OFFICE NOTE SUBMITTED TO THE SECRETARY & CORRESPONDENT

Sub: Request for according approval for conducting the proposed 5 days classes for CIVIL, ECE, EEE students on Python Programming and Web Designing – collecting Rs.350/- per student – Reg

*** **

This note is being submitted requesting approval for conducting 5 days programme for the Students of Civil, ECE, EEE on Python Programming and Web Designing

For conducting the program, the mentor is Mr Santhosh Kumar Mahapatro who has conducted such programs in many public and Private organizations and colleges. His remuneration is Rs.30,000/-.

It is further submitted that towards the programme, an amount of Rs.350/- is being collected from the students, which the student will pay first through QR code and register their names before starting the program.

The program details are furnished hereunder:

DAYS	CONTENTS
Day 1	Introduction, Data Types, Type Casting Operators, Conditional Statement, Looping Statement
Day 2	Predefined functions, User define functrions, GUI
Day 3	GUI, Files, OOPS Concept
Day 4	Web Application with Django Framework
Day 5	Web Application with Django Framework

It is, therefore, requested to kindly consider for conducting the 5 day program through Mentor Mr Santosh Kumar Mahapatro and also for collecting Rs.350/- from each of the Participants. .

About the College

Dr.Lankapalli Bullayya College of Engineering formerly known as Dr.Lankapalli Bullayya College of Engineering for Women was started in 2010 as a part of the group of educational institutions run by the Society for Collegiate Education, Visakhapatnam by the philanthropists and educationalists who visualized the need for serving the society by means of affordable, accessible and qualitative, value-based education. There were four branches of Engineering in the college including CSE, ECE, EEE and Civil with an annual intake of 120 each for CSE and ECE while the intake for EEE and Civil being 60 seats. The Women's Engineering College then evolved into a full-fledged Co-education Engineering college in the academic year 2020-21. The college is Affiliated to Andhra University, Visakhapatnam and approved by AICTE, New Delhi.

Our students participated actively and won prizes in the National Science Day Celebrations conducted by NSTL, Defence Research and Development Organization, Visakhapatnam in the category of Innovation for Societal Benefits Model category in February 2022. The college has a dedicated R&D cell, Entrepreneurship Cell and Internal Quality Assurance Cell that continue to guide and mentor the Teaching community towards academic excellence.

About Skill Development Centre

In accordance with the Vision of the College to create Value added Citizens with a world view of empowering themselves and the society through the tool of education, the Skill Development Centre works in tandem with all the departments by inculcating the right admixture of attitude and aptitude essential for students to perform and outshine others on a global scale. To achieve this, the Skill Development Centre practices two different types of training, Campus Recruitment Training as well as Campus Specific Training. In the former students are

trained on the overall set of skills required to face a recruitment drive from any company whereas in the latter students are trained in domain specific areas particular to various organizations. The Skill Development Centre aims to create a skill set that is on par with the industry standards by conducting the iterative cycle of continuous assessment, evaluation, feedback and guidance till the required benchmarks are reached.

About the Workshop

In the current Industry scenario when companies are interested to employ people with experience in the broad areas of Artificial Intelligence, Data Science and Machine Learning all of which use the various libraries provided by Python, it is imperative that current students are appropriately trained in this platform. To achieve this, the Skill Development Centre has taken up the initiative of providing training in the area of Python with a focus on Django Framework. Python is used by Data Analysts and other professionals to conduct complex statistical calculations, create data visualizations, build machine learning algorithms using libraries such as Tensor Flow and Keras that enable coders to write programs for data analysis and machine learning quickly and efficiently.

Course Contents

Introduction: Data types, Type Casting, Operators, Conditional statement, Looping statement
Predefined functions, User defined functions,
GUI:GUI, Files, OOPS Concepts
Web Application with Django Framework

Report on 5-day workshop on Python 2022

The five-day session of Python workshop was conducted from 1st to 6th **August, 2022** for the final year students of Dr Lankapalli Bullayya College of Engineering. **Mr. Santosh Mahapatro**, Senior Trainer in Python was the resource Person of this workshop. Students actively participated in the five-day training program.

Inaugural Session: The opening remarks of the five-day PYTHON programme was given by the Asst. Dean of SDC Dr V Radha Devi where she highlighted the importance of computer languages to all the non CSE's and its impact in the written exam in the placement selection process. She introduced the resource person, Mr Santhosh Mahapatro to the students and informed to utilize the opportunity.

Prof D Deepak Chowdary, Principal, Dr Lankapalli Bullayya College of Engineering while speaking about the relevance of Python said that it was a programming language which has gained significance in recent times due to its application in a wide area of domains in science, engineering and research. **Dr V Radha Devi**, Asst dean, Skill Development Centre, Dr Lankapalli Bullayya College of Engineering in her opening remarks mentioned the importance of life and how PYTHON programme will help you sustain your future so as to build up your career accordingly using the necessary skills that will enhance your growth in the software sector. **Mr D Bhujanga Rao**, coordinator SDC Resource Person and students attended the inauguration of the 5 day workshop on Python 2022.

All the SDC faculty along with few of the core faculty were identified to disseminate the relevant skills and knowledge to the students.

Resource Person:

Mr Santhosh Mahapatro, subject expert of Python programming.

E certificates were issued to students who attended all the sessions and submitted their feedback forms. The five-day program received good feedback from all the participants and they now look forward to more such sessions in the near future.

Valedictory Session: As the closing remarks, the Dean and the Coordinator of SDC including the other SDC faculty shared their insights on the the 5 day PYTHON programme and it will be more useful to all the students who have attended the sessions. Later, as a token of gratitude the Resource Person Mr Santhosh Mahapatro was felicitated with all due honour and respect.

Faculty members of CSE department.

Visakhapatnam,
15-02-2022.

From
Dr. D. Madhavi,
Head of the Department, Dept. of CSE,
Dr. Lankapalli Bullayya College of Engineering,
Visakhapatnam.

To
The Principal,
Dr. Lankapalli Bullayya College of Engineering,
Visakhapatnam.

Respected Sir,

Sub: Request to grant permission to Two Day Program on Foundational Understanding
Of Cybersecurity from 23-02-2022 to 24-02-2022-reg

In order to provide an overview of the Technologically developing area of Cybersecurity to the II B.Tech ECE students, the Department of CSE Is organizing a Two Day program on Foundational Understanding of Cyber Security from 23-02-2022 to 24-02-2022. In this regard, I request you to kindly grant permission to conduct the event .

Thanking you Sir,

Yours Sincerely,

(Dr.D.Madhavi)
HoD, Dept. of CSE.

About the College

Dr. Lankapalli Bullayya College of Engineering formerly known as Dr. Lankapalli Bullayya College of Engineering for Women was started in 2010 as a part of the group of educational institutions run by the society for Collegiate Education, Visakhapatnam by the philanthropists and educationalists who visualized the need for serving the society by means of affordable, accessible and qualitative, value-based education. There were four branches of Engineering in the college including CSE, ECE, EEE and Civil with an annual intake of 120 each for CSE and ECE while the intake for EEE and Civil being 60 seats. The Women's Engineering College then evolved into a full-fledged Co-education Engineering college in the academic year 2020-21. The college is Affiliated to Andhra University, Visakhapatnam and approved by AICTE, New Delhi. The college has a dedicated R&D cell, Entrepreneurship Cell and Internal Quality Assurance Cell that continue to guide and mentor the Teaching community towards academic excellence.

About the Department

The department of Computer Science and Engineering was started in 2010 with the aim of equipping the students sufficiently with the required theoretical foundation and practical skills needed to make them active participants in the highly rewarding field of Computer Science and Information Technology. State-of-the-art infrastructure combined with a team of highly qualified and committed teachers who strive unceasingly to enable students to achieve their goals characterize the academic environment. In accordance with the institution's vision which aims to use education as a tool to create value-added citizens, the department provides adequate opportunities for students to acquire knowledge from various sources such as Massively Online Open Courseware, NDL lectures from IITs, and regular classroom teaching. The department, which has a student branch of the Computer Society of India, conducts regular technical events such as workshops and seminars that bring awareness

among the students regarding the latest trends and developments in the ever-changing IT field.

About the program

India has the second-largest internet user population, with substantial amounts of sensitive data, including credit card information and bank details, stored online across various interconnected devices. The acceleration of digitalization, especially during the COVID-19 era, has heightened the susceptibility to cyber threats. Furthermore, a global trend towards a significant skills shortage in the cybersecurity sector exists. In response to this growing skill gap and to foster cybersecurity awareness, we have initiated programs to provide cybersecurity training and awareness sessions for second-year B.Tech students at Dr. LB College of Engineering. The two-day program is designed to provide a foundational understanding of cybersecurity issues, basic protective measures, and insights into the global skills shortage.

Course Contents

Day1: Understanding Cybersecurity Landscape

Internet User Security

Day1: Cyber Threats in the COVID-19 Era

Basic Cybersecurity Measures

Who can Attend?

This program is open to all 2nd, 3rd year B.Tech students.

**Two-Day program
on
Foundational understanding of Cybersecurity
23-02-2022 to 24-02-2022**

Two Day Program On Foundational understanding of Cybersecurity (23-02-2022 to 24-02-2022)

Course Contents

Day 1: Understanding Cybersecurity Landscape

Introduction to Cybersecurity

- Overview of cybersecurity in the digital age
- Importance of cybersecurity awareness
- Key concepts: threats, vulnerabilities, and risk management

Internet User Security

- Analysis of India's internet user base
- Risks associated with sensitive online data
- Protecting credit card information and bank details
- Safe online practices for individuals

Cyber Threats in the COVID-19 Era

- Impact of digitalisation during the pandemic
- Increased susceptibility to cyber threats
- Case studies and real-world examples

Basic Cybersecurity Measures

- Password hygiene and best practices
- Two-factor authentication
- Recognizing phishing attempts
- Introduction to antivirus software

Day 2: Bridging the Cybersecurity Skills Gap

Global Trends in Cybersecurity Skills Shortage

- Overview of the global shortage of cybersecurity professionals
- Understanding the demand for skilled individuals
- Opportunities in the cybersecurity job market

Initiatives to Address the Skills Gap

- Overview of educational and industry initiatives
- Importance of cybersecurity education and training
- Success stories and best practices

Hands-On Practical Exercises

- Interactive exercises and simulations
- Use of basic cybersecurity tools
- Real-world scenarios and case studies

About the College

Dr. Lankapalli Bullayya College of Engineering formerly known as Dr. Lankapalli Bullayya College of Engineering for Women was started in 2010 as a part of the group of educational institutions run by the society for Collegiate Education, Visakhapatnam by the philanthropists and educationalists who visualized the need for serving the society by means of affordable, accessible and qualitative, value-based education. There were four branches of Engineering in the college including CSE, ECE, EEE and Civil with an annual intake of 120 each for CSE and ECE while the intake for EEE and Civil being 60 seats. The Women's Engineering College then evolved into a full-fledged Co-education Engineering college in the academic year 2020-21. The college is Affiliated to Andhra University, Visakhapatnam and approved by AICTE, New Delhi. The college has a dedicated R&D cell, Entrepreneurship Cell and Internal Quality Assurance Cell that continue to guide and mentor the Teaching community towards academic excellence.

About the Department

The department of Computer Science and Engineering was started in 2010 with the aim of equipping the students sufficiently with the required theoretical foundation and practical skills needed to make them active participants in the highly rewarding field of Computer Science and Information Technology. State-of-the-art infrastructure combined with a team of highly qualified and committed teachers who strive unceasingly to enable students to achieve their goals characterize the academic environment. In accordance with the institution's vision which aims to use education as a tool to create value-added citizens, the department provides adequate opportunities for students to acquire knowledge from various sources such as Massively Online Open Courseware, NDL lectures from IITs, and regular classroom teaching. The department, which has a student branch of the Computer Society of India, conducts regular technical events such as workshops and seminars that bring awareness

among the students regarding the latest trends and developments in the ever-changing IT field.

About the program

Web applications play a vital role in the current customized world. In our daily lives, we are using several web applications like online banking, online ticketing, and so on. The main objective of introducing this Web Development program is to provide a clear idea about a web application architecture, how it works and the basic terminologies involved in constructing a web application.

Course Contents

Day1: Introduction

Setting up your development environment using Visual Studio

Day 2: Introduction to Html

Introduction to CSS

Introduction to JavaScript

Who can Attend?

This program is open to all 2nd & 3rd year B.Tech students.

Two Day Program

On

Web Development

(18-12-2021 to 19-12-2021)

This program is designed for II B.Tech ECE Students with basic programming skills who are interested in learning about web development concepts and tools. The main objective of this web development is to provide a clear idea about a web application, how it works and the basic technologies involved in a web application.

Workshop Objectives:

- 1 Introduction to web development concepts and technologies
- 2 Hands-on experience with web development tools and frameworks

Dr. LANKAPALLI BULLAYYA COLLEGE OF ENGINEERING

The Society For Collegiate Education

Affiliated to Andhra University, Approved by AICTE

52-14-75, Resapuvanipalem, Visakhapatnam - 530 013.

Two Day Program

On

Web Development

(18-12-2021 to 19-12-2021)

Course Contents

Day 1:

Morning:

Introduction:

Who is a web developer?

Types of developers.

Difference between fronted and backend development.

Skills required to become a web developer.

Afternoon:

Setting up your development environment using visual studio code

Day 2:

Morning:

Introduction to HTML:

- Elements
- Attributes
- Headings
- Paragraphs
- Styles
- Colors
- Links
- Tables
- iframes
- Lists
- html forms

Introduction to CSS:

- Css Syntax,
- Linking Css files to html files,
- border, margins,
- colors,
- text,
- fonts
- position,
- classes,
- background images,
- CSS animations,
- CSS transitions

Afternoon:

Introduction to Javascript:

- Introduction,
- variables,
- operators,
- const,
- data types
- functions
- control statements
- loops

Visakhapatnam.

Respected Sir,

Sub: Request to grant permission to Two day program on Cloud Computing from 13-02-2021 to 14-02-2021 -reg

In order to provide an overview of the Technologically developing area of Cloud Computing to the II B.Tech ECE students, the Department of CSE Is organizing a Two Day program on Foundational Understanding of Cloud Computing from 13-02-2021 to 14-02-2021. In this regard, I request you to kindly grant permission to conduct the event .

Thanking you Sir,

Yours Sincerely,

(Dr.D.Madhavi)
HoD, Dept. of CSE.

About the College

Dr. Lankapalli Bullayya College of Engineering formerly known as Dr. Lankapalli Bullayya College of Engineering for Women was started in 2010 as a part of the group of educational institutions run by the society for Collegiate Education, Visakhapatnam by the philanthropists and educationalists who visualized the need for serving the society by means of affordable, accessible and qualitative, value-based education. There were four branches of Engineering in the college including CSE, ECE, EEE and Civil with an annual intake of 120 each for CSE and ECE while the intake for EEE and Civil being 60 seats. The Women's Engineering College then evolved into a full-fledged Co-education Engineering college in the academic year 2020-21. The college is Affiliated to Andhra University, Visakhapatnam and approved by AICTE, New Delhi. The college has a dedicated R&D cell, Entrepreneurship Cell and Internal Quality Assurance Cell that continue to guide and mentor the Teaching community towards academic excellence.

About the Department

The department of Computer Science and Engineering was started in 2010 with the aim of equipping the students sufficiently with the required theoretical foundation and practical skills needed to make them active participants in the highly rewarding field of Computer Science and Information Technology. State-of-the-art infrastructure combined with a team of highly qualified and committed teachers who strive unceasingly to enable students to achieve their goals characterize the academic environment. In accordance with the institution's vision which aims to use education as a tool to create value-added citizens, the department provides adequate opportunities for students to acquire knowledge from various sources such as Massively Online Open Courseware, NDL lectures from IITs, and regular classroom teaching. The department, which has a student branch of the Computer Society of India, conducts regular technical events such as workshops and seminars that bring awareness

among the students regarding the latest trends and developments in the ever-changing IT field.

About the training program

Cloud computing has become a popular topic among IT aficionados in recent years. The technology is a practical answer to developing connection and storage constraints in small, medium, and enormous businesses. Cloud computing has achieved widespread popularity among organizations due to its capacity to help consumers and businesses save money by storing data in the cloud. Companies are now hunting for employees who are well-versed in cloud computing technologies as a result of this. The two-day training program is designed to provide a foundational understanding of Cloud Computing in its respective areas.

Course Contents

Module 1: Decoding Cloud Foundations

Session 1: Cloud Unveiled (Morning)

Session 2: Building Blocks: Infrastructure Expedition (Afternoon)

Module 2: Crafting Applications in the Cloud

Session 3: PaaS Symphony (Morning)

Session 4: Securing the Skies (Afternoon)

Who can Attend?

This program is open to all 2nd, 3rd year B.Tech students.

**Two Day Training program
on
Cloud Computing
13-02-2021 to 14-02-2021**

Patron

Dr. G. Madhu Kumar
Secretary & Correspondent,
Dr. Lankapalli Bullayya Colleges.

Principal

Prof. D. Deepak Chowdary,
Dr. Lankapalli Bullayya College of Engineering

Vice-Principal

Sri. Syed Mujib Rahaman,

Co-Ordinator

Prof. D. Madhavi
HOD, Dept. of CSE.

Resource Persons

Mrs. Aruna Thethali,
Assistant Professor, Dept. of CSE
Dr K Anuradha,
Assistant Professor, Dept. of CSE,

Steering Committee

Dr. K. Anuradha
Dr. G. Vamsi Krishna

Organizing Committee

Faculty members of CSE Department

Technical Team

Mr. B. Appala Narasayya Reddy, System Administrator
Mr. B. Bhaskar Rao, Lab Technician

**Two Day Training program
on
Cloud Computing
13-02-2021 to 14-02-2021**

Organized by Department of CSE

Dr. Lankapalli Bullayya College of Engineering
Sponsored by the Society for Collegiate Education

Two Day Training Program On Cloud Computing

Theme of the Program

Cloud computing has become a popular topic among IT aficionados in recent years. The technology is a practical answer to developing connection and storage constraints in small, medium, and enormous businesses. Cloud computing has achieved widespread popularity among organizations due to its capacity to help consumers and businesses save money by storing data in the cloud. Companies are now hunting for employees who are well-versed in cloud computing technologies as a result of this. Cloud computing courses and areas of expertise offered online cover topics like cloud architecture, services and hosting.

The traditional method of establishing an IT infrastructure by acquiring hardware, obtaining a license, and installing valuable software to activate its services is no longer viable. These procedures are seen to be overly time-consuming and costly. Cloud computing technology is used to replace the IT infrastructure. Pay Per Use (PPU) arrangements, which allow businesses to pay only for what they use, are becoming increasingly popular. Cloud computing is the transmission of computing services such as servers, storage, networking, databases, software, analytics, and intelligence over the internet to allow faster innovation, more flexible resources, and cost savings.

We can see a shift in global technology trends. Many businesses from different sectors are turning to the cloud to help them perform and develop on a huge scale. As the popularity of cloud computing grows, so does the demand for workers who have undergone cloud computing training and perform effectively in the system.

Two Day Training Program

On

Cloud Computing

Course Contents

Module 1: Decoding Cloud Foundations

Session 1: Cloud Unveiled (Morning)

- Defining Cloud Computing: Concepts and Core Principles
- Historical Evolution: Shaping the ICT Landscape
- Unveiling Cloud Service Models and Deployment Strategies

Session 2: Building Blocks: Infrastructure Expedition (Afternoon)

- Virtualization Unveiled: The Heart of Cloud Infrastructure
- Infrastructure as a Service (IaaS): Empowering ICT Solutions
- Mastering Storage in the Cloud: Data Management Strategies
- Practical Lab: Creating Virtual Machines in the Cloud
- Navigating Cloud Management Interfaces

Module 2: Crafting Applications in the Cloud

Session 3: PaaS Symphony (Morning)

- Platform as a Service (PaaS): Empowering Application Development
- Developing and Deploying Cloud Applications: Real-World Scenarios
- Embracing DevOps: Bridging Development and Operations in the Cloud

Securing the Cloud: Challenges and Best Practices

Session 4: Securing the Skies (Afternoon)

- Identity and Access Management (IAM): Gatekeeping in the Cloud
- Encryption, Compliance, and the Cloud Security Landscape
- Group Project: Crafting Innovative Cloud-Based ICT Solutions
- Exploring Emerging Trends: The Future of Cloud Computing
- Course Reflection, Q&A

Respected Sir,

Sub: Request to grant permission to Two day program on Modelling and simulation using Matlab on 8-02-2020 to 9-02-2020-reg

In order to provide an overview of the Technologically developing area of Modelling and simulation using Matlab to the II B.Tech CSE students, the Department of ECE Is organizing a Two day program on Modelling and simulation using Matlab from 8-02-2020 to 9-02-2020. In this regard, I request you to kindly grant permission to conduct the event.

Thanking you Sir,

Yours Sincerely,

(Dr.Solomon JV Gotham)

About the College

Dr. Lankapalli Bullayya College of Engineering for Women was started in 2010 as a part of the group of educational institutions run by the Society for Collegiate Education, Visakhapatnam by the philanthropists and educationalists who visualized the need for serving the society by means of affordable, accessible and qualitative, value-based education. There were four branches of Engineering in the college including CSE, ECE, EEE and Civil with an annual intake of 120 each for CSE and ECE while the intake for EEE and Civil being 60 seats. The college is Affiliated to Andhra University, Visakhapatnam and approved by AICTE, New Delhi. The college has a dedicated R&D cell, Entrepreneurship Cell and Internal Quality Assurance Cell that continue to guide and mentor the Teaching community towards academic excellence.

About the Department

The Department of Electronics and Communication Engineering was established simultaneously with the genesis of the Dr. Lankapalli Bullayya College of Engineering for Women in 2010 with an annual intake of 60 students. The department offers an under-graduate course of four-year duration in Electronics & Communication Engineering. The proficient faculty members in the department impart High Quality Technical education to inquisitive students of technical education. Each faculty member is actively involved in research work in his/her respective fields of specialization. Open Courseware, NDL lectures from IITs in addition to the regular classroom teaching. The department conducts regular technical events such as workshops and seminars that bring awareness among

the students regarding the latest trends and developments in field.

About the MATLAB program

MATLAB is a high-performance language for technical computing. It integrates computation, visualization, and programming in an easy-to-use environment where problems and solutions are expressed in familiar mathematical notation. Typical uses include: Math and computation. Algorithm Development. MATLAB is a programming platform designed specifically for engineers and scientists to analyze and design systems and products that transform our world. This is a matrix-based language, allowing the most natural expression of computational mathematics. MATLAB is a programming and numeric computing platform used by millions of engineers and scientists to analyze data, develop algorithms, and create models. This program is designed to provide foundational understanding on modelling and simulation using MATLAB.

TWO DAY PROGRAM ON MODELLING AND SIMULATION USING MATLAB

Theme of the Program

MATLAB is a high-performance language for technical computing. It integrates computation, visualization, and programming in an easy-to-use environment where problems and solutions are expressed in familiar mathematical notation. Typical uses include: Math and computation. Algorithm Development.

MATLAB® is a programming platform designed specifically for engineers and scientists to analyze and design systems and products that transform our world. The heart of MATLAB is the MATLAB language, a matrix-based language allowing the most natural expression of computational mathematics. MATLAB is a programming and numeric computing platform used by millions of engineers and scientists to analyze data, develop algorithms, and create models.

Introduction to MATLAB:

MATLAB is a high-performance language for technical computing. It integrates computation, visualization, and programming in an easy-to-use environment where problems and solutions are expressed in familiar mathematical notation. Typical uses include:

- Math and computation
- Algorithm development
- Modeling, simulation, and prototyping
- Data analysis, exploration, and visualization
- Scientific and engineering graphics
- Application development, including Graphical User Interface building

The MATLAB system consists of five main parts:

The MATLAB language.

This is a high-level matrix/array language with control flow statements, functions, data structures, input/output, and object-oriented programming features. It allows both "programming in the small" to rapidly create quick and dirty throw-away programs, and "programming in the large" to create complete large and complex application programs.

The MATLAB working environment.

This is the set of tools and facilities that you work with as the MATLAB user or programmer. It includes facilities for managing the variables in your workspace and importing and exporting data. It also includes tools for developing, managing, debugging, and profiling M-files, MATLAB's applications.

Handle Graphics.

This is the MATLAB graphics system. It includes high-level commands for two-dimensional and three-dimensional data visualization, image processing, animation, and presentation graphics. It also includes low-level commands that allow you to fully customize the appearance of graphics as well as to build complete Graphical User Interfaces on your MATLAB applications.

The MATLAB mathematical function library.

This is a vast collection of computational algorithms ranging from elementary functions like sum, sine, cosine, and complex arithmetic, to more sophisticated functions like matrix inverse, matrix eigenvalues, Bessel functions, and fast Fourier transforms.

The MATLAB Application Program Interface (API).

This is a library that allows you to write C and Fortran programs that interact with MATLAB. It includes facilities for calling routines from MATLAB (dynamic linking), calling MATLAB as a computational engine, and for reading and writing MAT-files.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

TWO DAY PROGRAM ON MODELLING AND SIMULATION USING MATLAB

Course Contents

- i) Introduction to MATLAB
- ii) Basics of MATLAB
 - windows - input & output – platform dependence
 - file types - general commands
- iii) Script Files; Function files
 - Functions
 - Sub functions
 - Global Variables
 - Loops
 - Branches and control-flow
- iv) Tutorials: Basics
 - Creating and working with arrays
 - Creating and Printing simple plots
 - Creating, saving and executing a script
 - Creating and executing a function file
 - Working with arrays and matrices
 - Importing and Exporting data
 - Files and Directories - Publishing reports
- v) Graphics
 - Plotting simple graphs
 - Basic 2D plots: Style Options
 - Labels, title and legend
 - Axis Control
 - zoom in and zoom out
 - Using plot editor
 - Overlay plots – Specialized 2D Plots
- vi) Examples:

fplot	semilogx	semilogy	loglog
fill	bar	barh	area
pie	hist	stem	stairs
compass	comet	pcolor	subplots
- vii) 3D plots; View
view(2) and view(3) with examples
- viii) Mesh and surface plots
Examples: plot3 – fill3
surf – surfc -surf1
meshz – waterfall
pie3 – stem3

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

TWO DAY PROGRAM ON MODELLING AND SIMULATION USING MATLAB

Schedule of the programme

Day	Date	Session	Topic	Resource Person
1	08.02.2020	FORENOON	Introduction to MATLAB	Mr. K. RAJESH KUMAR Assistant Professor, Dept. of ECE
2	08.02.2020	AFTERNOON	Basics of MATLAB & Script Files; Function files	Mr. K. RAJESH KUMAR Assistant Professor, Dept. of ECE
3	09.02.2020	FORENOON	Tutorials: Basics, Graphics and Examples	Mr. R. SANTHOSH SAI Assistant Professor, Dept. of ECE
4	09.02.2020	AFTERNOON	3D plots; View: Mesh and surface plots with different examples	Mr. R. SANTHOSH SAI Assistant Professor, Dept. of ECE

The FDP covered various topics such as: Basics of MATLAB programming (scripts & function files), Advanced data objects, solving ODEs, process modeling & optimization, simulink, modeling of electromechanical system, modeling of solar PV system, filter design & modeling and control system modeling etc. The lab sessions were beneficial to all the faculties

The speakers were so informative, expressive and enriched with knowledge that the audiences were highly grateful and appreciative. This ICT Program on **"Modeling and simulation using MATLAB"** was a true mix of skills, regularity and sincerity which brought so much to the table of the faculties of all the departments who were all praise and full of gratitude towards the organizers of the event.

The program ended with a valedictory session. We expressed our gratitude to the coordinator of program from our ECE Department and informed him that the technique they followed, the pace of their teaching, the ease with which they all presented the work and explained it, the examples, case studies quoted by them and all expressions will be imbibed by Dr.LBCE.

Two Day Program

on

Modelling and Simulation using Matlab

(08-02-2020 to 09-02-2020)

CERTIFICATE OF PARTICIPATION

This is to certify that Mr/Ms B. Silvia of
Department of Computer Science and engineering has successfully
participated in the Two Day Program on Modelling and Simulation using Matlab held during
08-02-2020 to 09-02-2020 organized by Electronics and Communication Department of Dr
Lankapalli Bullayya College of Engineering for Women, Visakhapatnam.

Respected Sir,

Sub: Request to grant permission to Two Day Program on Foundational Understanding
of MS Office from 21-09-2019 to 22-09-2019-reg

In order to provide an overview of the MS Office to the II B.Tech CSE students, the
Department of CSE is organizing a Two Day program on Foundational Understanding of MS
Office from 21-09-2019 to 22-09-2019. In this regard, I request you to kindly grant permission
to conduct the event.

Thanking you Sir,

Yours Sincerely,

(Dr.D.Madhavi)

About the College

Dr. Lankapalli Bullayya College of Engineering for Women was started in 2010 as a part of the group of educational institutions run by the Society for Collegiate Education, Visakhapatnam by the philanthropists and educationalists who visualized the need for serving society by means of affordable, accessible and qualitative, value-based education. There were four branches of Engineering in the college, including CSE, ECE, EEE and Civil, with an annual intake of 120 each for CSE and ECE, while the intake for EEE and Civil was 60 seats. The college is Affiliated to Andhra University, Visakhapatnam and approved by AICTE, New Delhi. The college has a dedicated R&D cell, Entrepreneurship Cell and Internal Quality Assurance Cell that continue to guide and mentor the Teaching community towards academic excellence.

About the Department

The department of Computer Science and Engineering was started in 2010 with the aim of equipping the students sufficiently with the required theoretical foundation and practical skills needed to make them active participants in the highly rewarding field of Computer Science and Information Technology. State-of-the-art infrastructure combined with a team of highly qualified and committed teachers who strive unceasingly to enable students to achieve their goals characterize the academic environment. In accordance with the institution's vision which aims to use education as a tool to create value-added citizens, the department provides adequate opportunities for students to acquire knowledge from various sources such as Massively Online Open Courseware, NDL lectures from IITs, and regular classroom teaching. The department, which has a student branch of the Computer Society of India, conducts regular technical events such as workshops and seminars that bring awareness among the students regarding the latest trends and

developments in the ever-changing IT field.

About the program

Microsoft Office is the most widely used tool for sharing/presenting professional information by a considerable number of companies in the world. The benefits of Microsoft Office to business productivity is so important that all computer-based professionals today are very familiar with Office. It is used at home, schools and offices daily for organizing, handling and presenting data and information and offers programs that can be used both in a web browser and on a desktop. In technology-driven workplaces, employers expect employees to have a working knowledge of Microsoft Office programs like Word, Excel, and PowerPoint. Ensuring the students are taught how to use these programs, this will set them up for success when they enter the workforce

Course Contents

Two Day Program

On

Foundational understanding of MS Office

(21-09-2019 to 22-09-2019)

Microsoft Office is the most widely used tool for sharing/presenting professional information by a considerable number of companies in the world. The benefits of Microsoft Office to business productivity is so important that all computer-based professionals today are very familiar with Office. It is used at home, schools and offices daily for organizing, handling and presenting data and information and offers programs that can be used both in a web browser and on a desktop.

At technology-driven workplaces, employers expect employees to have a working knowledge of Microsoft Office programs like Word, Excel, and PowerPoint. Ensuring your students are taught how to use these programs will set them up for success when they enter the workforce.

Microsoft Office suite can arm our students with the technical skills they need to flourish in the real world.

Organizing data and insights with Excel

Not only should students be able to organize, analyze, manipulate, and present data within Microsoft Excel, they should be able to communicate their insights in a way that helps build a business's competitive advantage.

Creating polished business documents in Word

There's more to Microsoft Word than word processing. Students can harness intuitive editing features, advanced formatting options, tables, lists, and sleek design elements to create documents and proposals.

Presenting ideas to a group with PowerPoint

Engineering students are no strangers to PowerPoint. But understanding the ins and outs of the software can turn a basic slideshow into a dynamic presentation that lets their professional skills shine.

This training supports our students by helping them sharpen their technical skills in Microsoft Office.

Two Day Program On Foundational understanding of MS Office (21-09-2019 to 22-09-2019)

Course Contents

Day 1: Understanding of MS-Word and PowerPoint

MS-Word Course contents

- Getting Started With Word. Topic A: Navigate in Microsoft Word. ...
- Formatting Text and Paragraphs. Topic A: Apply Character Formatting. ...
- Working with Alignments ...
- Managing Lists. ...
- Adding Tables. ...
- Inserting Graphic Objects. ...
- Controlling Page Appearance.

MS-PowerPoint Course contents

- PowerPoint Basics
- Create Presentations
- Insert and Modify Text
- Work with Graphics and Media, Final Preparations
- Deliver a Presentation

Day 2: Understanding of Excel

- Introduction
- Entering, Editing and Formatting Data
- Formatting Numbers
- Managing Worksheets
- Understanding Formulas
- Conditional Formatting
- Formatting Charts
- Adding Graphics to Spreadsheets Macros

Dr. D. MADHAVI

Professor & Head

Department of Computer Science & Engineering

Dr. Lakshapalli Bullayya College of Engineering (for Women)

Dr. Lakshapalli Bullayya College of Engineering (for Women)

Dr. Lakshapalli Bullayya College of Engineering (for Women)

Survey No. 44, D. No. 52-14-75,
Resapuvani Palem, Visakhapatnam-580013

Dr Lankapalli Bullayya College of Engineering for women

Approved by AICTE, New Delhi & Affiliated to Andhra University, Visakhapatnam

ResapuvaniPalem, Visakhapatnam, Andhra Pradesh.

Two Day Training Program

on

Foundational understanding of MS Office

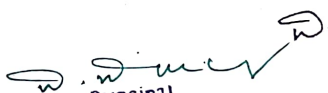

(21-09-2019 to 22-09-2019)

CERTIFICATE OF PARTICIPATION

This is to certify that Mr/Ms P. Pallavi of
Department of Computer Science and Engineering has successfully
participated in the Two Days Training Program on Foundational understanding of MS Office
held during 21-09-2019 to 22-09-2019 organized by Computer Science and Engineering
Department of Dr Lankapalli Bullayya College of Engineering for Women, Visakhapatnam.

Convenor & HOD CSE

Principal
Dr. Lankapalli Bullayya College of
Engineering for Women,

Respected Sir,

Sub: Request to grant permission to Two Day Program on Foundational Understanding of BIG Data on 08-09-2018 to 09-09-2018 -reg

In order to provide an overview of the Technologically developing area of BIG Data to the II B.Tech CSE students, the Department of CSE Is organizing a Two Day program on Foundational Understanding of BIG Data on 08-09-2018 to 09-09-2018. In this regard, I request you to kindly grant permission to conduct the event .

Thanking you Sir,

Yours Sincerely,

(Dr.D.Madhavi)
HoD, Dept. of CSE.

About the College

Dr. Lankapalli Bullayya College of Engineering for Women was started in 2010 as a part of the group of educational institutions run by the Society for Collegiate Education, Visakhapatnam by the philanthropists and educationalists who visualized the need for serving the society by means of affordable, accessible and qualitative, value-based education. There were four branches of Engineering in the college including CSE, ECE, EEE and Civil with an annual intake of 120 each for CSE and ECE while the intake for EEE and Civil being 60 seats. The college is Affiliated to Andhra University, Visakhapatnam and approved by AICTE, New Delhi. The college has a dedicated R&D cell, Entrepreneurship Cell and Internal Quality Assurance Cell that continue to guide and mentor the Teaching community towards academic excellence.

About the Department

The department of Computer Science and Engineering was started in the year 2010 with the aim of equipping the students sufficiently with the required theoretical foundation and practical skills needed to make them active participants in the highly rewarding field of Computer Science and Information Technology. State-of-the-art infrastructure combined with a team of highly qualified and committed teachers who strive unceasingly to enable students achieve their goals characterize the academic environment. In accordance with the vision of the institution which aims to use education as a tool to create value added citizens, the department provides adequate opportunities for students to acquire knowledge from various sources such as Massively Online Open Courseware, NDL lectures from IITs in addition to the regular classroom teaching. The department which has a student branch of Computer Society of India conducts regular technical events such as workshops and seminars that bring awareness among the students

regarding the latest trends and developments in the ever changing IT field.

About the program

Big data, often touted as a transformative force, can seem daunting due to its sheer scale and complexity. But at its core, it's about harnessing the immense power of information. Imagine not just gigabytes, but exabytes of data - a mind-boggling amount that traditional tools simply can't handle. This is where big data steps in, offering innovative ways to capture, store, process, and analyze this colossal information treasure trove. This workshop is designed for engineers with basic programming skills who are interested in learning about big data concepts and tools. Participants will gain a practical understanding of how to work with large datasets and how to apply big data techniques to solve real-world engineering problems and thereby prepare them for a successful career in IT industry.

Course Contents

Day 1:	Introduction to BIGDATA Data Storage and Management
Day 2:	Data Processing and Analysis Big Data Applications in Engineering

Who can Attend?

This program is open to II B.Tech CSE Students

Two Day Program On Foundational understanding of BIGDATA (08-09-2018 to 09-09-2018)

This program is designed for II B.Tech CSE Students with basic programming skills who are interested in learning about big data concepts and tools. Participants will gain a practical understanding of how to work with large datasets and how to apply big data techniques to solve real-world engineering problems.

Workshop Objectives:

- 1 Introduction to big data concepts and technologies
- 2 Hands-on experience with big data tools and frameworks
- 3 Understanding of different data storage and processing techniques
- 4 Ability to analyze and visualize big data
- 5 Gaining insights from big data for informed decision making

Two Day Program On Foundational understanding of BIGDATA (08-09-2018 to 09-09-2018)

Course Contents

Day 1:

Morning:

Introduction to Big Data:

What is big data?

Characteristics of big data (volume, variety, velocity, veracity)

Why big data is important for engineers

Big Data Ecosystem:

Different components of the big data ecosystem (data sources, storage, processing, analysis, visualization)

Overview of popular big data tools and frameworks (Hadoop, Spark, Kafka, etc.)

Hands-on Lab 1: Introduction to Hadoop

Setting up a Hadoop environment

Working with HDFS (Hadoop Distributed File System)

Running simple MapReduce jobs

Afternoon:

Data Storage and Management:

Different data storage options for big data (relational databases, NoSQL databases, data lakes)

Choosing the right storage solution for different use cases

Hands-on Lab 2: Exploring Data with HDFS

Exploring data stored in HDFS

Using tools like Hive and Pig for data querying

Day 2:

Morning:

Data Processing and Analysis:

Big data processing frameworks (MapReduce, Spark)

Data wrangling and cleaning techniques

Analyzing big data using tools like Spark SQL and pandas

Hands-on Lab 3: Analyzing Big Data with Spark

Using Spark for data processing and analysis

Working with structured and unstructured data

Creating visualizations with Spark

Afternoon:

Big Data Applications in Engineering:

Case studies of how big data is being used in different engineering disciplines
Examples of big data applications in areas like manufacturing, transportation, energy, etc.

Hands-on Lab 4: Building a Big Data Application

Working on a real-world big data project using the learned concepts

Presenting the project and findings
