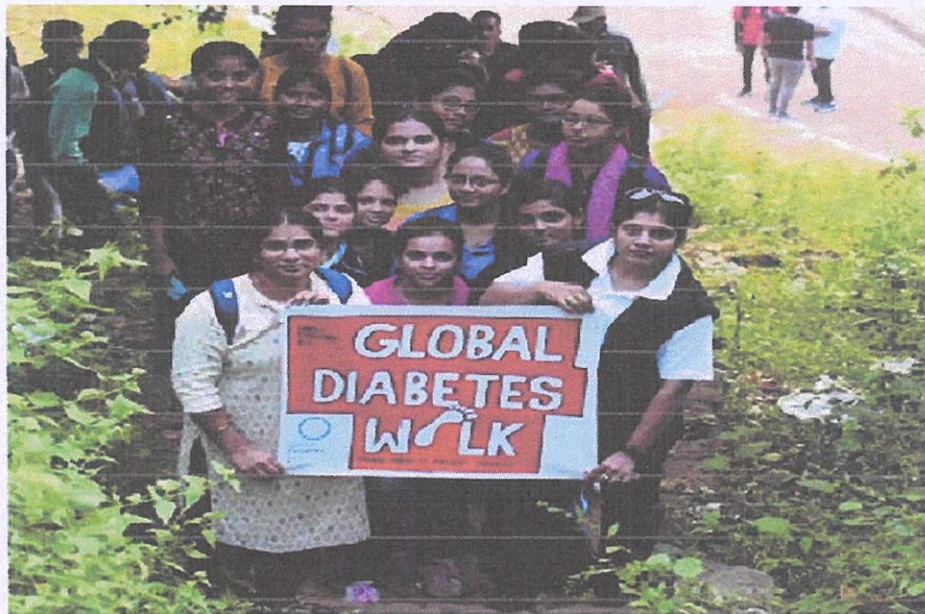

The theme of World Diabetes Day changes every year, with the aim of promoting diabetes awareness and education, as well as highlighting the importance of access to diabetes care, treatment, and support for people living with diabetes. The day is also an opportunity to advocate for better policies, laws, and regulations to address the global diabetes epidemic.

World Diabetes Day events and activities are organized around the world by various organizations, healthcare professionals, and individuals to raise awareness and encourage

action to prevent and manage diabetes. These events may include health fairs, seminars, conferences, workshops, educational campaigns, and fundraising activities to support diabetes research and advocacy.

The Walkers and Trekkers Club of Dr Lankapalli Bullayya College in association with Visakha Trekking and Sports Association organized a trekking expedition covering a 12 km range from Madhavadhara to Simhachalam. The trekking began at 7am on the 24<sup>th</sup> of November 2019 and found active participation from both students and faculty members. Around 30 students of Dr.Lankapalli Bullayya College of Engineering participated in the Event.

### **8km Trek on occasion of International Women's Day 2019 (09-03-2019)**

#### **About the Institute:**

Dr.LankapalliBullayya College of Engineering encourages and promotes education and keeps its focus on empowerment and their personality development with which they can face the challenges of modern world. The broad objective of the institution is to provide the right opportunities to students for learning the higher skills in new technologies and building their extraordinary careers in industry and research organizations.

Acclaimed by the student community as an outstanding women engineering college in the smart city Visakhapatnam, Andhra Pradesh, Dr.Lankapalli Bullayya College of Engineering (for women), was established by The Society for Collegiate Education in 2010 with the objective to produce technologists and scientists who would engage in research, design and development to help building the nation. Our Campus is ideally located in the heart of the city on 10 acre land.

The curriculum places emphasis on basic topics in engineering sciences, design and experimental methods. The College's faculty and staff strive hard with their limitless potential and technical expertise to create ingenious Engineers.

#### **Theme of the Event: Spreading Social Awareness**

Dr. Lankapalli Bullayya College of Engineering organized an 8 Km Trek in association with Visakha Trekking and Sports Association, Visakhapatnam from Madhavadhara foothill to Simhachalam and back to Madhavadhara foothill on 9<sup>th</sup> March 2019, as a part of its ongoing International Women's Day celebrations. The Trek that began at 6 AM with about 100
